### BLUE SPIREA

**Hardy New  
BLUEMIST**  
The Sensational  
New Blue Shrub

AN577—A striking, low growing, 5 ft. shrub from Minnesota that blooms all summer and fall. Silvery-green foliage and sky-blue Spirea-like flowers. Absolutely nothing like it. Price: 75c each, 2 for \$1.39, postpaid.

### New MONT-MORE CHERRY

Often Bears 1st Year

AN56—Ideal cherry that comes into full production in 3 to 4 yrs. Fruit often larger than Montmorency. Dwarf growing—only 10 to 12 ft. for easy picking, and small backyards. Bears anywhere from Georgia north. Absolutely hardy. Prices: big 3 to 4 ft. trees \$1.49 each; 3 for \$4.38; 5 for \$7.15, postpaid.

### EARLY GIANT PEA

166—The biggest and best of the early podded peas. Ready for picking in 65 days. Vigorous growing dark green vines that grow 20 to 24 inches but do not need staking (they'll do better if staked). Pods are large medium green in color, filled with from 7 to 9 great big sweet peas. Price: 3 oz. packet 20c; 1/2 lb. 35c; 1 lb. 46c; 3 lbs. for \$1.40, postpaid.

### ARISTOCRAT GLADS

<b>CORONA</b> ABG351 Light pink, creamy throat.	<b>STOP-LIGHT</b> ABG352 Ruffled brilliant red.	<b>WHITE GOLD</b> ABG350 Satiny cream shading to gold.	<b>BLUE BEAUTY</b> ABG353 Strong growing medium blue.
---	---	--	---

35c each, 3 for 98c, postpaid.  
All 4, 1 of each, only 95c, postpaid. ABG380X

### HARD-I-FIELD

Field's New "Contest Melon"

330—This is the melon so many thousands of you sent in names for. Winner of the contest was Mrs. Eva B. Wanger, and I think you'll agree her name is a good one. See page 6. It's about the sweetest, best tasting melon I've ever had. Oval shape, 5-7 lbs. Thick, heavy orange flesh. Ideal for market, stands handling. Not much seed this year. Pkt. 25c.

Hardy

### Fragrant CARNATIONS

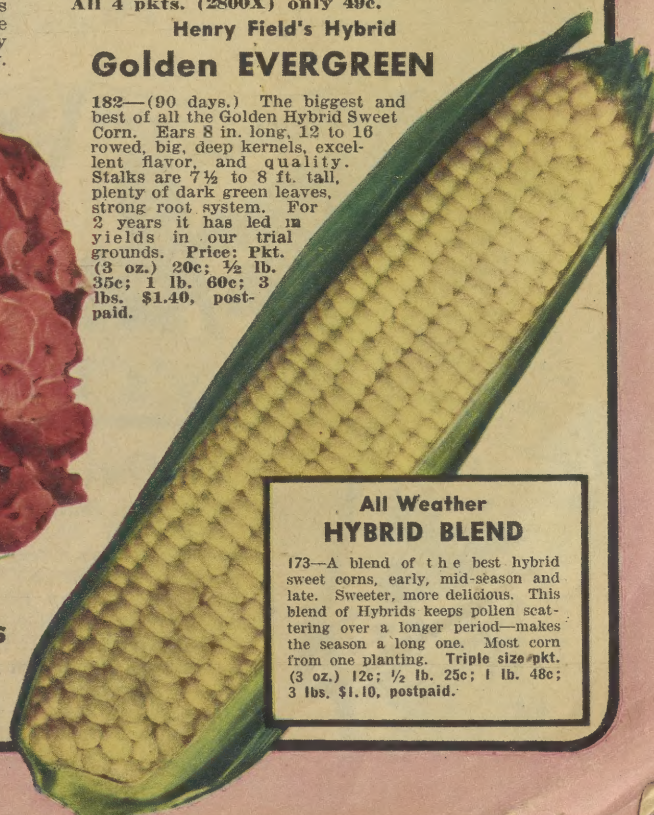

"They Bloom  
in the Garden  
Like They Do  
in the Greenhouse"

Amazingly beautiful and fragrant, like the florists' carnations. Bloom first year from seed, and can be taken indoors and potted for winter flowers. 1047—Yellow. 1044—Pink. 1046—White. 1045—Scarlet. Pkt. 15c. All 4 pkts. (2800X) only 49c.

Henry Field's Hybrid

### Golden EVERGREEN

182—(90 days.) The biggest and best of all the Golden Hybrid Sweet Corn. Ears 8 in. long, 12 to 16 rowed, big, deep kernels, excellent flavor, and quality. Stalks are 7 1/2 to 8 ft. tall, plenty of dark green leaves, strong root system. For 2 years it has led in yields in our trial grounds. Price: Pkt. (3 oz.) 20c; 1/2 lb. 35c; 1 lb. 60c; 3 lbs. \$1.40, postpaid.

### All Weather HYBRID BLEND

173—A blend of the best hybrid sweet corns, early, mid-season and late. Sweeter, more delicious. This blend of Hybrids keeps pollen scattering over a longer period—makes the season a long one. Most corn from one planting. Triple size pkt. (3 oz.) 12c; 1/2 lb. 25c; 1 lb. 48c; 3 lbs. \$1.10, postpaid.

# POPCORN

I imagine I have tried about as many different kinds of popcorn as any other fellow in this part of the country. As soon as something new comes out, I try it. If it is worth putting in the catalog you will find it listed here.

The culture of popcorn is about the same as field corn. Plant it after frost danger is past; the first part of May is about right here. If you want to put it in hills you can put three or four kernels to the hill and space the hills about 15 inches apart, with the width of rows 2 or 2½ feet apart depending on how you are going to tend it. If you plant by the acre you will need 5 or 6 pounds per A.

Be sure to try some of the new Hybrid South American. It has everything, yield, volume and flavor.

## HYBRID SOUTH AMERICAN POPCORN

194—(110 days). Here it is—the Popcorn you have all been waiting for. The new Hybrid South American. You all know about the regular South American Popcorn—how it pops up in such large creamy yellow grains, is a vigorous grower, makes splendid yields, and all that—well, you can say all that and a lot more for the NEW HYBRID SOUTH AMERICAN. The added hybrid vigor gives this corn the largest and most uniform ears. Its yields are terrific, a vigorous grower, and best of all the corn pops out with a tremendous volume. Seed limited.

IT POPS BETTER

### 8 REASONS WHY HYBRID IS BEST

1. GREATER YIELDS—60 to 70 bu. to acre.
2. DROUGHT RESISTANT—Long roots go deep for moisture and plant food.
3. RESISTS COLD—Can be planted early.
4. DISEASE RESISTANT—Vigorous plants.
5. FARMER STYLE CORN—Big yields of big, round ears.
6. STIFF STALKS—Stand like a ramrod. Can be picked with a mechanical picker.
7. GREATER POPPING VOLUME—Round cap kernels pop bigger—has better flavor, too.
8. MULTIPLE EARS—Two good ears to stalk.

### To Commercial Growers

Can't say enough about my new Hybrid South American. Yields are being reported up to 70 bushels to the acre, and commercial growers everywhere are clamoring for seed. Can't supply everybody. Only limited quantity available.

Prices: 100 lb. lots, 45c lb. F.O.B. Shenandoah, Ia.

### PURDUE HYBRID No. 32

190—PURDUE NO. 32. This is the best of the Purdue Hybrids, originated by the Purdue University. If you want this type of hybrid, this is the number to buy. A South American type. Price: Triple size (3 oz.) Pkt. 20c; ½ lb. 45c; 1 lb. 75c; 3 lbs. \$2.10; 10 lbs. \$6.50, postpaid.

### GIANT POPCORN

197—(110 days). SOUTH AMERICAN (ARGENTINE GIANT). Here's the giant. Pops out in large, creamy-yellow grains. Large ears and smooth grain. Yields heavily. A vigorous grower. Price: Triple size (3 oz.) Pkt., 9c; ½ lb., 20c; 1 lb., 30c; 3 lbs., 75c, postpaid.

### NEW HYBRID HULLESS

193—(100 days). Absolutely the last word in popcorn. Originated by Minnesota Experiment Station and has a 16% greater yield with a popping volume more than 29% over the ordinary Jap Hulless. You just can't beat it for flavor and tenderness. Supply limited. Price: Triple size (3 oz.) Pkt., 15c; ½ lb., 35c; 1 lb., 60c; 3 lbs., \$1.45, postpaid.

195—WHITE HULLESS—(100 days). Recognized for years as the standard variety of popping corn. Pops out snowy white, very tender and without annoying hulls. A sharp pointed, deep grained corn, with short chunky ears. Price: Triple size (3 oz.) Pkt., 10c; ½ lb., 20c; 1 lb., 34c; 3 lbs., 92c, postpaid.

## Have an EARLIER Garden by planting "H. F." Vegetable PLANTS

Our vegetable plants are outdoor grown, state inspected, thrifty, clean and vigorous. They are ready to go into your garden and do a real job for you. Yes, this is a picture of some of my family but not near all. I have about 50 direct descendants (65 counting the in-laws) and this shows about one-third of them. Nice healthy looking bunch too.—H. F.

## A Letter from "Henry Himself"

The world is some better off since I last wrote you here in my corner of the catalog—but not much. We're still unsettled, still waiting for things to come back to normal, still not sure of where we're going and what's going to happen to us.

When you read the newspapers these days, you begin to wonder if the world has gone crazy. Everybody seems about to fight his neighbor, and who's going to win, or why we should be fighting in the first place, is hard to understand.

Some of you good folks look forward to this annual visit. I'm proud that you do, and I only wish that I could give you something new—something really reassuring this year. But I'm afraid I'm going to have to stick to my old story—that the best things in life come from simple living, that simple living begins at home and the garden.

I've been writing to you about living and gardens and living IN gardens for over fifty years now. As you know, I really do live in my garden, NOT to mention from it. And I think we all should. It makes good sense all along the line.

I think my family is a good example. You can see about a third of it in the picture at the top of the page. Good, healthy looking bunch, aren't they? Not a sick one in the lot. Not one serious illness ever. Well, they were all brought up to live in and from the garden. Good vegetables and fruit, along with plenty of milk and other simple foods, helped. So did the peace of mind that only working in a garden can give.

The other picture is of Mrs. Field and myself. We're some older as you can see. A little grayer, but just as gay. We still work in the garden like we did thirty years ago. We still can and freeze what we grow, and have enough stored away to be independent of prices and shortages.

Uncertain as everything is these days, we intend to go on living that way. Growing our own food and preserving it for use the year around. And you should, too. No sense in paying the high prices we do. No sense in suffering from shortages either. We can grow everything we need to eat but salt and coffee, and if we don't do it, there's no one to blame but ourselves.

Fruit is the best example. Look what you have to pay for a bushel of apples. Check it and see the next time you go to market. And you'll find that you can buy 3 or 4 apple trees of your own, for the price of just one measly bushel of fruit.

I get letters every day complaining about the high cost of living. Don't like to answer them. They make me mad. Especially when good customers write that way. Anybody can be independent and not pay the high food prices if he will get down to earth and grow what he needs—even if he lives in town. I've said it for 50 years and mean it more today than ever.

This has been a busy year at the seedhouse. Can't remember when we worked so hard. Seems like it's harder to get things done than ever before. What with labor scarce and wages higher than ever, I don't know how we were able to grow so many nice things for you, especially at such low prices. That's one thing about getting older—you learn from experience. But everything's in now. We've got the seed and nursery stock and most everything you could want. And it's good. Best I ever had, and I'm proud of it.

Looks like I've been preaching a sermon again. And I guess you've got down to the end of it, too. So write me your garden sermon. I'll be glad to read it just like you've read mine.

HENRY FIELD

P.S.—I'll be looking for your orders earlier this year than ever. There's going to be a bigger demand than ever for things to grow to eat. Some things are going to run out I know, and of course, the early order is on top of the heap.—H. F.

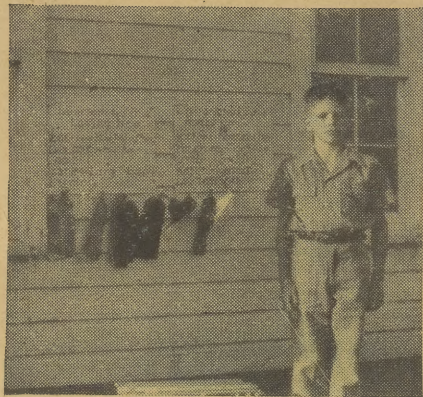

P. P. S.—Don't want you to forget all of the beautiful flowers in the catalog. There are more this year than ever. Lots of new ones and all of the best old ones.—H. F.

LATEST PICTURE OF "THE BOSS" & MRS. FIELD

Here's the latest picture of "the old folks"—if you call Mrs. Field and myself old. We are working as hard as ever and have always believed that plenty of hard work and fresh air and good fruit and vegetables from our own garden will keep us young if anything will.—H. F.

### 18 Ribbons from H.F. Seed

"Dear Henry: Here is our son, Robert Lee with his 18 ribbons won at the county 4-H fair. He was county champion in the garden and, of course, his seed came from Henry Fields. He received \$5.50 in prizes on his garden. His total amount of prize money was \$29.75. He had his vegetables down by his feet and I missed getting them in the picture. Robert Lee is 11 yrs. old. He has on his outfit he won third prize on in the 'Best Groomed' contest."—Mr. & Mrs. Henry Reidel, Matfield Green, Kansas.

### 4 Little Pals

"Dear Mr. Field: I ordered some seed from you last year and grew some very fine flowers and vegetables. I've never bought better seed anywhere. The children were delighted with their packet of seeds, and grew lots of vegetables. Here is a picture of them with their Boston Bull dog and their pet sheep which was raised on the bottle. Marilyn was 10 and Donald 6. Think your Seed Sense is a grand little magazine."—Mrs. Harry Shaffer, Rt. 1, Box 55, Tolu, Kentucky.

### The Policy of the House

This "policy of the house" are the rules I set up for my helpers in the business way back some 30 or 40 years ago. It still is our guiding set of principles for our business dealings and holds good without the change of a word or a comma.

In all dealings with customers we keep in mind these general rules that have been the settled policy of the business from the start.

1. **Be Helpful**—Answer the customers' questions kindly, intelligently, fairly and carefully, whether there is an order in it for us or not.

2. **Don't Suss Back**—If the customer gets sassy, be patient, explain, and take the blame. It is natural to want to sass back, but it never got anyone anywhere.

3. **Give the Customer the Benefit of the Doubt**—It is generally safe to leave it to him and put him on his honor. Show him we want to be fair, and he will always come back in the same spirit.

4. **We believe in liberal treatment of customers**, extra seeds, extra care in packing, promptness, better measure and certainty in filling orders.

5. **We don't believe in hot air, big words, penny shaving, trickery, carelessness or ill humor.** Cut them out. H. F.

### My Nursery Guarantee

My nursery stock is all state inspected, free from disease, of the heaviest quality, and first class in every way I don't send it out. That's why I can guarantee it. I also guarantee my stock to be absolutely true to name. If it proves otherwise, you can have your choice of replacement free or a full refund on the entire purchase price.

If you are not pleased in every way with my nursery stock when you receive it, return it promptly at my expense and I will replace it at once or refund your money, as you prefer. I guarantee it to reach you in first class live, growing condition. After you have planted it, if it fails to grow, I think we ought to divide up on the blame. I'll take one half and you and the weather take the other, and I'll replace at half price anything unsatisfactory through any fault of the stock. Fair enough?

### Daddy's Helper

"Dear Mr. Field: Our son-in-law, Mac Robinson, was wounded in Germany and during his months at home on convalescence leave he planted a melon patch with 'H.F.' seeds we had on hand. The picture is our little—and only—grandchild, Larry Mac Robinson on a load of melons he helped his daddy pick. We have ordered H.F. seeds for 15 yrs. and have started our children on the same track."—Mrs. Jim Bowman, Norborne, Missouri.

### Starting Young

Mrs. Birdie Barnes, Saint Joe, Arkansas sends this picture of her little daughter milking her goat. Mrs. Barnes says, "She has milked a goat for over 2 yrs. now all by herself, morning and night. She will be 5 in June."

### Hello "Boots"

"Dear Mr. Field: I have bought seeds, etc., from you for several years and find they are certainly what you say they are, and I am always pleased with everything. I am enclosing a picture of my little granddaughter, Dorothy Jean Drummond, wearing her grandfather's boots. Hope to see this in one of your magazines."—Mrs. Mae Drummond, Glasgow, Missouri.

### The Different Seed Catalog

I don't know how many people have written in and said, "Henry, we certainly enjoy your catalog. Somehow, it's more friendly and honest than the usual run."

Those are letters I'm mighty proud of. It's what I've tried to make my seed book—an honest, helpful aid to gardeners—something different than they usually find in seed catalogs.

Seed catalogs, as a general rule, are fancy advertising agents' dreams of what a garden should look like. They spend a lot of money painting up pictures of things you couldn't grow even if you lived in the garden of Eden. And most gardeners are expert enough to realize that and they resent it.

To make my catalog different, I try to use honest photographs—not fancy drawings or "retouched" pictures. I try to make my descriptions honest and to tell you the bad things about a variety as well as the good ones. If a variety isn't so good or if another one is better, I try to give you my opinion on the subject.

When I was a market gardener years ago, folks used to come to me to get seed "to grow things like you grow, Henry." And I gave them the actual seed and a little honest help. I found it paid, and I haven't given up the policy since.

We're just folks like you and think we know a little more about seeds and plants than most. We want you to feel at home, and if you believe that here, at last, is an "honest," "different," "homey" catalog, that's just right. H. F.

### Sold Like Hotcakes

"Dear Henry: I sure had good luck with your Golden Bantam Giant Hybrid sweet corn. I had 14 rows 150 ft. long and I picked over 1400 ears off of them. They sold like hot cakes last week. I was the first on the market here and at Spencer and I sold \$38.00 worth. I also gave away a lot to my close friends."—Dave L. Davis, Linn Grove, Iowa.

### TWO GLADIOLUS SPECIALS

#### GLAD BULBLETS

500 for \$1.00  
ABG360—I always sell scads of Gladiolus bulblets each year. They sell like hotcakes. It's a good way to get a glad garden cheap, too. Same size as I plant for growing my own bulbs here. If you are willing to wait a year for a part of your flowers (20% will bloom the first year) plant these bulblets. Bulblets

are simply small bulbs not yet grown to the largest blooming size. Full cultural directions with each order.

1000 for \$2.50; 300 for 90c;  
100 for 35c, all postpaid

#### MIDDLE SIZE GLADS

Here is a money saver! Buy smaller bulbs. This fine mixture will give you a beautiful assortment of all kinds and all colored glads at a very low cost. Included in the mixture are some of the most expensive varieties, and every color of glad you have ever seen. You will have lots of blooms the first year and for years to come. It's a great way to start a real glad garden.

ABG386X—20 Junior Size Bulbs for 50c, postpaid.  
ABG387X—40 Junior Size Bulbs for 98c postpaid.

### 29 Years Ago

"Dear Mr. Field: This picture is my husband and little son, Ronnie age 4. The field is tobacco and a corn field. The picture was taken with a camera I got from you as a premium for selling your seeds 29 yrs. ago. I sold seeds for you for many years."—Mrs. Wm. Bolen, Greenville, Ohio.

### How I Ship

Every year there are a few customers who write in to say that some of their nursery order is missing. Sometimes, of course, we make a mistake. But not often. What usually happens is that the order is split up according to when the nursery should be planted. Take a Spring order, for instance. Let's say the order was for garden seed, trees and perennials. We'd divide such an order up into three shipments. The garden seed would leave Shenandoah the day after your order arrived. The trees would be shipped at the best time to plant them for your neighborhood. The perennials, because they are so small and need very careful packing, would be sent in a separate package. So don't worry about your order if everything doesn't come in one package. Look over the papers in the order carefully. They'll tell you about it. And anyway, you can depend on Henry Field to send good stock, on time, and at a fair price.

### Every Seed Grew

"Dear Henry: A short time ago I sent for some of your best Brome Grass seed. It got here OK and was planted and I wish you could see it now. Looks like every seed grew. Thank you."—Jordan Tally, Council Grove, Kansas.

### 50c Each for Pictures

I always need pictures. Can't put out a Seed Sense or Catalog without them. Especially of your "H.F." Hybrid corn crib or you holding some ears and your chicks. And always want those snaps of your garden and flowers, and children and family groups or snaps of anything interesting.

If I can use them in the catalog or Seed Sense, I still pay 50c each when I do. The only rule is, they must be extra prints that you don't want back for I never know which I can use till each Seed Sense time. You enjoy seeing what others are doing—well, they enjoy seeing what you are doing just as much.

### All Are Growing

"Dear Sir: Thanks for your letter about my order and your interest in your customers. Every item has come through and all seem to be growing. Some of the Streamliner strawberry plants already have berries on them, and the White Snowball bush will be in full bloom in a few days."—Mrs. Helen Pittard, Rt. 3, Box 250, Suffolk, Virginia.

### SAMPLE COPY OF SEED SENSE

These 3 pages are a sample of my little private gardening magazine, Seed Sense, that I publish from time to time throughout the year and send free to all my garden seed, nursery, baby chick, and field seed customers. That's the subscription price—an order from you now and then so if you'd like to get a copy, get your order in as early as you can, and I'll see that you get one.

Henry Field.

### A Back View

"Dear Mr. Field: This is my little son, Earl Greer, age 19 mos. picking some prize 'H.F.' zinnias. They were so large they looked like dahlias. I hope to see this picture in one of your magazines."—Inez C. Young, Box 262, Lockney, Texas.

Well here it is and I hope Mrs. Young will send us another picture of little Earl one of these days. And you might give us a front view next time. H.F.

### How to Grow Trees

Anybody can grow trees almost anywhere, if he will just take reasonable care in planting them. More trees are lost from carelessness than any other reason. Follow these simple suggestions, and you can't go wrong.

1. Plant trees the day they arrive. Don't let them sit around even one day. Don't even heel them in unless absolutely necessary.

2. Trim off  $\frac{1}{2}$  of every branch, except the leader, with a sharp knife or shears. Trim all broken or extra long roots.

3. Plant the same depth as it was growing in the nursery. You can easily see the dirt line.

4. Tamp dirt well around the roots while planting and after.

5. Leave trench around tree and soak well after planting. Soak twice a week for first two months unless weather is very rainy.

6. Guy all trees over 6 feet in height with wire or rope for the first year.

### Write Me a Letter

I always like to hear from my friends who grow my seed and nursery stock, so write me a letter. Tell me how things did for you. And if there's anything I can help you with, don't hesitate to ask. Advice, such as we can give, is free for the asking at Henry Fields.

### No Doubt From Now On

"Dear Henry: Just a few lines to let you know what a fine garden we are enjoying from your seeds. The beans are the very best strain I have ever raised, especially the yellow wax beans. Your Hybrid sweet corn was also very good despite adverse weather conditions. We had doubt at first of your seeds because they were so cheap, but you can depend on an order from us each year from now on. Your grapes also are doing fine."—Fred E. Verwold, Rt. 2, Williamsburg, Ohio.

### No C.O.D.'s Please

A few of you customers write in wanting me to send out nursery stock C.O.D. I just can't do it. What with all the delays concerned in the shipping of C.O.D.'s it isn't practical. Nursery stock should be planted the day received if it is to do best for you.

### Prize Winners

Always like to list a few of the finest and the best of the gladiolus—the prize winners. This year I've got 3 that are really outstanding. They're expensive, but worth it if you want the newest.

ABG354 — PURPLE HEART — Deep lavender and purple.

ABG355 — BLAZE — Flashing crimson.

ABG356 — SILENTIUM — Tall straight white with throat feather.

Will send any of these at 40c each or all 3 (ABG381X) for 98c, postpaid; 2 collections (6 bulbs) for \$1.68, postpaid.

### Wonderful Growth

"Dear Mr. Field: Last spring you shipped us 3 Hybrid Elms 6 ft. tall. This picture shows my husband, who is 6 ft. tall, standing beside one of the elms, so you can see how wonderful the tree has grown."—Mrs. Otto Foster, 1332 Fletcher Avenue, Fort Wayne, Indiana.

### Most Beautiful Mum

OLIVE LONGLAND (New Chrysanthemum). This is one we missed when we were putting the catalog together, so I had to put it in Seed Sense rather than leave it out altogether because it is too fine a chrysanthemum not to have in. This is one of the fine chrysanthemums originated by Dr. Krause of the U. S. Dept. of Agriculture, and the parent stock was grown in Minnesota. I think it is probably the finest chrysanthemum he has introduced. The bloom is a huge salmon-orange color measuring some 3 in. across under ordinary conditions. Folks who have visited our fields here at Shenandoah this fall have almost invariably picked this variety as a favorite, and we notice that when we send the girls out to cut flowers for the office, nine times out of ten they will come back with Olive Longland. It is a beautiful color and one that is not duplicated in any other chrysanthemum that I know of. Also, this plant is very early flowering and then it keeps right on blooming right up to the time that the freezes kill the tops off the plant. It will make a beautiful mass of bloom in the garden and is one of the finest of all the cut flower chrysanthemums. Price: 65c each; 2 for \$1.00, postpaid. No. BN41.

### Good Luck Plants

ABG400—Want to have good luck this year? Plant several of these Good Luck Plants in your garden and watch them grow. The leaves are enormous — often  $1\frac{1}{2}$  inches across—and all perfect 4 leafed as illustrated. Plant in garden like Glads or plant in pots. You'll have Good Luck leaves to give your neighbors when they call. Add several to your order. Make fine gifts. Price 10c each; 3 for 25c, postpaid.

### A Constant Joy

"Dear Mr. Field: Just received your Seed Sense and Catalog and thanks so much. I enjoy them so much. The Glads I ordered from you last spring have been a constant joy all summer. I am never without a bouquet of them on my desk. Down here we leave the bulbs in the ground all winter and so have some very early blooms. The grapes I got from you 3 yrs. ago are loaded with fruit this year. You can expect another order soon."—Mrs. Leon Collard, Fisk, Missouri.

### FREE GIFTS with Your Order at Field's

You always get a free gift at Henry Fields. It's been a policy of mine for more years than I can remember to give full measure and then some. Some years in the past I've said just what the free gifts would be. This year I'm making it my choice, and I know you like what I send you.

Remember, there's always a free gift—with every order—the bigger the order, the more free gifts, or the bigger the gift.

### A Kiss in Grandma's Garden

"Dear Henry: Here is a picture taken in our flower garden. The lovely Phlox are of your plants, and the little folks are our grandchildren, Karen Ann Bredeson and Gene Phillips. Our yard is practically all flowers from your catalog, and have blooms the whole season until frost."—Mr. & Mrs. George Schurman, Garretson, South Dakota.

### Henry Field Stores

Hope all you Iowa, Nebraska and Missouri customers, and others too, can drop in on one or more of my retail stores. They are all completely equipped and supplied with almost everything I sell in the catalog, and my managers know their business and will be glad to help you on any farm or garden problem.

Here's where they are located:  
Ft. Dodge, Ia., 517-19 Central Ave.

Storm Lake, Ia., 512 Erie  
Des Moines, Ia., 815 Locust  
Des Moines Nursery Store, 3801 Douglas

Lincoln, Nebr., 921 "O" St.  
Council Bluffs, Ia., 535 West Broadway

Omaha, Nebr., 5124 So. 24th  
Omaha Nursery Store, 7110 Dodge St.

Atlantic, Iowa, Highway No. 6  
Beatrice, Nebr., 621 Court St.  
Maryville, Mo., 521 No. Main

St. Joseph, Mo., 102 No. 3rd  
And, of course, there is always the Shenandoah store where Pate Simmons and all the rest of us help out.

### Oats for This Year

We recommend that you sow Marion oats this year for best yield, and we have a good supply if your order gets in ahead of the rush. Iowa State College says that Marion outyielded all other regular varieties of oats such as Boone, Tama and Control in 1946. That is why they recommend it as first choice over all others for this spring. Marion stood the blight attack much better than others.

The new varieties introduced by Iowa State College like Benton and Clinton have already been allotted and sold out for this year. Please don't ask for them—we hope to have a supply in 1948. With these two new varieties sold out your best bet is Marion. Better not wait too long if you want in on our supply of seed.

### Blend of Gladiolus

I have a special and very wonderful blend of the finest gladiolus varieties that I couldn't get in the catalog, so am giving it to you here. This blend has every imaginable color and shade, with plain petals and ruffled one. The bulbs are clean, vigorous, big ones that should bloom all season. I call it my "20 Grand" Glad Offer, and it contains 20 big, blooming size glads, every one guaranteed to bloom. All 20 only \$1.00, postpaid. ABG382X. 2 collections for \$1.69, postpaid.

### A Gift from Fields

"Dear Mr. Field: I wanted you to see a picture of my beautiful Amaryllis which was gotten as a gift to me from you. It shaded from crimson to nearly black at the center. There are 4 flowers open on the picture and the other stalk opened a few days later with 3 flowers. I have used your seeds for years and think they are really fine."—Mrs. John Ingwersen, Rt. 1, Clinton, Iowa.

### Remarkable

"Dear Mr. Field: Elizabeth Ann, our 2 yr. old daughter is posing with one of the large heads of cabbage we raised from some of your seed. The head measured 15 in. in diameter and weighed 14 $\frac{1}{2}$  lbs. Our carrots were certainly remarkable too."—Mrs. A. B. Klock, Foreston, Minnesota.

### Picked Mother's Flowers

"Dear Mr. Field. Here is a snapshot of my three yr. old daughter, Karen Sue, just after she had picked all of my tulips—buds and all. Last fall I bought 25 tulip bulbs on a group offer from you as a start and they all did very well. Karen is a great lover of flowers just like her mother and grandmother, Mrs. B. Carlisle, another Henry Field customer."—Mrs. A. J. Ricchi, 655 W. Stone Street, Kankakee, Illinois.

### "Wonderful Lettuce"

"Dear Mr. Field: My little girl is holding our first head of Great Lakes lettuce, of which we were very proud. The head weighed over 3 lbs. and later we had heads that were even larger. It is certainly a wonderful lettuce."—Mrs. Lillian Tefs, Rt. 1 Box 47A, Saint Joseph, Michigan.

### Reddest of All Reds

Every spring and fall I get lots of telephone calls and letters from people who want to get this earliest flowered of all peonies—The Fernleaf Double Blood Red Peony. It is one of the scarcest peonies there are and I have had an awful time to try to get plants enough to work up a stock. We have them coming on, and although we don't have enough to put in our regular catalog, I am going to slip them into Seed Sense here, so you sharp-eyed folks who really read Seed Sense will benefit by the offer. This is the very earliest of all peonies to bloom, blooming around the early part of May with us here at Shenandoah. The flower is a brilliant double crimson. It doesn't grow very tall, and is surrounded by finely cut ferny foliage much like that of the garden cosmos. I am going to list this peony at \$1.50 each although I don't think you will find it listed for less than \$3.00 in any of the few catalogs that are carrying it this spring. No. BN311.

### Rape Feed for Hogs

We are offering genuine Dwarf Essex Rape again this year. Believe we have plenty to go around for the first time in years. Nothing quite beats Rape for quick results, rapid gain, and cheap feed for hogs and this is especially true this year. Plant it at rate of 5 to 8 pounds per acre any time from April through the summer months. 10 lbs., \$2.25; 25 lbs. \$4.75, postpaid. With other feed costs so high we are glad to be able to offer Rape at the lowest price in years. Take advantage of it right now.

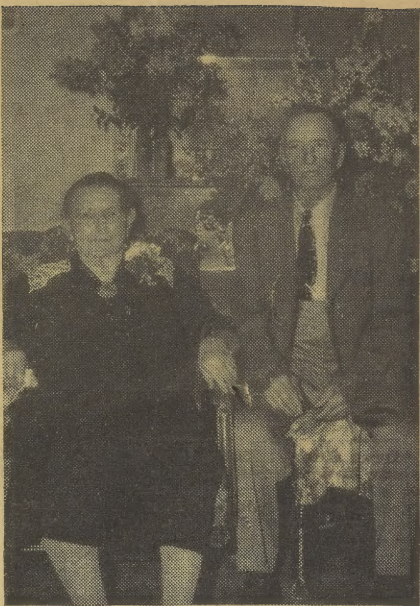

### From Now On

"Dear Mr. Field: The seed I ordered from you last year was really fine. I didn't know I could raise such fine watermelons. They were really wonderful. I sure know where to get my seeds from now on."—Annie Pearl Marina, Box 71, Ethel, Arkansas.

### "H.F." Chicks in Ohio

"Dear Mr. Field: I received your new '46 catalog and free glad bulbs and wish to thank you. I am sending a picture of my husband holding 2 of the white wyandotte broilers we got from you last year. We have used H.F. seeds for as long as I can remember and expect to continue to use them."—Mrs. N. J. Whittam, Rt. 1, Quaker City, Ohio.

### Golden Wedding

"Dear Mr. Field: I'm enclosing our Golden Wedding picture. Also want to tell you how much we enjoy your Seed Sense. Have raised 6 children, all boosters for Henry Field seed. Rest assured we will get our order in early this year."—Mrs. Mary Springer, Rt. 3, Perry, Oklahoma.

Congratulations to you Mr. & Mrs. Springer. Will send you a rose bush in celebration of your Golden Wedding. H.F.

### Brome Grass for Spring

Brome is really scarce this year for the first time in years. Crop just didn't come along to produce a good seed set and with feed supply low in many areas, the Brome was used for pasture and hay and not left for seed. Brome is being used more for planting terraces, waterways, contour plantings and a lot of it for permanent pastures in place of bluegrass. Thickening up old Alfalfa stands is just another new use of Brome.

All this leads up to the honest fact that the supply of Brome won't last out the spring seeding season. Get yours and get it right now. This includes all kinds of Brome we have listed for those who order early. Better be safe than sorry and you will thank us for telling you about it.

### Bug Dust Got 'Em

"Dear Henry: Just a few lines to tell you how wonderful your seeds are doing and also the cabbage plants. Everything we put in the ground has come up. The bugs were starting on my turnips, radishes and cabbage but when I put some of your Bug Dust on them the bugs sure disappeared. You can always count on us as being one of your regular customers."—Minnie & Steve Gile, Rt. 1 Box 10, Fountain, Colorado.

### Seeing Is Believing

"Dear Mr. Field: I got two of your Regal lily bulbs last summer and there was 8 blooms on one plant. We moved last Dec. 3rd and on the 5th of Dec. I planted my flowers here at our home. This year I had 27 flowers on two stalks from the one bulb. Is that a record of some kind? All the people that saw the blooms and counted them couldn't believe it. But seeing is believing so they had to believe it."—Mrs. Joseph G. Raes, 1216 26th Street, Moline, Illinois.

### FREE FOR 1c FOR KIDS ONLY

This is for the kids and how they love it. They can't buy everything they'd like to raise so I've rolled 100 packets into one and made a big mixture of every kind of garden and flower seed imaginable.

It's a giant packet. It costs 1c. But it must be your own penny. Don't ask the folks for it.

Write "Conglomeration Packet" on your folks' order, slide in your 1c, and you'll be buying your OWN garden.

This must come with your folks' order.

Henry Field.

### In Daddy's Footsteps & Pants

"Dear Mr. Field: My 2 little boys, Robert and Norbert, better known as Robby and Butch. They are wearing their daddy's suits and like their father they started planting Fields seeds early in life. They each have a tiny garden. I have been ordering my seeds for a number of years from you and have always been more than pleased with them."—Mrs. Harvey Werneke, Rt. 1, Sweet Springs, Missouri.

### All About Hedges

Dig trench 10 in. wide. Set plants along straight side of trench as shown in Illustration J and a trifle lower than they were in nursery row. Trim within five inches of ground immediately after planting to give bushy growth. When new growth starts, nip off the end of each growth to stimulate branching. Set privet and other upright varieties 6 to 12 in. apart; Barberry and other bushy shrubs 1 foot apart; tall shrubs for high edges 2 to 4 feet apart.

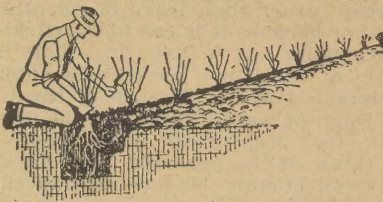

Illustration "J" Setting a Hedge

**HEDGE PRUNING**—Hedge pruning should be done several times each season—before growth starts in the spring, in May and in July. An evergreen hedge should be clipped in late May or early June after the new growth has started. If you have a weak, straggly hedge, cut it back to within a few inches of the ground, fertilize it well and it will grow out nicely for you. Always prune top narrower than bottom so bottom will get sun.

### How to Plant Grapes

Dig hole big as though planting an apple tree, and use the same method. Remove part of tops and roots as shown in picture on "Top pruning line," and "Bottom pruning line." Leave two buds above surface. Set 6 ft. apart in rows 6 ft. apart. First year only the main stem should be allowed to grow and one vine trained each way on 2 trellis wires about 24" and 36" above ground respectively.

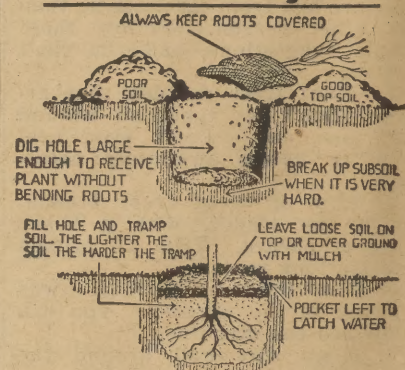

Prune canes in February when weather is not cold back to 2 or 3 buds (6 to 8 in. long). Fruit is produced from canes of previous season's growth. Cut off old canes which have borne fruit.

### Good Luck, Jimmie and Trixie!

"Dear Mr. Field: Here is a picture of my grandson, Jimmy Lingle. He is sending for your Junior Seedmen collection. I know Jim and his pony, Trixie, will have real success selling your seeds. I have used them for forty years and know they are fine. I believe I have received every issue of 'Field's Seed Sense' and enjoy it very much. Those are Field's Hopi Lima beans in the background of this picture."—Mrs. Inez Maddox, Madanda, Illinois.

### General Planting Rules

Dig a hole large enough to accommodate the roots without crowding, and deep enough so tree can stand 1½ in. deeper than it stood in the nursery row. Trim off roots with sharp knife. Loosen soil in hole and set tree, spreading roots out in a natural position. (See Picture above.) Then, fill in some of the fine top soil, joggling tree up and down to work soil when around roots. Tramp around tree with your feet, and pack the earth real solid so no air pockets remain.

Now fill hole half full of soil, using top soil first. Slowly pour on a bucket of water to thoroughly wet soil. Let settle, then fill with earth and tramp down firmly. Leave a depression around the tree to collect and hold moisture.

### Likes H.F. Seeds

"Dear Henry: Just a few lines to let you know how well we liked the seeds we got from you. We got 2 qts. of onion sets and 300 plants from you in the spring. We got 4 bu. from them all together. Some of them measured 5 in. across and weighed 2 lbs. apiece. We also got 1 bu. of alfalfa seed and now that the grain is cut and off it sure looks good. You can look for another order from us next spring."—Benjamin Steinkraus, Rt. 2, Markesan, Wisconsin.

### New Melon Called HARD-I-FIELD

One of the hardest jobs I've had for a long time was in deciding on the name of the Contest Melon I told you about in March Seed Sense. Thousands of you sent in names. Good ones, too. But of course only one could win. I figured that "HARD-I-FIELD" was the best one, so \$25 in H.F. certificates go out to Mrs. Eva B. Wanger of Nauvoo, Illinois. The best picture was the one above sent in by Mrs. James H. Henson, 40 Franklin St., N.E., Washington, D. C., and \$25 in H.F. certificates go out to her, too. Thanks to all of you for helping to name this wonderful new muskmelon. You'll see a picture of it in color on the front cover.

Riding on Wings

Mrs. Sam Deisley, Inavale, Nebraska, sends this picture of Hoyte Miller taking a ride on an Austra-White chicken. She didn't say so, but I presume these are some of our H.F. chicks and they look like mighty fine ones, too. Hoyte looks like he might be having a little difficulty convincing the chicken that he should have a ride.

Minnesota Snowflake

Minnesota Snowflake (Pat. 538) is the name of the only good new Mock Orange in years. It's a truly double one, so double it's just a mass of blossom. Sweet scented, too, and extremely hardy. This gracefully branched beauty with clean foliage is a fast, vigorous grower. You'll be proud of it. AN542 75c each; 2 for \$1.39, postpaid.

Shrub Planting Helps

- SHRUBS FOR SHADY SPOTS—Japanese Barberry, Spirea Van Houttei, Snowball, Hall's Honeysuckle (vine).
SHRUBS THAT GROW TALL—Lilacs, Mock Orange, Bush Honeysuckle, Deutzia, Tamirix, Bridal Wreath.
SHRUBS THAT GROW MEDIUM TALL—Spirea, Thunbergi, Weigela, Eva Rathke, Snowberry, Hydrangeas A.G. and P.G.
SHRUBS THAT GROW DWARF—Spirea Anthony Waterer, Red and Green Barberry, Deutzia Gracillia.

Dizzy? Lizzie?

Mrs. Glen Shaffer of Mulvane, Kansas sends in this picture of Lizzie Snyder on one of her prize pigs. It weighs over 1/2 a ton. How fast does it go? You'll have to ask Lizzie.

Enough for All

"Dear Mr. Field: Here is a picture of some of the pumpkins and squash we raised from your seeds. We had every kind and variety. We gave to all our friends and neighbors. We always plant your seeds and are well pleased. The children in the picture are: Kenny 5 and Janice 3, my children, and the two girls on the outside are my two nieces Donna 7 and Harriett Loffer age 5."—Mrs. Kenneth Hanks, Star Route, Eddyville, Nebraska.

Best of All Strawberries

For the last ten years I have been trying every strawberry I could find, and year after year the Bellmar has proved to be the best of all. For hardiness, yield, flavor, color and size, it just couldn't be beat. I have told you this all the time and have also told you that if or when I found a better berry I would tell you so. All right—now I am telling you. I have found a berry that is even better than Bellmar. Biggest berry I ever saw. Half bigger than Bellmar or even sometimes twice as big (and Bellmar is big). Bears profusely and with its giant size makes an enormous yield. I have no exact figures on its yield, but it is away ahead of anything else I ever had. Shape, color and firmness—just about perfect. Flavor—sweeter than most strawberries so requires less sugar. Very disease resistant. It has shown no trace of rust or leaf spot so far. Very frost resistant. Season intermediate—neither extra early or extra late.

That about covers the story. What else would you want in a strawberry? Oh Yes, they make big strong plants. I have been growing it in my Ozark garden for some time but have said nothing about it until now as it really seemed too good to be true, and I wanted to prove it conclusively. Wish you could have seen the berries we had there last summer. I picked out some of the biggest and found that 18 filled a quart box, and the run of the patch it took only 36 to the quart, believe it or not. I have a limited amount of plants to offer for this spring—First come, first served.

If they are not just as I say, I will refill your money's worth in any other strawberries I have.—H.F. See Page 30.

How to Plant Peonies

Plant in rich soil thoroughly spaded. Set eye never deeper than 2 in. below the surface and plants 2 1/2 to 3 feet apart. (See illustration.) Plant either spring or fall. Peonies are heavy feeders and should be fertilized well. Spade in manure and bone meal or Vigoro way deep, below the roots. Water often. They are so easy to grow and so beautiful, plant lots of them. You may dig and divide your clumps of peonies in the fall, though they probably will not need it for several years. Be sure to get an eye on each piece. Cut off any bad or rotted places.

47 and 47

"Dear Henry: Am sending for some plants and enclosing a picture of my wife and myself. We both love flowers. We have one hardy Amaryllis with 9 shoots. It will flower this week. There will be from 3 to 9 flowers on each stalk. They are about the size of a Regal Lily and orchid in color. Really beautiful. This is 47 years of married life for wife and I and 47 years of getting seeds from Henry Field. I am still working every day."—Chas. W. Jones, Estherville, Iowa.

Baby Doll Dahlias

Want all of you folks to try at least a few of my new Baby Doll Dahlias. They're so new I didn't have time to get them in the catalog proper, so am listing them here. They are just like the big "show type" dahlias, only small. Perfect in the garden and as cut flowers. One makes a wonderful boutiniere.

- ABG-40—LITTLE KATY—Golden buff.
ABG-41—RED RIDING HOOD—Bright red.
ABG-42—LITTLE BO PEEP—Purple.
ABG-43—MISTRESS MARY—Pink.
ABG-44—SNOWBALL—White.
40c Each. Any 3 for \$1.00.
ABG-185X—1 Each—All 5 for \$1.50, postpaid.

An Old Customer Reorders

"Dear Mr. Field: Am sending an order as I have such good luck with your seeds and plants. They make such big crops. I planted some of your St. Regis overbearing raspberries in 1915 or '16 and I still pick bountiful crops from them. I kept transplanting them, and without care they are just loaded every year both spring and fall and such lovely large berries."—Mrs. Will Dring, Parkersburg, Iowa.

Pruning Tips to Remember

- SHADE TREES—If smaller around than your wrist, you can trim them anytime. If larger, trim only in the winter when the sap is not flowing. Trim in early spring to prevent bad crotches, crossed limbs.
FRUIT TREES—Prune early in spring, cutting out bad crotches and to let sunlight in to tree. Don't cut off short spurs from main limb as these bear first fruit.
GRAPES—Prune in February before growth starts in the spring. Cut off all old wood which has borne fruit.
HYBRID TEA ROSES—Prune long shoots off before winter covering. Prune balance of wood to 8 inches from the ground just before growth starts in the spring.
SHRUBS—Prune early bloomers like Bridal Wreath, Lilacs, etc., right after they bloom. Later bloomers like Hydrangeas can be pruned in the spring.
HEDGES—Prune several times each season before growth starts in spring—in May and in July. An evergreen hedge should be pruned in late May or June. If you have a straggly hedge, cut it back to within few inches of ground, fertilize and it will grow nicely. Always prune top narrower than bottom.

How to Plant Glads

Plant 5 to 6 in. deep and 4 to 8 in. apart, in sunny location. Plant at intervals of two weeks for longer period of bloom. When tops die, dig bulbs, cut off tops and dirt and store in cool, dry place. Gladiolus can be planted early in the spring, and as late as the first of July.

Please Help Me

If you are one of my customers getting 2 each of my catalogs or Seed Sense right along, you could do me a real favor if you'd just drop me a card or tell me on your order when you send it.

You see these days we can't always get enough help to keep our list right up to date. Rather than make a mistake and cut somebody out of getting their catalog, I lean the other way and sometimes mail two to the same house. This costs me a lot of money and with your help I can stop the waste. Will you help? Thanks.

Here's a form you could pin on your order or paste on a card and I'd sure appreciate it.

I receive more than one catalog.

Butch Goes Fishing

This young fisherman is Floyd S. Oakley Jr. (Butch), age 4 1/2 yrs., grandson of J. S. Patton, Emporia, Kansas. Mr. Patton says, "We certainly enjoy your Seed Sense." Butch looks like a real fisherman and he isn't doing so bad by the looks of the one he is showing us in the picture.

Famous New Rose

It isn't often that a new rose becomes famous overnight, but that's just what happened to the gorgeous new American Flagship Rose. It's being used everywhere in dedicating new American Air Lines planes. You've probably seen pictures of it in the newspapers.

Well, I have a few of them. Not enough, so only the first orders will get theirs. It has attractive urn-shaped buds that open to high centered, well-formed double flowers of velvet-textured, crimson-red, deeply shaded with rich ox-blood tones. Holds color in sun and does not blue out. A vigorous, free bloomer with fine foliage and it's black-spot resistant, too. No. AN424. \$1.50 each, postpaid.

An-"other" H.F. Wedding

"Dear Mr. Field: This is my second marriage. We never sent in for a flower or peony the first time so just had to get married again to get one. Ha! Ha! Would sure like one in our yard to remember you by. My folks and I have always bought a lot of seeds and nursery stock from you."—Mr. & Mrs. Ray Hastings, Rt. 2, Osceola, Nebraska.

A fine rose or peony will be sent when time to plant to the new Mrs. Hastings. Congratulations, and we're happy to send the flower to you. H.F.

## MOON SIGN BOOK

### PLANT BY THE MOON

256 Pages  
By Llewellyn George  
Well known Author and Lecturer  
5G1—The Moon Sign Book gives complete instructions in the use of planetary influence on planting and harvesting, also business and personal affairs, etc., the result of more than thirty-five years of research. Why do farmers plant Potatoes in the dark of the moon? When should Corn, Beans, etc., be planted? Why florists plant seeds in the 2nd quarter and a certain Moon Sign? Why you should plant flowers in Libra on a certain date and Moon's phase? These and many other questions are answered and explained in a simplified yet scientific and practical manner. The Moon Sign Book has been published annually for over 37 years with sales increasing each year. A mine of useful information. Price \$1.00 in the U. S.  
NOTE: Planting by moon signs has been argued pro and con since I was a boy. I am neither "for or against" planting by moon signs because I don't know. Lots of people believe in it and lots don't. If you do, here's the best book put out on the subject. H. F.

## INOCULATE YOUR PEAS AND BEANS FOR BIGGER YIELDS

4015—All your garden peas, beans, and sweet peas should be inoculated. Inoculation helps the plant take nitrogen from the air and fertilize your soil—giving you bigger yields, faster growth and garden soil that's not worn out.

Just takes a minute to dust it on your seed—no trouble at all but it makes a world of difference in your yield.

There's enough in this 10c packet to inoculate 6 lbs. of seed. That's enough for most of you. Full directions on each packet. Be sure and everybody order it. Garden size 10c pkt., postpaid.

GIANT PKT. 3"x4" Inoculates 6 lbs. seed. Pkt. 10c

## VITAMIN B1

Everybody is talking about this sensational vitamin for plants—Vitamin B1. The miraculous things it does when added to plant's soil are almost unbelievable!

Better Homes and Gardens who announced the discovery and have written article after article about it report 5 inch rosebuds, dahlias 10 inches across; enormous apples—all because Vitamin B1 was added to soil which is almost always deficient in this very necessary stimulant. It can be used in solution to water plants, shrubs, or trees, or the roots of plants can be dipped in it to stimulate root growth and allay the shock of transplanting.

4016—TABLET FORM—Easy to use. Simply dissolve one tablet in 2 or 3 gallons of water. Use solution to water flowers or to dip roots of plants in. Full directions on bottle. 100 tablet size, \$1.00, postpaid.

4017—STOCK SOLUTION FORM—Concentrated solution. Comes in bottle with eye-dropper. One drop of this solution in 1 or 2 gallons of water is enough. Bottle will make 500 to 1,000 gallons—enough for entire season. Bottle only, \$1.00, postpaid.

## "GROW-AID"

4018

### The Sensational New Seed and Plant Stimulant

#### Hormone-Vitamin Concentrate

Here is the miraculous new seed and plant stimulant in concentrated form. A combination of the recently discovered, very beneficial root stimulating Hormones and the better known vitamins that have made plants and seeds GROW FASTER, YIELD MORE, AND PRODUCE LARGER FLOWERS AND FRUITS. Tests by state colleges everywhere approve it. In one test, Dr. J. C. Ireland of Oklahoma Experiment station showed increases of 37 to 47% in yield when used on corn. Often, number of roots on a plant are doubled when GROW-AID is used.

This miraculous dust multiplies roots, speeds up root growth and stimulates and makes larger plants when used on vegetables, plants, shrubs, seedlings, trees, or flowers.

#### USE AS DUST OR POWDER— Very Easy to Use

Can be used either as a dust on seedling roots or sprinkled on your vegetable seeds or may be used as a solution (about 1 teaspoonful to a gallon of water) to soak roots before planting or to water plants already established. FULL INSTRUCTIONS FOR USE on Seeds, Plants, etc. on each package.

#### Use It on All Your Plants and Seeds for Better Results

1. Dust it on flower or vegetable seeds before planting.
2. Soak nursery stock roots in solution before planting.
3. Dust Seedling roots before transplanting.
4. Use as spray for fruit trees. KEEPS APPLES ON TREES UNTIL RIPE.
5. Use a solution to water growing SHRUBS AND TREES.
6. Use as solution to water HOUSE PLANTS.
7. Use a solution to water ROSES, SHRUBS, LAWN. A general—all around product every gardener should have.

A sample of how "GROW-AID" improves plants it is used on.

## 2-4D WEED KILLER WEEDONE

TRADE MARK

WEEDONE is a new kind of weed killer, which when sprayed on to the leaves of certain weeds, is absorbed by the plant and penetrates down to the end of the root system, and thereby kills the plant throughout.

## WHAT WEEDS DOES IT KILL?

WEEDONE is a selective weed killer; that is, it kills some weeds and damages others, while still others are not affected by it. WEEDONE is recommended for killing poison ivy, poison oak, bindweed or wild morning glory, Japanese honeysuckle, sassafras, black locust, and wild or choke cherry. It will also kill many other weeds under favorable conditions.

In late spring and early summer before the plant has matured or hardened, 90 to 95% kill has been obtained with one spray application of WEEDONE to cocklebur, blackberry, Canada thistle, yarrow, dandelion, plantain, sumach, oxalis, chickweed, horse-nettle, sheep sorrel, ragweed, white-clover, French weed, and sweet clover.

Most grasses, while damaged with WEEDONE, are not killed by it, particularly when the grasses are dormant or about to go to seed. Nimble will, crab grass, and Bermuda grass have been killed with WEEDONE spray as seedlings, but these grasses are quite resistant when fully grown.

## Here Are the Best Forms of

# DDT

The Supreme Household  
and Barnyard Insecticide

We've learned a lot about DDT in the last year. In many respects it is certainly the best of all insecticides, especially for the household and barnyard. And on certain garden crops like potatoes it works wonders. But all in all, for the garden, Bug Dust is still the best.

## How and Where to Use 50% Wettable DDT RESIDUAL SPRAY

For Treatment of Grain Bins,  
Warehouses, and Mills, Etc.

Mix 1 lb. to 1 gal. water (5% solution) and spray or paint the area to be treated. Be sure the surface is thoroughly wet. This is effective in the control of stable flies, mosquitoes, bed bugs, silverfish, lice, weevils and moths.

## Mosquito & Household Uses

Mix 1 lb. to 1 gal. of water (5% solution) for painting or spraying screens, walls, floors, basements, closets, etc. The solution can be sprayed into cracks and crevices to control insects in their breeding places. It is not always necessary to paint an entire wall or floor to destroy insects. An unbroken strip around the floor and moulding approximately 1 foot in width will control most crawling insects as they will get lethal contact.

## STOCK SPRAYS

### Cattle Spraying

Mix 1 lb. to 24 gal. of water (1/4%) and spray or sprinkle on the animals' hides thoroughly. Spray cattle at 7 day intervals. This will to a great degree immunize them against insect annoyance. The DDT residue left on the animal's hair and hide will to a great degree destroy lice and stable fly larvae.

NOTE: Udder and teats should be wiped clean before milking.

### Range Cattle

To control lice mix 1 lb. to 100 gal. of water as a dip. This dipping formula will effectively control horn flies, house flies and to a lesser extent stable flies for 7 to 10 days. One lb. to 24 gal. water will give good fly control for 2 to 3 weeks when applied with a power sprayer.

### Sheep and Goats

Goat lice and sheep "ticks" (keds) can be controlled by a dip containing 1 lb. to 48 gal. of water.

### Small Herds and Dairy Cattle

Experimental work with formulas containing 1/4% DDT (1 lb. to 24 gal. water) gives excellent results against horn flies and house flies. One application of this formula will effectively reduce flies for seven to ten days.

NOTE: Flies contacted by this spray will not be immediately knocked down or killed as DDT in this strength works slowly.

Henry Field's 50% Wettable Dust can also be used as a dust by mixing with a neutral powder or other carrier such as flour. We recommend, however, our regular 3% DDT dust as being more satisfactory.

4029—HENRY FIELD'S 50% WETTABLE DUST for almost every purpose DDT can be used for. (See above for directions.) Price: 1 lb. \$1.00; 3 lbs. \$2.75; 5 lbs. \$4.25, all postpaid.

4032—HENRY FIELD'S 3% DDT AND CUPRIDE CROP DUST. A fungicide and insecticide special dust for control of diseases and insects. Highly recommended for potatoes. Effective on tomatoes, onions and corn and as a seed treatment for fungi and grain infesting insects. Full directions with every package. Price: 4 lbs. for \$1.00, postpaid.

BOYS AND GIRLS: Be A Junior Seedsman  
Win Any Premium Here or \$1.25

A CHANCE TO WIN  
PREMIUMS OR CASH!

You boys and girls these days are looking for a chance to make money and win big prizes. I'm going to help you by getting you into the seed business with me. I will furnish the seeds for your start and give you a big share of the profits. I have had as high as 30,000 JUNIOR SEEDSMEN on my list and want 20,000 more now.

You know I started in business for myself selling seeds when I was probably younger than you are now. You have read about it in the catalog. But I didn't get very far at that time, for I had very few seeds to sell and no money to buy more with, and no one to start me in business. I wish I could have had the chance you now have. I would have got a good start in the seed business about ten years earlier than I did.

HERE'S MY PROPOSITION

1. Fill out the coupon at bottom of page and send it to me and I will send you at once by parcel post 10 of the 49c collections for you to sell. You need not send the money till they are all sold, but if you do not sell them within a month, you are to return them.
2. When you have sold ten collections you get one-fourth (\$1.25) the total for your share, either in cash or one of the premiums. By buying these premiums in big quantities and getting the manufacturers interested in my plan for starting boys and girls in business, I have made your one-fourth cover the wholesale cost of each one.
3. You send me the \$4.90 you receive for the 10 collections and tell me which premium you want, and I will send it to you at once by parcel post, except in the case of some expensive premium requiring a little more work.
4. If you would rather have your share in cash, keep out one-fourth and send the rest to me. I trust you to do the dividing.
5. In case you cannot sell the 10, sell all you can, return the rest by mail, keep one-fourth of the money and remit the rest.
6. The collections must all be sold at the same price, 49c. We believe in one price to everyone. It's the only way.

DON'T WAIT

Don't put off until some other Junior Seedsman has supplied your neighborhood. Get an early start and you'll sell more, easier.—H. F.

EVERYONE WANTS A BARGAIN  
COLLECTION LIKE THIS

This year we're offering the best and most popular collection we have ever put out. It's just what everyone wants. A **WHOLE GARDEN FOR 49c.** 10 giant packets of garden seed in each collection for only 49c. Think of it! Everyone will gladly buy a bargain like this.

Now what I want you to do is sell these seed collections to your friends and neighbors. All you need to do is fill out the application blank below and return it to me and I will send you ten of these collections; then after you have remitted for them I will gladly send you some more if you can use them. A great many of the Junior Seedsman sold as high as ten or twelve sets and there is no reason on earth why you shouldn't do equally as well if you get an early start. I know you are honest, and I am willing to trust you, and then when you have sold the collections we will divide the profits. How does that suit you?

Henry Field.

Henry Field's  
JUNIOR SEEDSMEN  
COLLECTION  
10 Giant Pkts. 49c

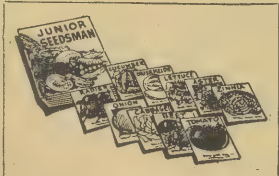

Think of it. 10 Giant packages for 49c. Enough seed for an entire garden. It's a collection, the likes of which you've never even heard.

The reason we offer this big collection for such a price is simply to get new customers acquainted with our seeds. **The price is so low everyone will buy.**

We are going to make the quality so good it will be a living and growing advertisement for us—new crop, tested and vigorous—the kind you always get from us.

Enough seed for an entire garden: RADISHES, LETTUCE, TOMATOES, BEETS, SPINACH, CARROTS, CUCUMBERS. And for flowers: GIANT ZINNIAS and ASTERS.

Think of it. All 10 pkts. for only 49c. Priced so low, we cannot change the listed assortment as it is put up in large quantities. You can order other items direct from our catalog.

# GARDEN SEED

## Department

These are the finest garden seeds in all the world. It's taken me 60 years to bring you this list and I wouldn't change a one of them.—H. F.

### SPINACH

*It's Good For You*  
**GIANT THICK LEAF**  
Largest Leaf

207—A very heavy yielder with the largest leaf of any of the Spinach varieties. Somewhat

crumpled, medium early. Crisp and tender.

Price: Pkt. 9c; oz. 17c; ¼ lb. 40c; 1 lb. \$1.00, postpaid.

### RE-SELECTED BLOOMSDALE—Earliest

206—(40 days). The earliest and finest variety of all. Medium size, leaves very crumpled and a rich dark green.

Price: Pkt. 10c; oz. 17c; ¼ lb. 40c; 1 lb. 1.00, postpaid.

### BIG GREEN LEAF—Bears Longer

209—(48 days). A second early which stands longer than the others before seeding. A very compact plant. Leaves medium large, and somewhat crumpled. Crisp and tender.

Price: Pkt. 7c; oz. 18c; ¼ lb. 45c; 1 lb. \$1.05, postpaid.

### PARSLEY

FOR SEASONING  
—FOR GARNISH

217—MOSS CURLED. Used for garnishing and seasoning. Fine for soups. Rich, curly, dark green. Price: Pkt. 10c; oz. 26c; ¼ lb. 74c, postpaid.

221—TURNIP ROOTED (HAMBURG). Grow it like you would carrots. The roots resemble small parsnips in shape and color, and are the edible part of the plant. Use it for soups and flavoring, like any other root crop. Price: Pkt. 7c; oz. 27c; ¼ lb. 75c, postpaid.

### EGGPLANT →

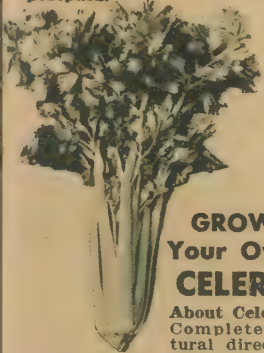

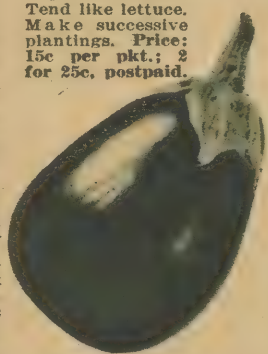

Eggplant should be better known. People who have eaten it always want more. Tend them just as you would peppers. This picture is Black Beauty, which I think is best of all.

656—(83 days). **BLACK BEAUTY**. Grows 5 to 6 "eggs" to the plant, which will average almost as big as a quart cup. The color is a rich, purplish-black, the flavor is unusually fine and they can be used in many ways. Price: Packet 10c; ½ oz. 25c; oz. 48c, postpaid.

### CELTYCE

Use Like Lettuce or Celery  
502—The deliciously sweet leaves may be eaten as lettuce and the stalks, 1½" in diameter and 10" to 15" long, may be eaten raw like carrots or celery when peeled. Flavor like celery or lettuce. Tend like lettuce. Make successive plantings. Price: 15c per pkt.; 2 for 25c, postpaid.

### GROW Your Own CELERY

About Celery—Complete cultural directions on the seed packet. One packet of seed should make 50 feet of row or 100 bunches.

662—(118 days). **GOLDEN SELF-BLANCHING**. The choicest of all, with thick, heavy ribbed stalk, which blanches evenly to a clear waxy yellow. Crisp, solid, sweet and stringless. Price: Pkt. 10c; ½ oz. 35c; oz. 50c, postpaid.

661—(140 days). **GIANT PASCAL**. The largest—2 ft. Thick, solid, stringless. Good keeper. Price: Pkt. 10c; ½ oz. 35c; oz. 50c, pp.

### CHICKEN LETTUCE

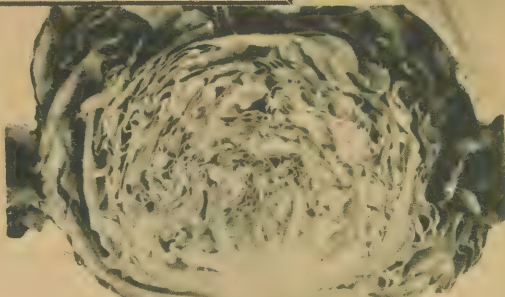

514—A special lot of best varieties for poultry feed. Every chicken

raiser ought to make plantings every two weeks throughout the season for lots of good green chicken feed.

Price: Pkt. 7c; oz. 20c; ¼ lb. 45c; 1 lb. \$1.10, postpaid.

### Head Lettuce

### CREAMY HEART

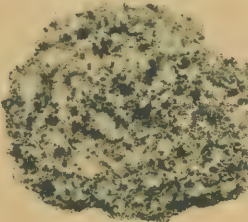

*The Heavy Yielder*

515—A cabbage head sort bright green leaves. The hearts are a rich golden yellow, very crisp and buttery. Fine producer, sure header, for home use or for market. Price: Pkt. 10c; oz. 30c; ¼ lb. 75c, postpaid.

### NEW YORK or Wonderful

*The Market Type*

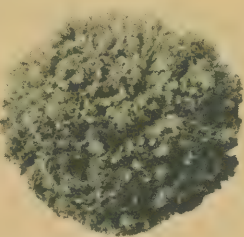

507—(78 days). Practically all of the head lettuce you buy in the stores is of this variety. It forms a good sized, compact head, is of exceptionally fine quality and stands handling wonderfully well. Price: Pkt. 10c; oz. 35c; ¼ lb. 88c, pp.

### ICEBERG

*The Earliest*

505—(82 days). A standard variety for forcing or for garden culture. Has large, compact heads, curly leaves and good to eat at any stage. Price: Pkt. 8c; oz. 30c; ¼ lb. 75c, postpaid.

### GREAT LAKES

*Heat-Resistant Head Lettuce*

508—The new All America prize winner. Does well anywhere but especially good where hot summers come on early. Stands heat and sun. Sure header. Heads medium size, very solid. Finest quality and flavor. Distinctive dark green color. Pkt. 15c, postpaid.

### SALSIFY

(Vegetable Oyster)

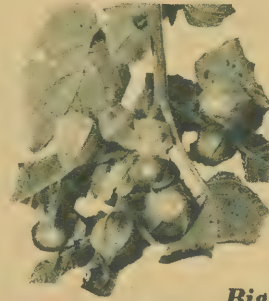

205—**MAMMOTH SANDWICH ISLAND** (Vegetable Oyster). Long, slender roots. Flesh is white, very tender and sweet. One of the best vegetables for soups. Store like parsnips or may be left in the ground until spring. Has a flavor like oysters. Price: Pkt. 10c; oz. 30c; ¼ lb. 80c, postpaid.

### ASPARAGUS

*Washington Rust Resistant*

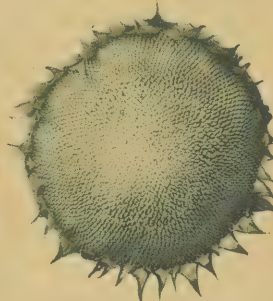

201—Five or ten cents worth of seed will grow you all the plants you need for family use. Tender shoots. Price: Pkt. 10c; oz. 25c; ¼ lb. 62c, postpaid.

### GROUND CHERRY

*Easy to Grow*

230—These are the big yellow berries that make such wonderful preserves. Everybody should have a few in the garden. Price: Pkt. 10c; ½ oz. 40c, postpaid.

### Mammoth RUSSIAN SUNFLOWER

239—(80 days). Grown for chicken feed. You can also parch sunflower seed—it's delicious. Price: Pkt. 7c; oz. 15c; ¼ lb. 29c, postpaid.

### Leaf Lettuce

### BLACK SEEDED SIMPSON

*Heaviest Yielder*

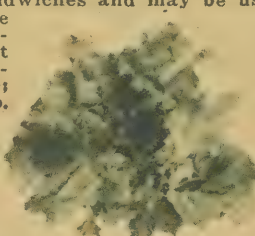

509—(45 days). A nationally known variety of loose leaf or bunching type. Often grows larger than a gallon crock. Light green or creamy leaves, closely folded. Price: Pkt. 9c; oz. 26c; ¼ lb. 49c, postpaid.

### EARLY CURLED SIMPSON

*The Sweetest One*

513—(45 days). Forms a tight cluster of leaves in the center. Very crisp and sweet. Exceptionally good in sandwiches and may be used in many ways. Loose leaf or bunching variety. Color light green, leaves crumpled. Price: Pkt. 7c; oz. 20c; ¼ lb. 45c, pp.

### PRIZEHEAD

*Delicate Pink Edges*

511—(45 days). This is a quick grower, which makes a world of good eating leaves, reddish-brown in color. Stays tender a long time and lasts well into hot weather. One of the best sellers.

Price: Pkt. 10c; oz. 26c; ¼ lb. 65c, postpaid.

### GRAND RAPIDS

*Crisp and Disease Resistant*

510—(43 days). Came from Michigan, where it made a great name for itself. Crisp, curled, light green leaves especially tender and sweet when grown under glass. Early and disease resistant. If you want something extra nice sow Grand Rapids in the hotbed, real early. Price: Pkt. 7c; oz. 20c; ¼ lb. 45c, postpaid.

Seeds That Yield Are Sold By Field

# GREEN BEANS

## DWARF BUSH TYPE

Improved

### FIELD'S FIRST EARLY

*The Double Duty Bean*

111—(48 days.) A white seeded variety that can be used for pod beans or for winter. It is a vigorous upright, early grower, pods 7 inches or more in length, straight, oval, very meaty and fleshy and absolutely stringless. One of the most productive beans we have ever had and much better than the old fashioned brown seeded ones. Will grow anywhere.

Price: 3 oz. packet 15c; ½ lb. 29c; 1 lb. 46c; 3 lbs. \$1.10, postpaid.

### TENDER GREEN

*The New Straight Early Bean*

106—(54 days.) Here is a new one. Extremely early. Strong, vigorous plants with long dark green pods practically straight and without a sign of a string. I am almost ready to say it is the finest of all green pod beans today. Price: Triple size pkg. (3 oz.) 10c; ½ lb. 25c; 1 lb. 45c; 3 lbs. \$1.10, postpaid.

## ABOUT BEANS

I believe every family should plant at least five or six pounds of beans. (See my special 3 pound prices.) I always have a good supply of seed beans handy. Whenever any of the early or midseason things run out, I fill in the spaces with beans. A pound will plant two rows of 50 feet long. Start your plantings as soon as severe frosts are over and plant every two weeks until the middle of July.

### KENTUCKY WONDER POLE BEAN

*The Heavy Yielder — Good Canner*

134—(65 days.) Many claim that this is the finest of all pole beans and I think that it lives up to every claim made for it. Brown seeded. Pods long, wrinkled, crease backed, very brittle and meaty.

Price: Triple size pkt. (3 oz.) 10c; ½ lb. 25c; 1 lb. 44c; 3 lbs. \$1.06, postpaid.

Beans are the most staple item in any garden. Plant all three types and make successive sowings.—H. F.

### BURPEE'S STRINGLESS GREEN POD

*The Standard of All*

107—(51 days.) The ideal family bean and the "measuring stick" to which all varieties are compared. Very early, meaty and tender. No strings whatever. If I could have only one kind, it would be this one. Price: Triple size pkt. (3 oz.) 10c; ½ lb. 25c; 1 lb. 45c; 3 lbs. \$1.10 postpaid.

### BOUNTIFUL

### THE FAMOUS CANNING BEAN

144—(50 days.) You folks here in the corn belt ought to grow more of this one. Very heavy yielder. I've never had a failure. Big, green, showy pods. Excellent quality. Canners like it. Fine for market. Bountiful is the right name.

Price: Triple size pkt. (3 oz.) 10c; ½ lb. 25c; 1 lb. 40c; 3 lbs. 98c, postpaid.

## YELLOW BUSH BEANS

Seems like, when most folks think of beans they think of green beans and forget what is to my notion the best of all—the yellow bush beans.

The yellow bush beans deserve it, but just haven't been tried by as many folks as they should have been. By all means, don't pass them up this year. They yield equally as much as the green ones, are as tender and just as stringless, but almost without exception have a better, more pleasing flavor. This year, try several of the varieties below. You'll like them.

### Rust-Proof

### GOLDEN WAX

*Rust and Rot Proof*

116—(50 days.) Everybody likes this one. It is early and has a heavy flat pod. The vines grow erect, holding them well off the ground. Keeps them from rot and rust. It never has strings. We are very partial to it.

Price: Triple size pkt. (3 oz.) 12c; ½ lb. 26c; 1 lb. 48c; 3 lbs. \$1.24, postpaid.

### GOLDEN "NO WILT"

*Heavy Yielding—Disease Resistant*

123—(49 days.) The bean that resists disease. I've been selling seed for 50 years and this is the finest wax podded bean I have ever offered. It's an improved type of the Rust-Proof Golden Wax. Will grow where other varieties fail. The pods are somewhat flat, absolutely stringless, an inch or more longer than Golden Wax. Very heavy yielder. By all means include this in your planting this year. Price: Triple size pkt. (3 oz.) 15c; ½ lb. 28c; 1 lb. 46c; 3 lbs. \$1.10, postpaid.

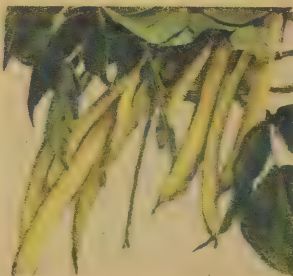

### PENCIL POD BLACK WAX

*The Early Tender Bean*

105—(51 days.) I consider this one of the best of all early wax varieties. The pods are round, slender, pointed, absolutely stringless, a light yellow. Very tender. Very productive.

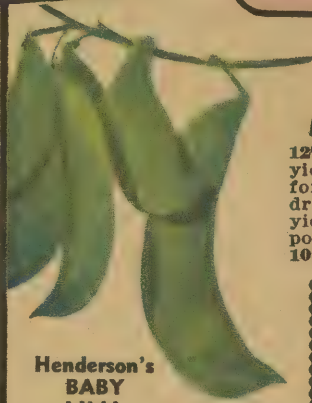

Price: Triple size pkt. (3 oz.) 10c; ½ lb. 26c; 1 lb. 48c; 3 lbs. \$1.24, postpaid.

### SURE CROP STRINGLESS

*Heavy Yielding Canner*

120—(51 days.) Most beautiful of all wax beans. They taste as good as they look. A favorite canner. Disease and drought resistant. Never fails to bear a fine crop. Price: Triple size pkt. (3 oz.) 10c; ½ lb. 26c; 1 lb. 44c; 3 lbs. \$1.08, postpaid.

Henderson's  
BABY  
LIMA

### BABY LIMA

*Henderson's Bush Baby Lima*

127—(67 days.) Most dependable and best yielder of the Limas. Small white bean. Great for shell bean, for canning and for winter drying. Stands dry weather and a great yielder. I have seen vines with about as many pods as leaves. Price: Triple size pkt. (3 oz.) 10c; ½ lb. 23c; 1 lb. 39c; 3 lbs. 98c, postpaid.

### LIMA BEAN SPECIAL

175X

Henderson Baby Lima  
Large Early Bush Lima  
Speckled Calico Pole Lima  
3 for 24c  
Postpaid

### GREEN SEEDED BABY LIMA

114—(67 days.) An improvement over the old fashioned Henderson's Baby Lima. The beans have a bright green appearance during this shelling stage. Fine for canning beans and good for dry beans too. An excellent grower, stands hot dry weather, and a tremendous yielder.

Price: Triple size pkt. (3 oz.) 15c; ½ lb. 28c; 1 lb. 48c; 3 lbs. \$1.15, postpaid.

### EARLY LARGE BUSH LIMA

126—(75 days.) Fordhook Bush Lima 12c. The best and earliest of the big seeded Limas. Strong, upright bushes. Holds pods high and clean. (It's no fun to shell dirty beans.) 4 to 5 large, meaty, nut-like beans to the pod. Price: Triple size pkt. (3 oz.) 12c; ½ lb. 23c; 1 lb. 48; 3 lbs. \$1.09, postpaid.

Early  
Large Bush

## SOUP BEANS THE OLD STANDBYS FOR WINTER USE

### WHITE WONDER

*The Small Soup Bean*

102—(85 days.) Standard soup or navy bean. Heavy yielder. Long uniform bean. The pods are carried well off the ground above the moisture. Price: Triple size pkt. (3 oz.) 10c; ½ lb. 19c; 1 lb. 30c; 3 lbs. 69c, postpaid.

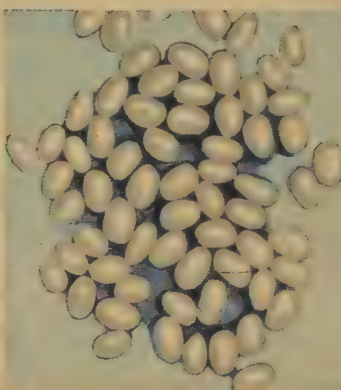

### GREAT NORTHERN

*The Large Flat Soup Bean*

104—(90 days.) (Montana White.) A little larger than the Navy Bean but eats every bit as well and is lots easier to pick over. A good yielder and early. Price: Triple size pkt. (3 oz.) 9c; ½ lb. 19c; 1 lb. 30c; 3 lbs. 69c, postpaid.

### RED KIDNEY

128—(70 days.) As easy to grow as the others. Good yielder of large, dark red, dry beans. Just the thing for baking or for soup. Price: Triple size pkt. (3 oz.) 10c; ½ lb. 23c; 1 lb. 39c; 3 lbs. 92c, postpaid.

# POLE BEANS

OR CLIMBING BEANS

KENTUCKY WONDER WAX  
The Yellow Pole Bean

One fine thing about pole beans is, they can be grown along the garden fence, and this makes them especially valuable for folks living in town who haven't much garden space to work with. For those who have corn fields, you don't have to worry about furnishing support for beans. Just plant a few climbing beans along the edge of the corn field. The corn stalks will support the beans. You will have all you can take care of, and then some. This should be of special interest to you women folks who tend the garden. Plant the pole beans in the corn field and let the corn cultivator do the tending for you. The main thing is to plant plenty of them.

Plant **Fillbasket** pole beans by all means. This one came from Missouri originally. My neighbor, Alf Eudy, has been growing them for more than 25 years. I had quite a time getting enough seed stock together to make a real planting, but I have plenty of stock for you now. I am proud of it and I want you to plant **FILLBASKET** by all means.

It isn't necessary for me to say anything about the **IMPROVED MISSOURI WONDER** or **KENTUCKY WONDER**. I guess you know all about them. They are both mighty fine sorts.

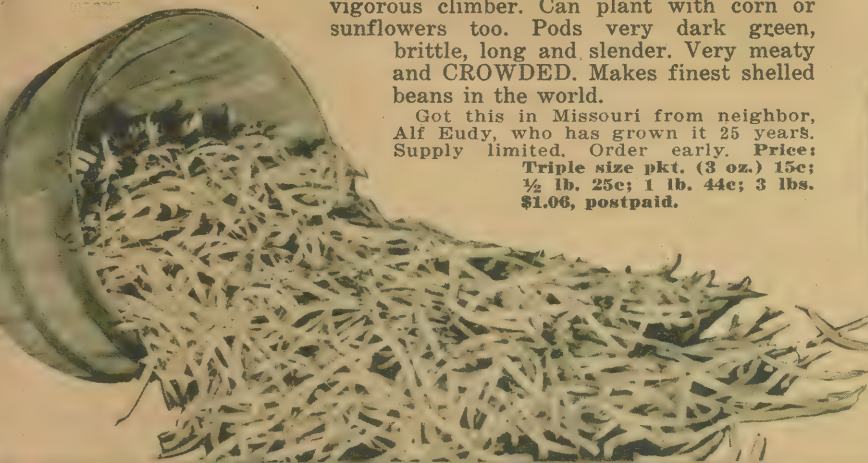

## FILLBASKET POLE BEAN

If You Want the Biggest Yield—Plant This One

121—(66 days.) Really fills your basket in a hurry. Yields enormous, strong grower, vigorous climber. Can plant with corn or sunflowers too. Pods very dark green, brittle, long and slender. Very meaty and **CROWDED**. Makes finest shelled beans in the world.

Got this in Missouri from neighbor, Alf Eudy, who has grown it 25 years. Supply limited. Order early. Price:

Triple size pkt. (3 oz.) 15c;  
½ lb. 25c; 1 lb. 44c; 3 lbs. \$1.06, postpaid.

139—(67 days.) Most popular of all wax pole beans. A beautiful light golden yellow pod. Every bit as good, if not better, than the regular Green Kentucky Wonder. Vigorous grower—will cover a fence or trellis in a hurry. Pods are large, oval shaped. Beans until frost. Seed chocolate brown; more gardeners should plant Golden Kentucky Wonder. None better for canning—good for green shell beans too. Price: Triple size pkt. (3 oz.) 10c; ½ lb. 25c; 1 lb. 44c; 3 lbs. \$1.06, postpaid.

## CORNHILL BEAN

Climbs Corn—or Vines Alone

130—(74 days.) Tender corn field bean. Good climber. Gives a good crop of short, fat, fine tasting pods. Price: Triple size pkt. (3 oz.) 10c; ½ lb. 25c; 1 lb. 40c; 3 lbs. 99c, postpaid.

## IMPROVED MISSOURI WONDER

Biggest of All

133—(66 days.) I got this one in Missouri. We've been breeding it up and it is a dandy. Just the thing to plant with Stowell's Evergreen sweet corn. The pods come on early. They are crease backed and well filled. They make the finest kind of a snap bean. Price: Triple size pkt. (3 oz.) 10c; ½ lb. 26c; 1 lb. 45c; 3 lbs. \$1.15, postpaid.

# LIMA BEANS

Grow Both Pole and Bush Kinds

I've listed Lima Beans pretty much together in the catalog, both the dwarf bush variety, and the pole or climbers. They are all good. Everybody ought to plant Lima Beans. Years ago only those in the middle or southern states had them, but we have developed new early types which will succeed away up into Canada. Don't plant Lima Beans until after the frost danger is past. They like rich soil. Plant the beans 6 to 8 inches apart and rows 2 to 3 feet apart. Cover 1½ inches deep. When you plant Pole Limas in a hill, space the hills 4 ft. apart. Here at our place we often tie four poles together at the top and make sort of a tepee. When I drive in the country, I see a lot of other folks like the same idea. I think it is a good one. Cultivate Limas until they start to vine.

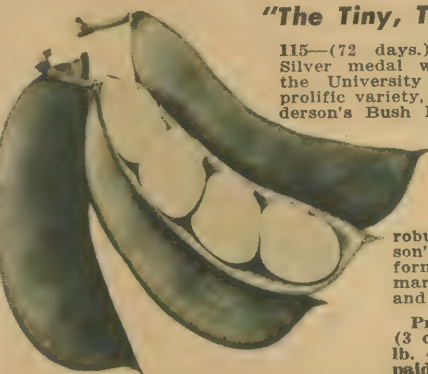

## DWARF BABY POTATO LIMA

"The Tiny, Tender One"

115—(72 days.) The All American Silver medal winner. Originated by the University of Illinois, a most prolific variety, a cross between Henderson's Bush Lima and one of the potato lima types.

The seeds are small, thick, bright green color, and similar in flavor to the big Fordhook. It is a thrifter and more robust bush than Henderson's. Matures very uniformly. Fine for produce markets, also for canning and for quick freezing.

Price: Triple size pkt. (3 oz.) 15c; ½ lb. 28c; 1 lb. 45c; 3 lbs. \$1.15 postpaid.

## The Unusual SPECKLED CALICO POLE LIMA BEAN

Here's the prize bean of my Ozark garden—the Speckled Pole Lima. Not only does it seem to love hot summer weather, but it keeps on bearing and bearing over an extremely long period. Very prolific and vigorous grower. Pods are 3 to 4 inches long with 3 to 4 big, flat beans in every one. Pods are borne in easy to pick clusters. Not much seed, but enough, I think. No. 141. Price: Triple size (3 oz. pkt.) 15c; ½ lb. 25c; 1 lb. 44c; 3 lbs. \$1.05, postpaid.

## MISSOURI BUTTER BEANS

131—(68 days.) Among my Missouri neighbors, this is the most popular pole Lima of all. It has dark glossy green foliage, grows 6 to 8 feet tall.

Can be used as green, shelled or dry. Big yielder. Seeds are white with purplish red markings when dry. Yields from midsummer until fall. Price: Triple size (3 oz.) packet 10c; ½ lb. 26c; 1 lb. 45c; 3 lbs. \$1.05, postpaid.

## CLIMBING BABY LIMA

"The Little White One"

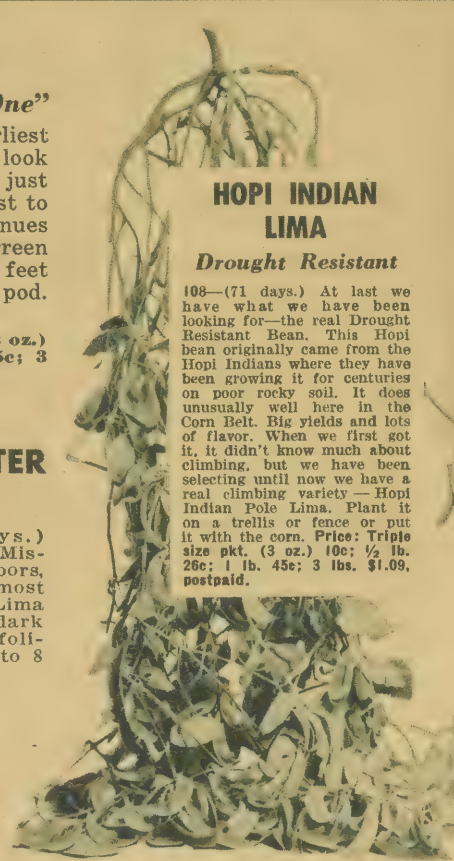

145—(72 days.) The earliest of all white limas. Pods look like regular baby limas, just as good eating too. First to begin bearing—continues until frost. Dark green glossy vines. 8 to 10 feet tall, 3 to 4 seeds per pod. Medium green color.

Price: Triple size pkt. (3 oz.) 15c; ½ lb. 25c; 1 lb. 45c; 3 lbs. \$1.15, postpaid.

## HOPÍ INDIAN LIMA

Drought Resistant

108—(71 days.) At last we have what we have been looking for—the real Drought Resistant Bean. This Hopi bean originally came from the Hopi Indians where they have been growing it for centuries on poor rocky soil. It does unusually well here in the Corn Belt. Big yields and lots of flavor. When we first got it, it didn't know much about climbing, but we have been selecting until now we have a real climbing variety—Hopi Indian Pole Lima. Plant it on a trellis or fence or put it with the corn. Price: Triple size pkt. (3 oz.) 10c; ½ lb. 26c; 1 lb. 45c; 3 lbs. \$1.09, postpaid.

## YARD LONG or Asparagus Bean

Unusual Novelty

129—(70 days.) Very unusual novelty. Distinctive and well worth planting. A vigorous growing vine with pods sometimes 4 feet long. Has an excellent asparagus-like flavor. Plant a few for the fun of it. Price: Triple size pkt. (3 oz.) 15c, postpaid.

## EDIBLE SOYBEANS

Best Source of Protein in Garden—Delicious

is a special one. The beans are large, bright green, turn yellow when mature. Fix them for the table just as you would lima beans or dry beans. Soybeans shell easy if you let the pods stand in boiling water for a few minutes. Price: Pkt. 10c; ½ lb. 24c; 1 lb. 35c; 3 lbs. 90c.

143—(90 days.) This year plant some edible soybeans. I don't blame you for being skeptical about them. A lot of folks don't like to be the first to try new things, but soybeans aren't new. They have proven themselves time and again. This strain

## INOCULATE ALL BEANS

Be sure to inoculate all beans, peas and sweet peas. **LEGUME AID** inoculation will help you get bigger yields and faster growth. It just takes a minute to dust the seed—no trouble at all. A 10c packet is enough for 5 pounds of seed. Full directions on packet.

4015  
**Legume Aid 10c**  
per pkt., postpaid

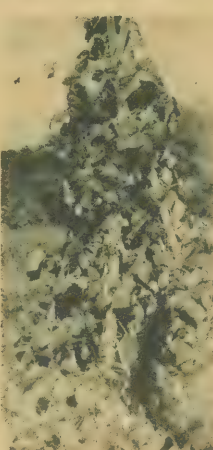

## SCARLET RUNNER BEAN

Decorative—Beautiful Red Vine  
RED FLOWERS

Very Hardy  
Grows 15 Ft.

138—(64 days.) Plant this one early. Very hardy. Most folks grow it for the beautiful scarlet flowers. The vines grow 15 feet or more very rapidly and it makes a fine decoration as well as fine snap beans.

Price: Triple size pkt. (3 oz.) 10c; ½ lb. 25c; 1 lb. 38c; 3 lbs. 96c, postpaid.

# For Health Grow Plenty of CARROTS

Carrots will grow most anywhere and are one of the most healthy foods I know of. Sow some real early in the spring for mid-summer use, and later on some more to put down in the basement or cave for winter. Cover the seed  $\frac{1}{4}$  inch deep in rows 18 to 24 inches apart, thinning them out to 2 to 4 inches apart in the rows. One ounce of seed will sow 100-foot row.

## CHANTENAY

Standard Storing Carrot

626—Recognized as the standard carrot. This is highly recommended for putting into winter storage. Good color, crisp and tender, with fine flavor, and exceptionally smooth. Price: Pkt. 7c; oz. 35c;  $\frac{1}{4}$  lb. \$1.10, postpaid.

## DANVERS HALF LONG

Preferred for Home or Market

627—(75 days). A half long sort which is a very heavy yielder, popular with both the home and market gardener. Grows to good size with bright orange flesh; crisp. Price: Pkt. 7c; oz. 30c;  $\frac{1}{4}$  lb. \$1.00, postpaid.

## TENDERSWEET

Long and Crisp

632—(75 days). Sometimes called Imperator. Beautiful carrot, rich orange-red both inside and out. Long and smooth with slightly sloping shoulders, free from side roots and almost cylindrical in shape. Small tops, an excellent table quality and very attractive. Ideal for bunching. Price: Pkt. 10c; oz. 40c;  $\frac{1}{4}$  lb. \$1.40, postpaid.

## STOCK CARROTS

Large White Mastodon

631—(82 days). The largest and finest of the feeding carrots. Roots very large and thick; make an ideal feed for poultry or live-stock. Use about 4 lbs. of seed to the acre, making rows 3 feet apart. Price: Oz. 25c;  $\frac{1}{4}$  lb. 65c; 1 lb. \$1.80, postpaid.

## OXHEART

Giant Short Variety

629—(74 days). Thick, short and very stump rooted. Probably best variety for growing on a heavy soil. Heart shaped, short, easily harvested. Very short crop. Price: Pkt. 5c; oz. 30c;  $\frac{1}{4}$  lb. \$1.10, postpaid.

## 3 PKT. CARROTS

250X 19c

1 Pkt. Tendersweet  
1 Pkt. Chantenay  
1 Pkt. Oxheart  
All for 19c postpaid

## A TIP

Carrots are a little slow to start, so try sowing a few radish seeds in your carrot row. These come up quick and mark your rows so you can cultivate early. Be sure and pull and eat these radishes soon as carrots come up.

## New Coreless Chantenay

630—(68 days). The core is very indistinct, hence the name. Tender, crisp and sweet. Smooth and free from side roots, and a bright, orange-scarlet color. Blunt ended, very uniform. Price: Pkt. 10c; oz. 40c;  $\frac{1}{4}$  lb. \$1.15, postpaid.

## LITTLE MARVEL

Tender, Heavy Yielder

152—(62 days). It will be a long time 'til we find a better one than this. For quality, yield, earliness, or any other point, it's hard to beat. A vigorous grower and a heavy yielder. Three quarts of pods will often shell out a quart of peas. Tender and sweet, and of finest quality. Price: Triple size pkt. (3 oz.) 10c;  $\frac{1}{2}$  lb. 24c; 1 lb. 38c; 3 lbs. \$1.00, postpaid.

## WRINKLED EARLY ALASKA

Tender Tiny Peas

159—(WRINKLED) ALASKA—(55 days). The

new wilt resistant Pea. The easiest way to describe this one is to say it is the big Wrinkled Alaska. It comes into bearing in 55 days; the vine grows just about like the Alaska. The pods are about  $2\frac{1}{2}$  to 3 inches long and are fully as hardy as Alaska. Cannerymen are planting lots of it. They like it. Price: Triple size pkt. (3 oz.) 15c;  $\frac{1}{2}$  lb. 24c; 1 lb. 39c; 3 lbs. 98c, postpaid.

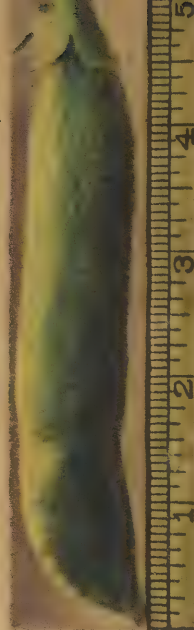

## PREMIUM GEM

The Extra Early One

154—Probably the most popular of the early garden peas. Vines are dwarf, about 15 in. in height. Blunt ended pods  $2\frac{1}{2}$  in. long with 6 to 7 peas to the pod. Very productive, fine flavor, considered by many to be the sweetest of all early peas.

PRICE: Triple size pkt. (3 oz.) 10c;  $\frac{1}{2}$  lb. 23c; 1 lb. 39c; 3 lbs. 98c, postpaid.

## LARGE PODDED MARVEL 12c

The Little Giant Marvel

153—(65 days). In many ways like Little Marvel, but the pods are much larger. Quality is sweet, tender and juicy. Is a dwarf, vigorous vine. Pods are well filled and there are plenty of large peas. Ready about the same time as Little Marvel. Price: Pkt. (3 oz.) 12c;  $\frac{1}{2}$  lb. 25c; 1 lb. 45c; 3 lbs. \$1.00, postpaid.

# NOW! HYBRID SWEET CORN

## GOLDEN CROSS BANTAM HYBRID

171—(85 days). A great big Golden Bantam. It has 12 to 14 rows of kernels, quality exceptionally fine, noted for its uniformity. Strong, vigorous grower, resistant to smut, ears are 8 inches long. About a week or 8 days later than the regular Golden Bantam. Triple size pkt. (3 oz.) 15c;  $\frac{1}{2}$  lb. 29c; 1 lb. 50c; 3 lbs. \$1.29, postpaid.

## GIANT BANTAM HYBRID

175—(75 days). This variety was developed especially for the canning trade. About 4 days earlier than the Golden Bantam open pollinated. Runs almost 100% 10 to 12 rows to the ear, ears 7 inches long, very uniform, resistant to smuts and to root diseases. Price: Triple size pkt. (3 oz.) 15c;  $\frac{1}{2}$  lb. 30c; 1 lb. 55c; 3 lbs. \$1.35, ppd.

## IOANA SWEET CORN

176—(87 days). Last year's all American bronze medal winner, developed by our own state college. Highly resistant to drought and wilt. Just the thing for the market gardener or for canning. Fine yellow variety, ears 8 inches long, 12 to 14 rows, medium narrow kernels.

Price: Triple size pkt. (3 oz.) 15c;  $\frac{1}{2}$  lb. 28c; 1 lb. 49c; 3 lbs. \$1.25, ppd.

## EARLY GIANT Golden Bantam

178—(65 days). Earliest variety in our trials. Ten days earlier than the ordinary Golden Bantam. Stalks are 4 to 5 feet tall, are heavy, vigorous growers, stand up well, ears are 6 to 7 inches long, rich yellow in color, 2 ears to the stalk. Kernels are long and plump, 12 row variety.

Price: Triple size pkt. (3 oz.) 15c;  $\frac{1}{2}$  lb. 32c; 1 lb. 54c; 3 lbs. \$1.35, postpaid.

## Hybrid Stowell's Evergreen

184—(97 days). A deepkerneled hybrid. Probably the heaviest yielder of sweet corn there is. Stalks  $7\frac{1}{2}$  to 9 feet tall, ears 14 to 18 rows, about 8 inches long. It outyields the ordinary Stowell's Evergreen and is much better in quality, unexcelled for canning.

Price: Triple size pkt. (3 oz.) 15c;  $\frac{1}{2}$  lb. 29c; 1 lb. 54c; 3 lbs. \$1.35, postpaid.

## This Year Be Sure to Plant

# HYBRID SWEET CORN

It's Sweeter

- Heavier Yielding
- More Tender
- Disease Resistant
- Larger

Everybody's planting HYBRID Sweet Corn now. It's more tender, earlier, sweeter, Much Heavier Yielder and disease resistant.

Just like Hybrid field corn, the Hybrid sweet corn more than pays in increased yields for the cost of the seed. And it TASTES so much better.

Plant some of all this year. These are the best of 60 hybrids checked in our trial grounds.—H. F.

## HYBRID SWEET CORN MIX

Gives You Sweet Corn All Season

3 OZ. ONLY 12c

A special blend of all my MULE HYBRID Sweet Corns, so you'll have corn ripening SOME EACH WEEK ALL SEASON. No need to make 4 or 5 plantings.

You'll have corn from the earliest (about 60 days) to the latest (about 115 days). I used Hybrid Sweet Corn as it's the coming thing—sweeter, more tender, deeper kerneled, disease resistant.

The Low Price for Hybrid

173—Large 3 oz. pkt. of this mix 12c;  $\frac{1}{2}$  lb. 25c; 1 lb. 48c; 3 lbs. \$1.10, postpaid.

# PEAS

Plant the smooth varieties just as soon as you can get into the ground. Wrinkled varieties a little later. For a fall crop, use early sorts, planting them about the middle of August. One lb. of seed to a 50-foot row.

## Improved FILLBASKET

**Yields Over Long Period**

147—(57 days.) An old favorite that is still going strong. A large podded variety for early planting, slightly later than Alaska. Exceptionally fine flavored. A heavy yielder. Price: Triple size pkt. (3 oz.) 10c; ½ lb. 24c; 1 lb. 39c; 3 lbs. 97c, postpaid.

## EXTRA EARLY ALASKA

**Earliest Pea Known**

146—(56 days.) Always my biggest seller. An improved, wilt resistant strain of an old favorite. Very hardy and a heavy yielder. Sure to crop, easy to grow. Medium size, well filled pods. Price: Triple size pkt. (3 oz.) 10c; ½ lb. 23c; 1 lb. 37c; 3 lbs. 95c, postpaid.

## EDIBLE PODDED PEAS

**(Eat Like Beans)**

160—**DWARF GRAY SUGAR**—Here is the pea that you can eat just like green beans—pods and all. Not only does this eliminate the shelling, but you'll find you get more of the food value of the peas this way.

And best of all, these Dwarf Gray Sugars, are sweet and delicious. They have a flavor all their own that you have to try to appreciate. The only thing to remember is to pick them young. They're better that way.

You'll have room for some of these. Give them a try. Price: Triple size pkt. (3 oz.) 10c; ½ lb. 23c; 1 lb. 38c, postpaid.

## American Wonder

**The Drought Resister**

149—(60 days.) Always comes into bearing ahead of the other wrinkled ones. Very dwarf, medium size pods of good quality, unusually productive. Price: Triple size pkt. (3 oz.) 10c; ½ lb. 25c; 1 lb. 40c; 3 lbs. 98c, postpaid.

## Inoculate for Bigger Pea Yields

Don't forget to inoculate your peas with Legume-Aid. This is put right on the pea seed when the peas are planted. It makes them do better, gives heavier yields and at the same time builds up your garden soil. Use on beans too. Enough for 5 lbs. of seed in the big Giant 3x4 inch packets. 10c postpaid.

## Henry Field Talks About

# SWEET CORN

We used to think that Sweet Corn couldn't be planted until after all frost danger was past, but with some of the new vigorous hybrids, it's a different story. You can plant them most as quickly as you can get in the ground in the spring. Of course, no corn is really frost proof, but the new hybrids are more or less cold resistant, and can stand real early planting.

A half-pound of seed is enough for about 100 hills. You can generally figure 10 to 12 pounds of seed per acre. Plant at intervals of 10 days until the middle of July for new corn all summer.

You all know what an improvement hybrid field corn is over the open pollinated type. Well, hybrid Sweet Corn is just as much of an improvement in its class. That's why I am talking about hybrid Sweet Corn first—plant Hybrids and plant plenty of them.

Probably the most popular of all of our hybrid corn is our **Special Hybrid Sweet Corn Mixture or Blend**. This blend is made up of all the fine varieties listed in the catalog. Taking it all in all this blend will give you roasting ears from 4th of July on until almost frost. So if you don't have room in your garden for a few rows of each variety plant some of this special mixture. You can have them all in one row. I don't know of a better or earlier type of Sweet Corn than the **Early Giant Bantam Hybrid**. **Giant Bantam Hybrid** is a mid-season crop and comes in a little later, and **Golden Cross Bantam** is a real late or main crop sort.

Of course, we have the old standbys—**Golden Bantam**, **Country Gentleman**, **Stowell's Evergreen**—they are all good and still deserving of a place in your garden.

## COUNTRY GENTLEMAN

**The Tender White**

189—(93 days.) Sometimes called Shoe-Peg or Zig-Zag because of irregular formation of kernels. Long slender grains with ears just the right size for eating on the cob. Very tender and sweet. Heavy producer. Fine for canning.

Price: Triple size pkt. (3 oz.) 10c; ½ lb. 22c; 1 lb. 38c; 3 lbs. 96c, postpaid.

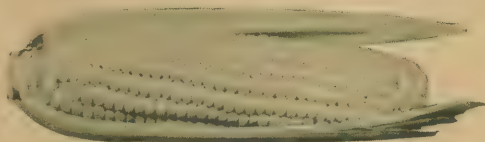

## STOWELL'S EVERGREEN

**The Giant White Corn**

188—(96 days.) Don't try to make gardens without this one. Standard variety for both home and market gardener. Plant this one for canning and drying as well as for the roasting ear season. I always maintained it had more corn to the cob than any other variety. Stays in milk stage a long time. Triple size pkt. (3 oz.) 10c; ½ lb. 21c; 1 lb. 34c; 3 lbs. 88c, postpaid.

## TRUCKER'S FAVORITE

187—**TRUCKER'S FAVORITE**—(85 days.) Southern Sweet Corn. This really isn't Sweet Corn but down south they can't grow Sweet Corn very well and this one will grow in spite of ear worms, drought, heat or most anything else. Ears are large—7 to 9 inches long, carrying 12 to 16 rows of kernels, stalk is very vigorous, usually 8 feet tall, matures about 104 days from planting to roasting ears. Price: Triple size pkt. (3 oz.) 10c; ½ lb. 20c; 1 lb. 30c; 3 lbs. 75c, postpaid.

## GOLDEN BANTAM

**Favorite Yellow**

177—(80 days.) I don't know of anyone who doesn't like to set his teeth in an ear of Golden Bantam. It is recognized as the standard yellow sweet corn. Grows 4½ to 5 feet tall, very productive, early, tender, sweet, delicious flavor. Price: Triple size pkt. (3 oz.) 10c; ½ lb. 22c; 1 lb. 35c; 3 lbs. 89c, postpaid.

## EARLY SUNSHINE

174—**EARLY SUNSHINE**—(76 days.) Earliest of all. A full week earlier than Golden Bantam with a larger ear carrying 10 to 12 rows of creamy, yellow kernels. Fills well, is very tender and surprisingly large for such an early sort. Price: Triple size pkt. (3 oz.) 10c; ½ lb. 22c; 1 lb. 36c; 3 lbs. 95c, postpaid.

# ONION SEED

Sow onion seed early—just as soon as you can get it in the ground. One ounce to 100 feet of row. When tops fall over pull up and store in a shed until cool weather.

## White Sweet Spanish

**Sweet Early Table Onion**  
313—(110 days.) **WHITE SWEET SPANISH**. Large, mild and sweet. Pure white. Better keeper than Bermuda. Does better in north. Favorite for growers who want an especially fine onion for table use and want it early. Price: Pkt. 10c; oz. 70c; ¼ lb. \$2.00, pp.

## LARGE RED GLOBE

**The Round Red**

305—(120 days.) **LARGE RED GLOBE**. Probably the most popular of all onions. Deep, rich red, good keeper, fine for either fall or winter market. Price: Pkt. 9c; oz. 60c; ¼ lb. \$1.75, postpaid.

## Yellow Globe Danvers

**Late Market Variety**

314—(112 days.) Very popular and grown extensively for market. The bulbs are rather flat but of globe shape, good size, and a bright straw color. Very firm and solid. Good keeper. Price: Pkt. 10c; oz. 50c; ¼ lb. \$1.50; 1 lb. \$4.50, postpaid.

## RIVERSIDE SWEET SPANISH

**Table Variety—the Giant Yellow**

303—(110 days.) A mammoth yellow globe. Favorite with my customers. Very heavy producer and early. Light straw colored skin with pure white flesh. Good color and a good keeper. Price: Pkt. 10c; oz. 75c; ¼ lb. \$2.20, postpaid.

## SILVERSKIN

**The Best Flat Keeper**

311—(100 days.) **SILVERSKIN** or **WHITE PORTUGAL**. A medium sized globe, somewhat flattened. A good keeper, very attractive. Price: Pkt. 10c; oz. 70c; ¼ lb. \$1.90, postpaid.

# ONION SETS

**The Famous**

## HAZELNUT SIZE ONION SETS

These hazelnut size, small sets go farther than the large ones and will give you just as big onions at lower cost per A. They cost us more but we will sell at the same price as unscreened sets.

**Most Beautiful, Solid Sets Anywhere. H. F.**

## YELLOW EBENEZER SETS

Beautiful solid sets. Price: Qt. 35c; 2 qts. 65c; 4 qts. \$1.19; pk. \$2.19, postpaid.

Onion Sets are scarce. Crop was short. We have no Red or White sets. (Yellow ones are much the better anyway.) Write for prices on larger lots.

**See Page 2 for Onion Plants**

This is the  
Famous Hollow  
Crown Parsnip

## PARSNIPS

Parsnip seed starts slowly. I always sow radish seed with it as the radishes come up early and mark the rows so that cultivation can be started.

Sow the seeds real early. Leave them in the ground over the next winter. One ounce of seed will sow 200 feet of row.

203—HOLLOW CROWN OR LONG SMOOTH. The finest of all. White skin, flesh fine grained, very tender, with wonderfully sweet flavor. Price: Pkt. 10c; oz. 22c; ¼ lb. 65c; 1 lb. \$1.95, postpaid.

204—IDEAL. If you want a short rooted parsnip, order this one. Free from side roots, tender, and of fine flavor. Price: Pkt. 7c; oz. 20c; ¼ lb. 65c; 1 lb. \$1.75, postpaid.

## CAULIFLOWER

Easy to Plant Early

Cauliflower is similar to cabbage. It requires about the same growing conditions and the same culture. Plant early and handle just as you would cabbage. Makes mighty good eating.

558—(54 days.) EARLY SNOWBALL. Heads are deep, smooth, compact and snowy-white. Very early. Price: Pkt. 15c; ¼ oz. 95c; oz. \$2.95, postpaid.

## SWISS CHARD

"Spinach—Beet"

220—(60 days.) SWISS CHARD, Fordhook Giant. Here's the finest greens in the world during the summer. Really and truly a beet (botanically) but always used as greens. Finest thing in the world, too, for poultry feed. Every year it becomes more popular. Your garden shouldn't be without it. Price: Pkt. 10c; oz. 24c; ¼ lb. 70c, postpaid.

## RHUBARB CHARD

248—(60 days.) A new type of Swiss Chard with bright crimson leaf stalk, rich color extending out through veins into the dark green leaves. Heavily crumpled. Plants are very attractive—the leaves have a delicious tasty flavor. Price: Packet 10c; oz. 50c, postpaid.

## KOHLRABI

The Aristocratic Cabbage  
Unusual Flavor

VIENNA—(60 days.) A member of the cabbage family with an edible turnip-like bulb which grows above the ground. Some say it is a cross between turnips and cabbage. I say it is as good or better than either one. Grow as you would cabbage.

216—WHITE VIENNA. Price: Pkt. 6c; ¼ oz. 25c; 1 oz. 45c, postpaid.

## My Famous SUGAR LUMPS

VERY EARLY

This new strain is the earliest I've found yet. Some are ripe by June 30. All varieties ripe by July 10.

"ICE BOX" SIZE

All of the varieties are individual size, about 8 or 9 inches through. Fit in an icebox without cutting. No slice left over to get tough.

SWEET AS SUGAR

Sweetest ever. That's why Mrs. Field asked me to call them "Sugar Lumps."

NOW BY COLOR

Red, white and yellow by color in separate packets. So many of you wanted them that way, here they are:

Choice, any below, 20c pkt.; Oz. 50c

724—YELLOW SUGAR LUMP. Golden yellow, flesh very sweet.

725—WHITE SUGAR LUMP. If you've never tasted a white melon, here's a treat for you.

721—RED SUGAR LUMP. Most folks like best because they've never tasted white or yellow.

Yes, the boss himself looking over a good bunch of my Sugar Lump Melons. Believe me—I'm pretty popular when they get ripe.

## The Wilt Resistant KLECKLEY SWEET

706—KLECKLEY SWEET No. 6—(90 days.) Originated by the Iowa State College to take the place of Pride of Muscatine. It has all the good qualities of Kleckley, plus the resistance to wilt, and similar diseases. Doesn't grow bottle-necked, stands handling and shipping well. Flesh is bright red, tender and extremely sweet. Price: Pkt. 12c; oz. 25c; ¼ lb., 48c; 1 lb. \$1.50, postpaid.

New Black

## KLECKLEY

Early

Disease Resistant

715—This fine new variety was developed by Iowa College. Rich dark green rind, deep red flesh, mottled seed. It's fully 10 days earlier than the old fashioned Kleckley, average size 15 to 25 pounds, oblong in shape, a prolific bearer. Quality good as the best. I believe it's best of its kind introduced in years. Good for commercial market, as well as home garden. Seed very scarce. Very little seed this season. Price: 50 seeds 25c, postpaid.

## FIELD'S FOURTH OF JULY

Ripe by July 4th

708—(70 days.) 20,000 of my customers swear by this melon year after year. One of the earliest melons grown. Average weight 8 to 10 lbs. Color is a deep green, marked with lighter stripes. Rind is exceptionally thin (not over ¼ in). Flesh is dark red, tender, fine grained, unusually sweet and rich. Price: Pkt. 10c; oz. 19c; ¼ lb. 50c; 1 lb. \$1.50, postpaid.

## STANDARD KLECKLEY

Sweet Long Melon

704—(85 days.) Probably the best known melon in America. The measuring stick by which all other varieties are compared. Large, cylindrical in shape. Weighs around 35 pounds. Dark green, flesh bright red. Very tender and sweet. Price: Pkt. 5c; oz. 17c; ¼ lb. 40c; 1 lb. \$1.25, postpaid.

## DIXIE QUEEN

A Good Shipper

722—(80 days.) A recent introduction. It is a great shipper, and a fine melon for the home garden. It produces an unbelievable number of melons. The flesh is crisp and tender and has the fewest seeds of most varieties. The rind is thin, but tough.

The color is striped light and dark green. Deliciously flavored, rich color.

Price: Pkt. 10c; oz. 25c; ¼ lb. 65c; 1 lb. \$1.90, postpaid.

## Early EARLIANA

Very Vigorous

411—(66 days.) One of the best of the early red tomatoes. Vigorous, spreading vine, bearing bright scarlet, medium size, nearly globe shape fruit, in clusters. Price: Pkt. 10c; ½ oz. 27c; oz. 50c; ¼ lb. \$1.45, postpaid.

## ORANGE and SCARLET SLICER

You all know my Scarlet Slicer Tomato—the one that took the Midwest by storm when I introduced it two or three years ago. Well, I have another one now—the new Orange Slicer Tomato which is identical to the Scarlet Slicer except for the color of the fruit, which is a golden orange.

These two tomatoes should be in every garden. They will succeed most anywhere. They have heavy foliage which protects fruits from the sun and hot winds, their deep roots protect them against dry weather and they are sure yielders too, but best of all—just as the name implies—they are big, smooth, round, juicy and meaty to the core. Perfect for table or canning. They are also disease resistant.

SCARLET SLICER—Pkt. 15c; ½ oz. 25c; 1 oz. 45c, postpaid.

ORANGE SLICER—Pkt. 15c; ¼ oz. 50c; ½ oz. 90c, postpaid.

## MARGLOBE

The Perfect Canner

405—(115 days.) Another dependable, wilt-resistant main crop. Vigorous grower, medium large, nearly globe shaped, smooth and solid. The quality is extra fine, and it is an outstanding tomato for canning. Deep scarlet. Price: Pkt. 10c; ½ oz. 25c; oz. 34c; ¼ lb. 98c, postpaid.

## RUTGERS—Likes Drought

417—(110 days.) I found this one in New Jersey. After trying it out here for a couple of years, I am ready to believe that it deserves a place in every garden. It starts ripening on the inside, and you can depend on it being thoroughly ripe all the way through. Doesn't have a hard core, and is outstanding for its uniform deep red coloring. Flesh is firm. Globe shaped. An excellent canning variety. Price: Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.25, postpaid.

Field's Famous

## EARLY RED HEAD

Heavy Yielding—Doesn't Crack

401—(76 days.) I introduced Red Head a good many years ago. Since then we have been constantly working on it to make it better. I will put it up against any other variety. It is a heavy yielding sort, bears over a long time. The tomatoes are round and smooth, they ripen evenly, and very seldom crack. The firm flesh makes it a fine canning sort. Price: Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.25, postpaid.

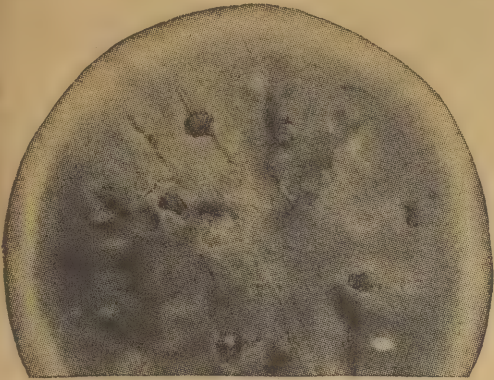

# WATERMELON HEADQUARTERS

"THESE MELONS HAVE MY PERSONAL GUARANTEE OF SATISFACTION"

I want every farm to have a big watermelon patch. Even the backyard gardener should raise a few hills of them. Nothing will make the boys happier than a good melon patch of their own. My melon seed comes from fields grown especially for seed crops.

Melons like warm, loose soil. Give them plenty of room, at least 10 feet each way. Figure about 50 hills from an ounce of seed, or 8 pounds to the acre.

## WILT RESISTANT STONE MOUNTAIN

723 **STONE MOUNTAIN** No. 5. (85 days.) A new wilt resistant strain of the Georgia Stone Mountain. It has all the good qualities of the regular strain and in addition, will grow on wilt infested soil. Price: Pkt. 5c; oz. 22c; ¼ lb. 48c; 1 lb. \$1.10, postpaid.

### STONE MOUNTAIN—STANDARD LARGE ROUND

714 (85 days.) A great big melon, almost round. Weighs 50 lbs. in a good year. The rind is hard and tough, dark green, stands handling well. Very sweet in flavor, a bright sparkling color. Price: Pkt. 5c; oz. 18c; ¼ lb. 40c; 1 lb. \$1.00, postpaid.

## GOLDEN HONEY

### Yellow Fleshed Melon

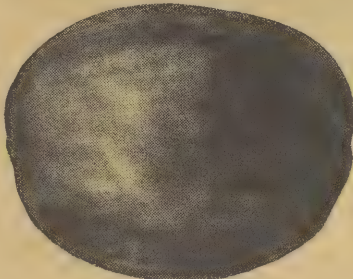

702 (90 days.) A beautiful yellow-fleshed melon that makes a novel home or market sort. Large, oblong shape, weighing around 20 lbs. Rind dark green, with irregular stripes. Flesh a tender, crisp, delightfully flavored bright yellow. Price: Pkt. 7c; oz. 20c; ¼ lb. 40c; 1 lb. \$1.25, postpaid.

## WATERMELONS MIXED

710 This is a specially fine mixture for a boy though I sell thousands to folks who haven't been boys for a long time. It's a thorough mixture of 25 kinds so you have all sorts at all times. Find room for at least a quarter pound and you'll be tickled pink with the melons. Big packet (over 1 oz.) 9c; ¼ lb. 29c, postpaid.

## STATE FAIR MELON

The Melon I Win My Prizes With  
**SEED VERY SCARCE**

701 (90 days.) This is the big Jumbo kind that you saw at my Jubilee. I used to take them around to the State Fairs and challenge anyone to raise bigger ones. They mature nicely here in this section. Melons often weigh 100 pounds or more. I have seed enough for only about ¼ of the season. I ask that you please order early so you won't be disappointed. Price: Pkt. 10c; oz. 25c, postpaid.

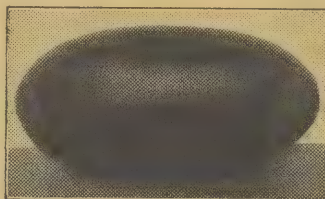

## KANSAS SWEET

### The Perfect Market Melon

716 (85 days.) A new, big round melon that looks like the old Kolb Gem. Has thin rind, light green with broad dark green irregular stripes. The flesh is solid red, and the seeds are buff color. Price: Pkt. 7c; oz. 20c; ¼ lb. 50c; 1 lb. \$1.25, postpaid.

## Black Seeded Klondike

"It Keeps the Best of All"

705 (90 days.) I recommend it highly. It carries the highest sugar content of any melon that I know of. Oblong, medium size, dark green rind, and small black seeds. The flesh is a beautiful sparkling, deep red, very crisp and tender, without a trace of strings. Price: Pkt. 7c; oz. 18c; ¼ lb. 36c; 1 lb. \$1.10, postpaid.

# TOMATOES

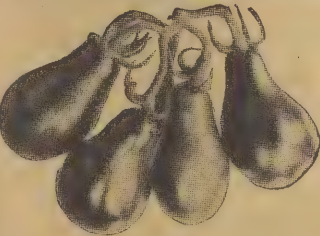

## and How to Grow Them

I've tried out a lot of different varieties of tomatoes and I've discarded all but the best of them. These varieties are the pick of the lot, over a period of the last 40 to 50 years. My seed stocks are extra select, pure, uniform, and they have to be right. Plant both early and main crop sorts, so you will have plenty.

## Famous SUPER SIOUX

416 A hybrid or cross between two of our leading varieties, having the good qualities of both plus the unusually fine hybrid quality. Almost globe shaped, medium size, medium early. Fruit solid deep red, thick walled, and small seeded. Without question one of the finest of all tomatoes both for home and commercial use. 15c per packet, 50c per ½ oz., or 85c per oz.

## PEAR TOMATO

The old-fashioned pear-shaped preserving tomato. Fruit is borne in clusters.

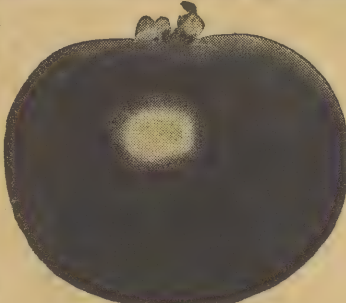

419 (75 days.) **YELLOW PEAR.**

406 (90 days.) **RED PEAR.** Price: Pkt. 10c; ½ oz. 24c; oz. 40c; ¼ lb. \$1.10, postpaid.

## GOLDEN BEAUTY

412 (82 days.) Large main crop yellow variety. Quite a novelty but well worth having. I like it. It's smooth medium size, mid-season to late. Fine for preserves or for table use. I wish everyone would try some of these and the Snowball, too, this year. Price: Pkt. 10c; ½ oz. 25c; 1 oz. 40c, postpaid.

## NEW STONE

### Standard Main Crop

415 (116 days.) A great main crop variety for canning and general use. Solid, smooth, ripens evenly. Bright scarlet, a good yielder. Price: Pkt. 5c; ½ oz. 20c; oz. 40c; ¼ lb. 80c, postpaid.

## The New GRAPE TOMATO

425 (73 days.) Not a novelty—but a perfect-tasting, heavy bearing, vigorous tomato. Never saw a rotten one or a vine that wasn't loaded full. Unusual in size as the individual tomatoes are small, a little larger than California grapes and as tasty, but are borne in big grape-like clusters. Absolutely hardy and will bear even if all other tomatoes fail. Especially good for canning, preserves and sauce, but there's nothing better for eating. Seed scarce. Price: Pkt. 15c; postpaid.

## OXHEART

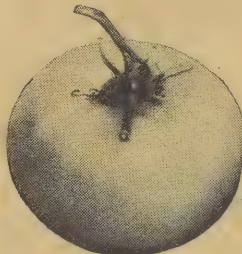

409 (90 days.) Entirely different from any other kind of tomato. Large heart-shaped, pink-skinned variety. The flesh is thick but very tender. It has few seeds. Somewhat late and a great deal after the style of Ponderosa. Has a distinct, appealing, mild flavor. Price: Pkt. 10c; ½ oz. 40c; oz. 75c; ¼ lb. \$2.00, postpaid.

## PONDEROSA

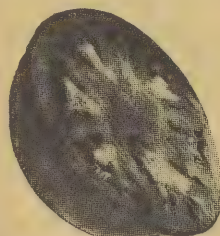

### Largest of All Tomatoes

418 (86 days.) Here's one you can't beat. It is too tender and doesn't hold up well for market but for home use there's nothing like it. The fruit is large, sometimes inclined to roughness, but very tender and meaty. Slices beautifully with few seeds. Vigorous grower. Price: Pkt. 10c; ½ oz. 40c; oz. 75c, postpaid.

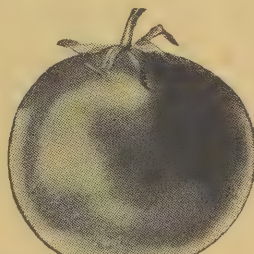

## SNOWBALL TOMATO

403 (78 days.) Snowball is an ivory white tomato with flesh almost white. Most as big as Ponderosa. Has few seeds and practically no acid. Lots of folks who were unable to eat tomatoes before can enjoy them now. Price: Pkt. 15c, postpaid.

## PRITCHARD Resistant to Disease

423 (112 days.) A new wilt-resistant variety. The fruits are very solid and heavy, smooth globe-shaped, a rich deep scarlet color and mild flavor, and fine for tomato juice. Best main crop tomato, can be planted closer together than most sorts. Price: Pkt. 5c; ½ oz. 22c; oz. 35c; ¼ lb. 98c, postpaid.

## FIELD'S RED BIRD

421 (70 days.) Next to 'Red Head', I claim this is the finest early tomato I have ever found. It is another one of my own introductions. Grows to a medium size, round, very smooth and seldom cracks. The color is a beautiful bright red. Price: Pkt. 10c; ½ oz. 20c; oz. 35c; ¼ lb. \$1.00, postpaid.

# CABBAGE

These are the pick of them all. Start in house or hotbed six weeks or more before you expect to plant out of doors. Likes rich deep soil. An ounce should make 2,500 plants.

Cabbage is one of my favorite vegetables and I have always had a lot of it in the trial grounds. Used to raise a lot of it for market. I have spent a good deal of time in checking over the different varieties and kinds of seed. Guess I've tried all of four hundred kinds.

## EXTRA EARLY VARIETIES

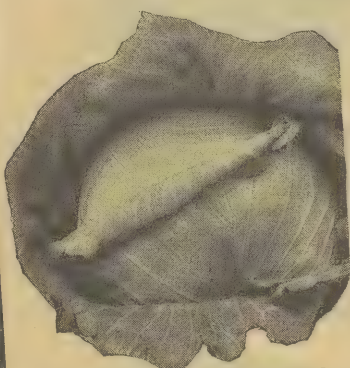

**EARLY JERSEY WAKEFIELD**  
**The Early Pointed Cabbage**  
522 (63 days.) The standard early variety everybody knows. Pointed head, very solid. Excellent for home or market gardener. Heads weigh about 2½ to 3 lbs. Plants may be set close together. Price: Pkt. 7c; ½ oz. 30c; oz. 50c; ¼ lb. \$1.50, postpaid.

**NORSEMAN**  
**My Own Early Round**  
527 (68 days.) I consider this one of the finest cabbages grown. It's an early round head, very hard and solid and doesn't crack open with every shower. Medium size, sweet flavor, tender and juicy, suitable size for late planting as it keeps well and makes an excellent crop. Price: Pkt. 10c; ½ oz. 30c; oz. 50c; ¼ lb. \$1.50, postpaid.

**EARLY ROUND WAKEFIELD**  
**(Golden Acre) Ice Box Size**  
524 (64 days.) This variety is crisp, tender and very sweet and forms a small, very solid head, doesn't burst open and is very uniform. I claim it is better than Wakefield. Price: Pkt. 8c; ½ oz. 25c; oz. 45c; ¼ lb. \$1.35, postpaid.

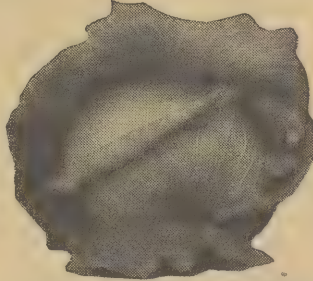

## MEDIUM EARLY VARIETIES

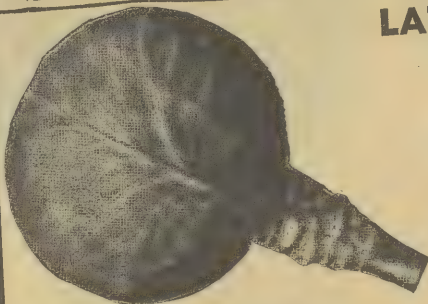

**EARLY FLAT DUTCH**  
**Solid Flat Heads**  
521 (80 days.) A large flat variety on a short stem. Heads are very solid with few outside leaves so you can set plants closer together. Quality is good. Price: Pkt. 5c; ½ oz. 20c; oz. 35c; ¼ lb. \$1.00.

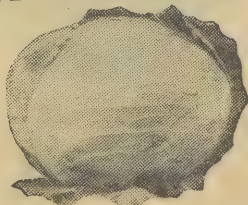

**COPENHAGEN MARKET**  
**A Sure Yields**  
519 (68 days.) You can depend on this one. Heads are early, round and of medium size, very hard and solid and are white and crisp. Heads average 8 to 10 lbs. and the quality exceptionally fine. Price: Pkt. 7c; ½ oz. 28c; oz. 48c; ¼ lb. \$1.35, postpaid.

**ALL HEAD EARLY**  
**Fine Boiling Cabbage**  
516 (80 days.) A fine, mid-season sort. Mature in time to feed the hay, harvesting and threshing help. Fine boiling cabbage. Heads weigh 6 to 7 lbs. Round, flat and very solid. Price: Pkt. 5c; ½ oz. 25c; oz. 38c; ¼ lb. \$1.25, postpaid.

**DANISH BALLHEAD**  
**Large and Sweet**  
531 (105 days.) One of the finest of the late varieties. Large round heads, weighing about 9 lbs. Crisp, very sweet and tender, and unsurpassed for boiling or for cole slaw. Prices: Pkt. 10c; ½ oz. 30c; oz. 55c; ¼ lb. \$1.65, postpaid.

**SUREHEAD**  
**Always Heads Out**  
538 (95 days.) If you have trouble in getting your late cabbage to head, try this one. Heads are large, round and flat, very uniform in size, a good keeper, makes fine kraut. Price: Pkt. 6c; ½ oz. 25c; oz. 50c; ¼ lb. \$1.40, postpaid.

**PREMIUM LATE DUTCH**  
**Good Keeper**  
535 (105 days.) Everybody knows this one. A low growing sort, the heads very large, weighing from 12 to 14 lbs. Round, solid and broad, flat on top. A sure header, and a good keeper. Price: Pkt. 5c; ½ oz. 22c; oz. 38c; ¼ lb. \$1.25, postpaid.

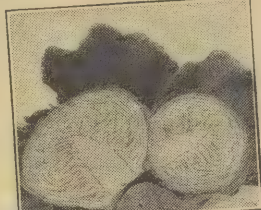

## NOW! DISEASE RESISTANT CABBAGE

These special strains have been selected for their ability to resist yellows, wilts, rots and similar diseases.

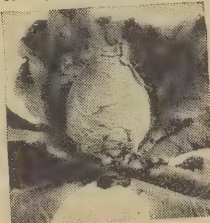

**MARION MARKET**  
**The Early One**

523 (75 days.) Strain of Copenhagen which has all the good points of the variety plus the resistance to disease. Price: Pkt. 10c; ½ oz. 35c; 1 oz. 60c; ¼ lb. \$1.75, postpaid.

**YELLOWS RESISTANT BALLHEAD**  
**The Late One**

526 (105 days.) A late, round headed one. If you once grow it, you will want it again. Larger and more leafy than the ordinary Hollander. Heads are round and somewhat flat. Very solid and a good keeper. Price: Pkt. 10c; ½ oz. 35c; oz. 60c; ¼ lb. \$1.40, postpaid.

**JERSEY QUEEN**  
**The Pointed One**

525 (63 days.) Disease Resistant Jersey Wakefield. Standard early pointed head variety. Smooth dark green leaves. 2½ to 3 lbs. to the head. Does well everywhere. Makes a crop where others fail. Price: Pkt. 10c; ½ oz. 35c; oz. 60c; ¼ lb. \$1.45, postpaid.

## PUMPKIN PIE

- 2 cups stewed and strained pumpkin
- 2 cups rich milk or cream
- 1 cup granulated or brown sugar
- 3 eggs
- 1 tsp. salt
- ½ tsp. ginger
- 1 tsp. cinnamon
- 2 tbl. sorghum or brown sugar

Mix pumpkin with milk, sugar, beaten egg, salt and spices and beat 2 min. Pour into pie tin which has been lined with pastry. Place in hot oven at 450 degrees F. for 10 min., then lower heat to 350 degrees F., or "medium" and bake until filling is firm.

This makes 2—8 inch pies or one very large one.

## MRS. FIELD'S SAUER KRAUT RECIPE

Use good firm sound cabbage, trim, and shred, chop, or shave, in the usual manner. Add 2 oz. salt to 5 lbs. prepared cabbage (2 oz. is about ⅓ cup). Use barrel or dairy salt, not the free running table salt. Mix salt and cabbage thoroughly and pound it a little to draw the juice.

Pack tightly at once into glass fruit jars, using old fashioned lids and rubbers. Leave the lid loose first two or three days till it gets done the first active working. Set the jars on the back porch, in an enamel pan to catch the overflow of juice.

After two or three days when the first active working is done, add mild hot brine to make up for juice lost, tighten the lids, and set the jars away, down cellar. The kraut will be good in about two weeks, and will stay good indefinitely.

## MRS. FIELD'S VEGETABLE SOUP

For 3 quarts of soup—to serve 10 or 12 people

- |                    |                          |
|--------------------|--------------------------|
| 1 oz. turnip       | 1 tbsp. rice             |
| 2 oz. green pepper | 1 tbsp. pearl barley     |
| 2 oz. carrot       | 1 tbsp. broken spaghetti |
| 1 oz. okra         | ½ tsp. black pepper      |
| ½ lb. cabbage      | 1 tbsp. salt             |
| ¼ lb. potato       | Pinch paprika            |
| ¼ lb. onion        | Pinch red pepper         |
| ½ lb. tomato       | 1 qt. soup stock         |
| ¼ lb. meat         | 2 qts. water             |

Boil one hour.

## MISCELLANEOUS CABBAGE

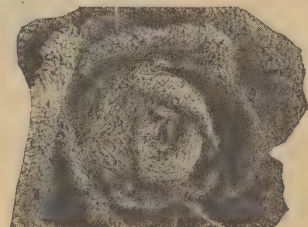

### CHINESE CABBAGE PE TSAI →

539 (70 days.) A great salad vegetable. Serve like lettuce or celery or prepare like ordinary cabbage. Should be grown as an early spring or fall crop. I have best success when sowing seeds in the field the last part of July. Heads are tall and leaves unfold to the interior of the plant of a creamy-white. It's getting more popular all the time. Price: Pkt. 10c; ½ oz. 25c; oz. 45c; ¼ lb. \$1.30, postpaid.

### RED ROCK

533 (100 days.) A sure cropper, used for cooking, salads or pickling. Heads are very solid and red throughout. Perfectly round and solid as a rock. Price: Pkt. 10c, postpaid.

### ← SAVOY

517 (90 days.) For fineness and delicate flavor you'll have to go some to beat this variety. The leaves are crumpled, giving it a different appearance. Heads are round and very solid. Price: Pkt. 10c, postpaid.

# PUMPKINS

One Oz. Plants 50 Hills

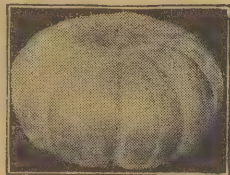

## JUMBO—KING of the MAMMOTHS

769 (120 days.) If you want an extra big one to take to the fair, here it is. Often weighs more than 100 pounds. The flesh is a little coarse but extra fine for stock feed. Price: Pkt. 10c; oz. 19c; ¼ lb. 44c; 1 lb. \$1.00, postpaid.

## YANKEE FIELD OR COW PUMPKIN

764 (120 days.) An old favorite from the New England states. Good for pies or for the stock. Big Yields. Large, orange color. Price: Pkt. 5c; oz. 12c; ¼ lb. 29c; 1 lb. 79c, postpaid.

## LARGE CHEESE OR "BUFF PIE"

763 (110 days.) A fine cream colored sweet pumpkin. Very flat in shape, slightly grooved, with hard shell. Rich yellow, thick flesh of fine flavor. Price: Pkt. 5c; oz. 12c; ¼ lb. 25c; 1 lb. 65c, postpaid.

## SMALL OR RED SUGAR

766 (118 days.) Just the thing for pies. If you don't grow any other variety plant a few of these. You will appreciate the quality, smoothness and sweetness. Orange-yellow inside and out. Very prolific yielder. Doesn't grow very large. For good eating, it's the nicest in the lot. Price: Pkt. 9c; oz. 17c; ¼ lb. 43c; 1 lb. 98c, postpaid.

## WINTER LUXURY PIE

767 (100 days.) Looks a whole lot like the small Sugar Pumpkin. A little larger in size. Color is orange, entirely covered by a fine grained netting. One of the sweetest varieties. Makes the finest pies. Price: Pkt. 10c; oz. 14c; ¼ lb. 35c; 1 lb. 85c, postpaid.

# SQUASH

## DES MOINES TABLE QUEEN

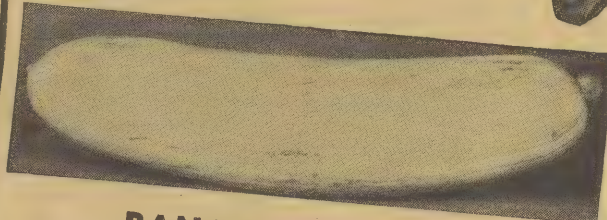

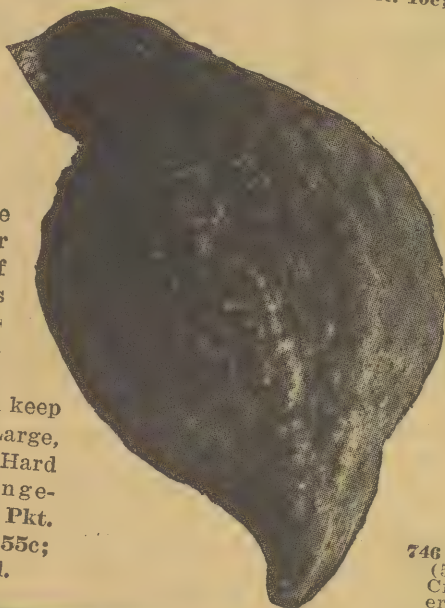

Best Table Size—Very Early

752 (80 days.) Sometimes called Acorn because of its shape. One of the most deliciously flavored squashes I know. If you like squash pie, use this variety. Just the right size to cut in half to serve two. About 6 inches long, shell is thin, hard, dark green. Flesh yellow and very tender. Price: Pkt. 10c; oz. 20c; ¼ lb. 50c; 1 lb. \$1.50, postpaid.

## GENUINE HUBBARD

Leading Winter Squash—Good Keeper

745 (110 days.) The leading winter squash, and one of the finest varieties for about Thanksgiving time, in fact, all winter. They store well and often keep until late spring. Large, warty, dark green. Hard-shelled. Deep orange-yellow flesh. Price: Pkt. 10c; oz. 20c; ¼ lb. 55c; 1 lb. \$1.65, postpaid.

## BANANA SQUASH

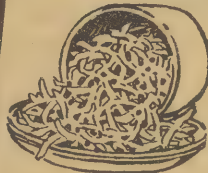

A good eating—very vigorous grower

736 BLUE BANANA. (115 days.) This variety has made an unusual name for itself in the west. Here in the middle states we find it stands Squash Bugs and pests much better than other kinds of squash. Some seedsmen say it is bug proof, I wouldn't go quite that far but it is a vigorous sure grower. The color is a bluish slate gray, the flesh a bright orange and it is shaped just like a huge banana. Priced at a packet 10c; 1 ounce 18c; ¼ pound 50c and 1 pound \$1.30, postpaid.

## 2 OTHER GOOD VARIETIES

### SPAGHETTI SQUASH

748 (95 days.) If you like to try new things, here is one. Fruits are oblong, about 10 inches in length, filled with a spaghetti-like pulp. Cook the whole fruit, just as it comes from the garden for 20 or 30 minutes, cut open and season. You will have something extra fine. Price: Pkt. 10c; oz. 16c; ¼ lb. 44c; 1 lb. \$1.08, postpaid.

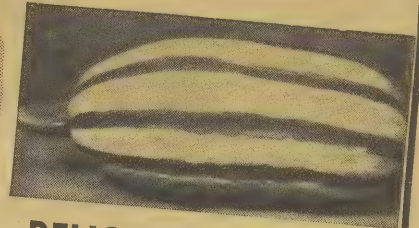

### GOLDEN DELICIOUS

738 (110 days.) A large, heart-shaped fruit, averaging 8 to 10 lbs. Flesh 2 to 3 inches thick, very sweet, of fine texture, dry, and a rich orange-red color. A vigorous grower, very productive, soft shell, good winter keeper. Price: Pkt. 10c; oz. 20c; ¼ lb. 60c; 1 lb. \$1.65, postpaid.

## PRIZE PUMPKIN MIXTURE

770 I know most of you like to have as many different varieties as you can, but do not have room for one packet of each of all the different kinds. Well, I've made a grand mixture of all the different kinds of pumpkins we have and some extra trial ground sorts. Plant plenty of them in the edge of the cornfield. Price: Pkt. 5c; oz. 10c; ¼ lb. 25c; 1 lb. 50c, postpaid.

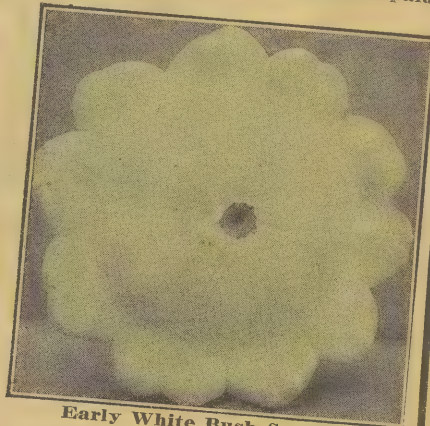

Squash likes rich loose soil and plenty of room—at least 10 to 12 feet apart. Use plenty of seed. Bugs sometimes play havoc with the seedlings but you can get them with Bug Dust. (See page 9.) Large seeded sorts figure about 25 hills to the ounce of seed and the small seeded ones about 50 hills to the ounce of seed.

## DELICATA or SWEET POTATO

The Early Baking Squash

741 (110 days.) Sold under many names. It's a real early baking squash, very attractive. The color is green and yellow. When baked and served with melted butter, it beats them all. Price: Pkt. 5c; oz. 15c; ¼ lb. 45c; 1 lb. \$1.20, postpaid.

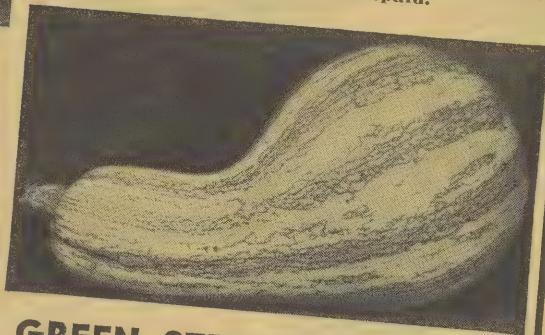

Early White Bush Scallop

## SUMMER SQUASH

Be Sure to Plant One of These Two

746 SUMMER BUSH STRAIGHTNECK. (58 days.) An improvement over the old Crookneck variety. Golden yellow, covered with warts and bumps. Very productive and early. Price: Pkt. 5c; oz. 15c; ¼ lb. 40c; 1 lb. \$1.00, postpaid.

747 EARLY WHITE BUSH SCALLOP. (52 days.) A medium white summer squash. Use them while young and tender. Fruit three inches deep and eight inches in diameter. General shape, round with scalloped edges. Price: Pkt. 8c; oz. 14c; ¼ lb. 39c; 1 lb. \$1.00, postpaid.

## GREEN STRIPED CUSHAW

Very Fine Grained Meat

739 (115 days.) A large crookneck pumpkin of fine quality. The neck is the edible part, is perfectly solid and of unusually high quality. Fine grained. Price: Pkt. 6c; oz. 18c; ¼ lb. 49c; 1 lb. \$1.30, postpaid.

## SQUASH MIXTURE

All Kinds—All Seasons

749 This mixture is made up especially for those of you who have a limited garden space and like several varieties of squash and do not care to plant a whole packet of each one. It includes all of the varieties named here, and some others. You will get your money's worth and then some. Price: Pkt. 5c; oz. 15c; ¼ lb. 40c; 1 lb. 90c, postpaid.

Large Pkt.  
**5c**  
Postpaid

## BUG DUST

Helps You STOP Those Squash Bugs! See Page 9.

## IT'S EASY TO RAISE ORNAMENTAL GOURDS

The gourd hobby is becoming more and more popular. One man I know has over 500 different home articles made out of gourds. Lampshades, etc. They make fine decorations, painted or unpainted.

### HERBS

#### DILL

Herb borders are becoming more and more popular. Pick your own fresh seasoning at your own back door, like grandmother did. It's easy and fun to do.

245 DILL. Annual. Used for flavoring dill pickles. Also soups and sauce. Price: Pkt. 7c; oz. 15c, postpaid.

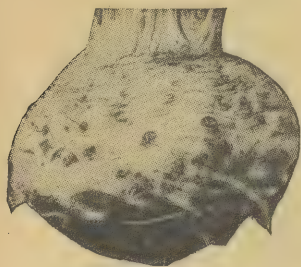

#### SAGE

246 SAGE. Perennial. For seasoning meats and for medicinal purposes. Price: Pkt. 10c; postpaid.

### BRUSSELS SPROUTS

225 (90 days.) Belongs to the cabbage family. Dozens of miniature cabbage heads grow alongside the stems. Heavy yielder. More popular each year. Price: Pkt. 10c; oz. 25c, postpaid.

### CELERIAC

244 (120 days.) Turnip rooted celery. Leaves dark green with hollow stalks. Roots are smooth, two or three inches in diameter. Used for celery-like flavoring in soups and salads. Price: Pkt., 6c; 1/2 oz., 18c; oz., 30c, postpaid.

### GARDEN LEMON

229. Cultivate like muskmelons. Makes fine pickles and preserves. Price: Pkt. 7c; oz. 35c, postpaid.

### ENDIVE

234 (90 days.) Broad leaved Batavian. Eat like lettuce or cooked. Pkt. 6c; oz. 24c, postpaid.

Mushroom

### MUSHROOM SPAWN

241 Full cultural directions with every order. Price: Brick 35c; 3 bricks 98c, postpaid.

## ODDS AND ENDS CORNER

Here are all the odds and ends I wind up with, that have no special place in the catalog. So I'm putting them all here together.

228 CHICORY. A substitute for coffee. Price: Pkt., 7c; oz., 20c, postpaid.

227 CITRON (95 days.) Red seeded. Good for pickles and preserves but don't plant near the watermelons. Price: Pkt., 7c; oz., 15c, postpaid.

226 COLLARDS. Cabbage leaves without heads. Price: Pkt., 5c; oz., 15c, postpaid.

233 GARDEN HUCKLEBERRY. Makes delicious pies, preserves and jams. Care for them as you would Tomatoes. Price: Pkt., 10c, postpaid.

240 GARLIC (110 days.) Divide, cultivate and store just as you would onions. Price: 5c per bulb; 1/2 lb., 25c, postpaid.

232 KALE (Half Dwarf) — (110 days.) The hardest winter green. A beautiful curled sort. Price: Pkt., 9c; oz., 25c, postpaid.

231 LEEK (130 days.) Large flag. Extra good onion for fall or winter. Price: Pkt., 10c, postpaid.

213 MUSTARD (45 days.) Chinese Curled. For real tasty greens. Price: Pkt., 5c; oz., 15c, postpaid.

237 RHUBARB. Grow one year in nursery row about a foot apart. Transplant to 2 feet apart in rows 4 feet apart the second year. Large thick red stalks. Price: Pkt., 10c, postpaid.

238 TOBACCO, WHITE BURLEY. A fine all-purpose variety. Price: Pkt., 10c; oz., 35c, postpaid.

### NEW GUINEA BEAN

222 Weight 15 pounds when fully grown. Eat when 15 to 18 inches long, fry as you would Eggplant. The vines climb any support and make a growth of 20 to 30 feet. Price: Pkt., 10c; oz., 17c; 1/4 lb., 50c, postpaid.

## "HOW TO DO IT" DEPARTMENT

### Grow a Better Vegetable Garden

#### General Tips

Before plowing burn the rubbish and dead vegetable vines as they may carry disease or injurious insects.

Apply a good coating of manure if you can get it. Tree leaves are also fine.

Some gardeners say cover the seed four times its greatest diameter.

Seed can be planted deeper on loose mellow soil than it can on clay or gumbo.

The same seed should be planted deeper late in the season when the soil is warm and more likely to dry out.

After planting very small seed, especially among the flowers, cover with a mulch to hold the moisture near the surface until the seed sprouts.

Plant some for the worm; some for the crow; some to pull out and some to grow.

Plant abundantly. Enough for yourself and some to spare.

LOCATION OF GARDEN. The kitchen garden should be located close to the house. This gives protection against animals and thieves (makes it a lot harder too if you have a few odd moments to spend in it).

The main or big garden should be so located and planned that it can be cultivated with regular farm tools. It saves a lot of weeding.

#### SOILS AND SHADE

Don't make your garden in the shade of big trees or in soils full of tree roots if you can avoid it. Most garden crops like sunshine and all of them appreciate and respond to good soil. Stony land and poorly drained soil are not the best.

#### FITTING THE SOIL

Plow or spade deeply in the fall, especially where there is sod to be turned under. Do a good job. Leave the land rough to hold snow and moisture. Harrow or rake thoroughly before planting. Good preparation will save a lot of cultivation.

SIZE OF GARDEN. There is only one rule

#### Crop Succession

Plant radish seed very thin and follow at once with parsnip, carrot, parsley, asparagus, onion or leek right in the same row. Pull the radish and use when it is large enough.

Plant Beets, Kohlrabi, Lettuce, Mustard, Spinach, Onion Sets, Radish or early Beans or Peas between rows of late Cabbage, Melons, Squash or Tomatoes.

Plant radish very early followed by early Cabbage plants set every two feet in the row and after the cabbage is off sow late turnips or Chinese Cabbage.

Plant two rows of Potatoes between each two Watermelon rows and dig potatoes after the Melons are gone.

Follow early Peas and Beans with late Cabbage.

Celery may follow early Peas, Beans, Lettuce, Radish or Spinach.

Plant late turnips in vacant spaces about the garden.

## PEANUTS

Yes, you can grow peanuts in this climate just as well as not. Plant just like beans, in soft loose soil, after it gets thoroughly warm in the spring. Thin to a foot apart in the row and keep well hoed.

### EARLY NORTHERN

219—The early peanut for the Midwest. Small, well filled pods with lots of them on the vine. Will ripen anywhere in the corn belt as they are early and like our soil. Price: 1/4 lb. 10c; 1/2 lb. 20c; 1 lb. 40c; 3 lbs. 95c, postpaid.

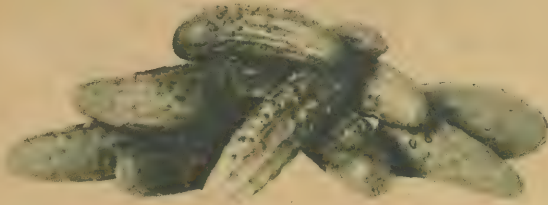

### JUMBO PEANUTS

218—Great big kind. Plant them the same time you plant beans. Not as early as the Early Northern but you are reasonably sure of a crop here in this section. Price: 1/4 lb. 10c; 1/2 lb. 20c; 1 lb. 40c; 3 lbs. 98c, postpaid.

## CUCUMBERS

They like rich soil but they do fairly well most anywhere. Plant liberally because the bugs sometimes take some of the seedlings. Don't crowd cucumbers—give them plenty of room. Make the hills at least 4x6 feet and more room if you have it. Plant when the ground is warm and figure about 3 dozen hills to a packet of seed or 100 hills to the ounce. For late pickles, plant in June.

FOR CUCUMBER BUGS USE BUG DUST

### NATIONAL PICKLE

*Makes Uniform Pickles*

352—(54 days). Makes the finest of crisp uniform pickles, any size you want them from wee ones to dill size. They set on freely and continue to bear as long as you keep them picked. The shape is ideal; they pack without waste. Price: Pkt. 9c; oz. 29c; 1/4 lb. 73c; 1 lb. \$1.98, postpaid.

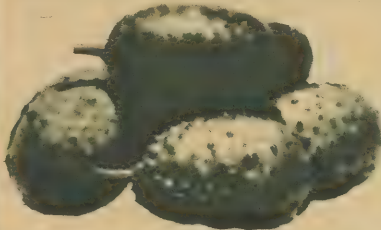

### STRAIGHT EIGHT—Fine Slicer

368—(66 days). A big vigorous grower, cylindrical in shape, uniform, round, dark green over the entire surface, small seed cavity, thick flesh of fine quality and very attractive. One of the best.

Price: Pkt. 9c; oz. 34c; 1/4 lb. 75c; 1 lb. \$1.98, postpaid.

### WEST INDIA GHERKINS

350—(60 days). A little oval shaped prickly pickle which is said to have come from the West Indies. Very

prolific bearer, a stronger grower than most cucumbers, grows anywhere and is practically bug and disease proof.

Price: Pkt. 10c; oz. 25c; 1/4 lb. 75c, pp.

### The Famous EARLY FORTUNE

*Disease Resistant*

353—(60 days). To my notion, one of the finest of the medium early sorts. Disease resistant, a very vigorous grower and will produce an enormous crop of dark green cucumbers. Holds its color well and has a small seed cavity. Price: Pkt. 7c; oz. 35c; 1/4 lb. 98c; 1 lb. \$2.35, pp.

### THE GIANT IMPROVED LONG GREEN

*One of Most Popular*

361—(68 days). A medium late variety which has a small seed cavity and is ideal for slicing. One of the most popular and widely used varieties.

Price: Pkt. 10c; oz. 34c; 1/4 lb. 90c; 1 lb. \$2.25, postpaid.

### DARK GREEN SLICER

*The Perfect Slicing One*

364—(60 days). As the name indicates, it is a rich, deep, dark green in color, and slices remarkably well. Straight, rather blunt ended. Is early, bears well and doesn't have "nubbins." Price: Pkt. 7c; oz. 30c; 1/4 lb. 75c; 1 lb. \$1.98, postpaid.

## SWEET and HOT PEPPERS

Peppers do well on any soil except that which is too low and too wet. Give them plenty of room for best results. I like to start them in the house or in the hot bed and from then on handle them just as you would tomatoes. One ounce will make 1,500 plants.

### Long Red CAYENNE

*(My Only Hot Pepper)*

636—LONG RED CAYENNE. (70 days.) The leading hot one for canning, drying or pickling. Grows anywhere and bears with the best of them. Fruit 3 to 4 inches long. Price: Pkt. 10c; 1/2 oz. 25c; oz. 35c, postpaid.

### EARLY SWEET PIMENTO

639—EARLY SWEET PIMENTO. (73 days.) Flat tomato shaped pepper. Rounding flat 1 1/2 to 3 inches across. The fruits are smooth, nearly round, and a brilliant scarlet. Is exceptionally mild and sweet.

Price: Pkt. 10c; 1/2 oz. 20c; oz. 35c, pp.

### WORLD BEATER

*Heavy Yielder*

641—WORLD BEATER. (75 days.) Early heavier yielder. Sure yielder. As good, if not better, than any of them. One of our heaviest sellers. Flesh is thick, mild and sweet. Very good yielder. Stands shipping well. Price: Pkt. 5c; 1/2 oz. 25c; oz. 40c, pp.

### KING OF THE NORTH

*Earliest Large Sweet*

640—The newest and earliest large pepper grown, especially valuable in the northern states.

Fruits grow to enormous size, the color is brilliant red, size usually six inches long and three or four inches

in diameter. Thick flesh, very firm, sweet and mild. Price: Pkt. 10c; 1/2 oz. 25c; oz. 40c; 1/4 lb. \$1.25, postpaid.

### CALIFORNIA WONDER

*Mild and Sweet*

648—Large, thick meaty and unusually solid. Fruit four lobed and very uniform. Mild and sweet. Color, bright crimson. Fruit up to 4 inches in size. Beautiful in a salad. Price: Pkt. 10c; 1/2 oz. 25c, pp.

### RUBY KING

*One of Most Popular*

645—RUBY KING. (68 days.) A large sweet, early pepper. Very popular with home and market gardeners. Fruit often 6 inches long, three-lobed, slightly tapered. Price: Pkt. 7c; 1/2 oz. 24c; oz. 38c, postpaid.

### WHITE WONDER

363—(58 days). Very popular as a novelty on account of its color. Pure white in all stages of growth. Produces heavy, has a fine flavor and is well worth trying.

Price: Pkt. 8c; oz. 35c; 1/4 lb. 90c, pp.

### CLIMBING CUCUMBERS

366—(58 days). A distinct climbing variety, used to cover trellises and fences. The cucumbers themselves are dark green, very uniform, very attractive. Plant some on the chicken yard fence.

Price: Pkt. 10c; oz. 25c; 1/4 lb. 75c, pp.

### HEINZ'S PICKLE

*The Small Pickle—Very Prolific*

356—(56 days). Developed especially for those who put up their own small pickles. Cylindrical in shape. Very robust in growth and more rust resistant than other varieties. Keep picked off and it will give you worlds of small pickles.

Price: Pkt. 5c; oz. 30c; 1/4 lb. 75c; 1/2 lb. \$1.98, postpaid.

### OHIO 31

354—(55 days). Best new pickle in years. Resistant to Mosaic. Very early. Strong, vigorous grower. Flesh thick. Seed cavity small. Originated by Ohio College. Offered for the first time this year. Seed supply limited.

Price: 15c; oz. 37c; 1/4 lb., 98c; 1 lb., \$2.25, postpaid.

## Grow Your Own RADISHES

### SCARLET WHITE TIP Earliest 2-Color Radish

444—(25 days.) A bright scarlet red with a contrasting white tip. Early, round, tender, and sweet.  
Price: Pkt. 7c; oz. 18c; ¼ lb. 38c; 1 lb. 96c, postpaid.

### THE FAMOUS LONG WHITE ICICLE

- Attractive
- Tender
- Crisp
- Sweet
- Early

448—(27 days.) Most popular and the earliest long white radish. Very mild and sweet. Snow white throughout. One of the most tasty ones we have. Tops are small. It grows quickly and doesn't get pithy. No garden is complete without Field's long white icicle. Plant plenty of "reds" and plenty of these sweet long whites.

Price: Pkt. 10c; oz. 20c; ¼ lb. 43c; 1 lb. \$1.05, postpaid.

### Special RADISH OFFER

400X  
1 Pkt. Red Ball

1 Pkt. Scarlet White Tip  
All 3 for 19c  
POSTPAID

### FRENCH BREAKFAST

#### The Cylindrical Early 2-Color Radish

442—(24 days.) Valuable as a standard home and market gardening sort for forcing.

A quick grower, and attractive. Oblong, white tipped. Very early.

PRICE: Pkt. 7c; oz. 18c; ¼ lb. 42c; 1 lb. 98c, postpaid.

### EARLIEST RED BALL

#### Earliest of All

450—(19 days.) A crispy, sweet little radish, round as a ball, bright scarlet in color. Tender and sweet, the earliest one we have. On good soil you can easily have radishes 3 to 4 weeks. Price: Pkt. 10c; oz. 23c; ¼ lb. 55c; 1 lb. \$1.50, postpaid.

### The Winter Radishes WHITE MAMMOTH

#### THE WHITE FALL RADISH

456—(58 days.) A fine late fall variety, a decidedly heavy favorite among gardeners for summer and fall market. Grows 7 to 8 inches long. Solid, white flesh. Price: Pkt. 8c; oz. 15c; ¼ lb. 37c; 1 lb. 89c, postpaid.

### CHINESE ROSE WINTER

#### For Winter Storage or Bunching

454—(50 days.) Most popular of the winter sorts. Very handsome and dependable, either for bunching or winter storage. 5 to 6 inches long, always solid and crisp. Plant in July at turnip planting time. Price: Pkt. 10c; oz. 20c; ¼ lb. 40c; 1 lb. 95c, postpaid.

### NEW CRIMSON GIANT

#### HUGE SIZE →

#### But Doesn't Get Pithy

437—(28 days.) Noted for its large size, and because it doesn't get pithy. The flesh is a snowy white, and the color is an attractive deep crimson. A vigorous quick grower. Price: Pkt. 10c; oz. 18c; ¼ lb. 42c; 1 lb. 98c, postpaid.

New, Sweet Eating Radish

### TENDERSWEET

439—Here's a radish improved for its taste—not its size. It's early, round and red, like a ball, but more than that—all the tender crispness a radish could have and still be deliciously and unusually sweet has been bred into this new strain. The eating radish deluxe. You must serve it and hear your family exclaim. Ready in two to three weeks. Large pkt. 10c; oz. 25c; ¼ lb. 75c, postpaid.

### The Red Icicle LONG SCARLET

451—(26 days.) The short top kind. Standard sort for home gardeners and truckers, too. Smooth and uniform, five to six inches long, crisp white flesh. Price: Pkt. 7c; oz. 15c; ¼ lb. 30c; 1 lb. \$1.10, postpaid.

### EARLY SCARLET GLOBE 5c

#### Sweet and Tender

440—(22 days.) A beautiful bright scarlet. Makes a quick growth. Pure white flesh, crisp and sweet. Price: Pkt. 5c; oz. 18c; ¼ lb. 40c; 1 lb. \$1.10, postpaid.

### RADISH MIXTURE

453—Includes all of the above named sorts, and many others. Start pulling them early and use as they are ready. All colors, sizes and shapes. The perfect way to raise radishes and have crisp, fresh, new ones coming along ready for pulling all season long.

PRICE: (Double Size Packet) 7c  
Oz. 12c; ¼ lb. 30c, postpaid

### DARK RED CANNER

#### For Canning, Cooking, Pickles

606—This wonderful new variety was developed especially for the canning trade in the East. The beets are exceptionally fine for pickles. Small and globe shaped. Color is a rich, deep dark red, doesn't fade or wash out during cooking or pickling. Price: Pkt. 10c; oz. 30c; ¼ lb. 95c, postpaid.

### DETROIT DARK RED

#### Favorite the World Over

604—Improved—(58 days.) There are no white streaks or rings in this one. It is a deep, rich red color, inside and out. Globe shaped. Has small tap roots and is excellent for home or market garden. Stands handling well. Price: Pkt. 7c; oz. 30c; ¼ lb. 85c, postpaid.

### PERFECTED DETROIT DARK RED

#### The Perfect Deep Red Beet

602—(58 days.) A re-selected strain of Detroit Dark Red. In our trial grounds, it made the best showing of any for color, shape and uniformity. In fact, I don't know how it can be improved. Medium in size and runs as regular and uniform as you could wish. Rich, deep dark red with absolutely no white rings nor streaks. No side roots.

Price: Pkt. 10c; oz. 30c; ¼ lb. \$1.00, postpaid.

### NEW! PERFECTED CANNER

605—A new beet that beats them all. If you are looking for perfection stop right here. This beet not only has the richest deep, dark red, but doesn't lose it in cooking or pickling. Won't fade. It's small, uniform and smooth with practically no tap roots. You can't find a better all around beet for canning. Price: Pkt. 10c; 1 oz. 35c; ¼ lb. \$1.10, postpaid.

## The Famous FIELD'S DAISY MELON

### The Best "ALL-AROUND" Melon

332—(76 days.) I don't think you will ever find a sweeter, better, all around melon. I introduced this years ago and we have been working on it ever since, making a careful selection each season. It's easy grown, prolific, medium in size, round, perfect in quality, thick, smooth, deep orange flesh, and makes customers come back for more.

Try it this year.

Price: Pkt. 15c; oz. 40c; ¼ lb. \$1.00, postpaid.

## TWO HALE'S BEST MELONS

### MILDEW RESISTANT

328—(80 days.) A carefully selected strain of Hale's best that won't take mildew. Better than the regular Hale's and more widely adapted. The melons are slightly oblong or oval shaped. The seed cavity is very small, the flesh is very thick and deep orange.

Price: Pkt. 10c; oz. 25c; ¼ lb. 75c; 1 lb. \$1.89, postpaid.

### Most Popular for Market One of the Earliest

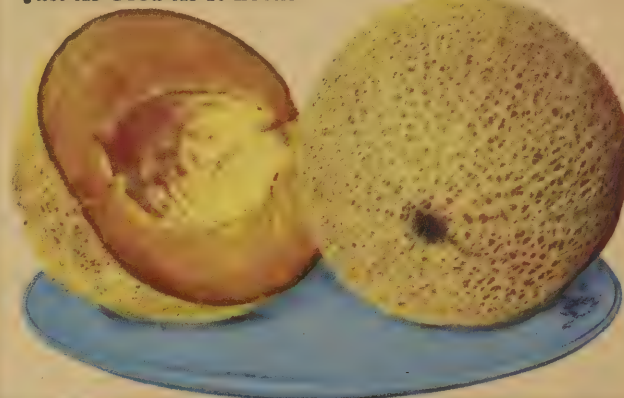

333—(80 days.) Medium size, very early sort, slightly oblong, but well netted and very attractive. Thick flesh, deep orange color, extensively planted in the commercial muskmelon growing districts. Price: Pkt. 10c; oz. 25c; ¼ lb. 75c; 1 lb. \$1.89, postpaid.

### HEARTS OF GOLD

#### THE SWEET TABLE MELON

345—(95 days.) The name about describes it. Medium size, round, well netted, sweet and tender. Price: Pkt. 10c; oz. 29c; ¼ lb. 75c; 1 lb. \$1.98, postpaid.

Just As Good As It Looks

# MUSKMELONS

I'm proud of my muskmelon seed. I don't believe there is another seedsman in the country who has spent as much time fussing with the growers, inspecting crops and worrying about his melon seeds. Every variety is grown by a specialist in an isolated place where it doesn't get a chance to mix with anything else. Plant them after the ground is warm. Figure about three dozen hills for one packet of seed or 100 hills from an ounce. Give them plenty of room, at least 6 to 8 ft. each way.

## GREELEY WONDER

*The Largest of All Real Flavor, Too*

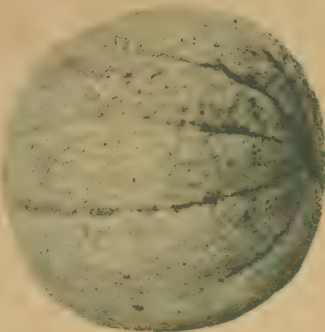

334—(80 days.) This is the largest one on the list. In spite of its size, it has exceptionally fine quality and good flavor. If you want something extra big to take to the Fair, here it is. Price: Pkt. 6c; oz. 25c; ¼ lb. 72c; 1 lb. \$1.89, postpaid.

## HONEY ROCK

*The Best Shipper*

336—(95 days.) The sweetest melon I know of and as solid as a rock. Heavily netted, with no sign of rib. Very productive, beautiful in appearance, a fine shipper. In fact one of the finest all-around melons. Almost a crop failure. Pkt. 10c; oz. 25c; ¼ lb. 72c; 1 lb. 1.89, postpaid.

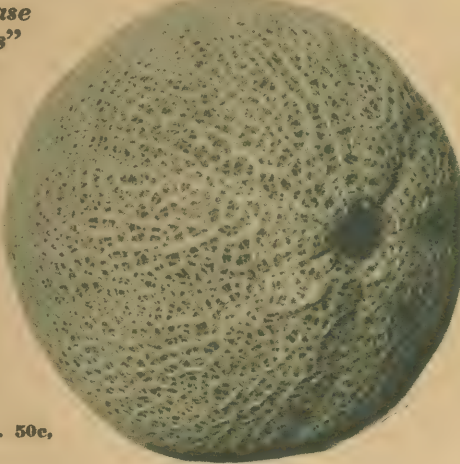

## GOLDEN HONEY—Early Hale's Type

*"Finest of Disease Resistant Kinds"*

**Solid Golden Flesh**

327—A new mildew resistant cantaloup of the Hale's type. Fully 7 days earlier than Hale's Best. Very solid, golden flesh, heavily netted, and will stand lots of handling in shipping. Vines are vigorous—a big yielder. We consider this the finest of the mildew resistant cantaloups (not much seed to offer this year.)

Price: Pkt. 15c; oz. 50c, postpaid.

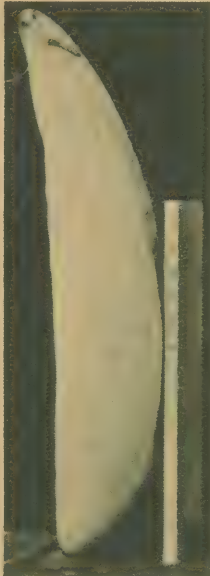

## BANANA MELON

*"Plant This for Variety"*

326—(96 days.) Looks like a huge banana with a delicious banana-like flavor, when thoroughly ripe. The boys will like this one.

Price: Pkt. 15c; 1 oz. 27c; ¼ lb. 75c; 1 lb. \$1.98, postpaid.

## GREENFLESHED MELONS

*A real treat for Midwesterners*

### The Early One

344—STANDARD ROCKY FORD—(84 days.) This is the old greenfleshed "grand-daddy of them all" that made Rocky Ford famous. We have found a carefully selected early strain which will please you. Price: Pkt. 7c; oz. 25c; ¼ lb. 72c; 1 lb. \$1.89, postpaid.

### The Sweet One

337—HONEY DEW—(112 days.) A later variety that is extremely sweet. Is smooth, has a white rind and green flesh, honey-like flavor. This is the one served in hotels at such a fancy price. Price: Pkt. 10c; oz. 25c; ¼ lb. 75c; 1 lb. \$1.78, postpaid.

## MIXED MUSKMELONS

*Fun for Kids—from 8 to 80*

331—Give the boys an ounce of this for their own melon patch. It's cheap and contains all of the varieties listed above, and many more. I am sure you will find some that you never knew existed.

Price: Pkt. 5c; oz. 16c; ¼ lb. 55c; 1 lb. \$1.50, postpaid.

## The Four Best Varieties

# TURNIPS

Plant some of the early ones in the spring, just as early as you can get in the ground. The main crop turnips are best sown the latter part of July.

Turnips will keep growing in the ground until it freezes and then may be stored in the cave, basement or crib. One ounce will drill 150 feet of row. 2 or 3 lbs. to the acre.

*Don't forget that turnips are one of the best vegetables for summer planting. Plan to order for both spring and fall crops.—H. F.*

803—EXTRA EARLY MILAN—(40 days.) One of the earliest turnips in cultivation. Fine for home or market. The roots are flat, white with purple top, flesh pure white, very fine grained, sweet and tender. Price: Pkt. 9c; oz. 20c; ¼ lb. 45c; 1 lb. \$1.30, postpaid.

807—PURPLE TOP GLOBE—(55 days.) The leading turnip, one of the best. Yields heavy crops of large, round, purple top turnips. Very tender, crisp and sweet. Flesh pure white, and it stores well for winter use. The flavor is unusually good. Price: Pkt. 7c; oz. 15c; ¼ lb. 40c; 1 lb. 95c, postpaid.

810—WHITE GLOBE—(75 days.) A large late variety which is good for table use or for stock feed. It produces a tremendous turnip. The roots grow 4 to 6 inches in diameter, entirely white. Price: Pkt. 5c; oz. 15c; ¼ lb. 38c; 1 lb. 98c, postpaid.

806—PURPLE TOP STRAP LEAF—(45 days.) Very similar to the Purple Top White Globe except that it is flatter in shape. One of the finest garden sorts for either spring or fall planting. Price: Pkt. 5c; oz. 15c; ¼ lb. 35c; 1 lb. 95c, postpaid.

## HOW TO STORE THEM

Turnips and Rutabagas are two of the best vegetables for storing over winter. Build or dig an outdoor cave or simply store in cool, dark cellar. Watch out for poorly ventilated situation where mold can develop.

## RUTABAGAS

*Good Keepers—Firm Flesh*

808—RUTABAGA AMERICAN PURPLE TOP—(90 days.) Has large, smooth, cabbagelike leaves. The root is large, globe-shaped, with a small crown, yellow in color, with a purple top. The flesh is tender and crisp. Grown extensively in the northern sections. Crop was short. Not enough seed to go around. Order early.

Price: Pkt. 8c; oz. 20c; ¼ lb. 45c; 1 lb. \$1.35, postpaid.

# BEET SEED

I have spent a lot of time to get you only the finest kind of beets. On some of the varieties I have even sent to Europe after the seed. I like a beet of uniform shape and color, with small top, small tap root, free from the straggly side roots. One ounce of seed will grow 100 feet of row. Plant as soon as you can get in the ground in the spring and make several sowings throughout the season.

## EARLY WONDER

607—(52 days.) Very early and small, flat globe shape with small collar and tap roots. A favorite with market gardeners.

Price: Pkt. 5c; oz. 27c; ¼ lb. 85c, postpaid.

## CROSBY EGYPTIAN

*The Earliest Deep Red*  
603—(55 days.)—Fine for table or market. Excellent for freezing. Medium globe shaped. 2½ to 3½ inches in diameter. Small side roots. Medium red in color. Rich, sweet flavor. Price: Pkt. 7c; oz. 25c; ¼ lb. 75c, pp.

# STOCK BEETS

(90 to 120 days.) Makes 15 to 20 tons of beets to the acre. Sow the seed in April and May in rows 2½ to 3 feet apart, at the rate of 10 or 12 lbs. to the acre. Harvest before severe frost and store in pits or cellar. Livestock and poultry sure go for stock beets. Price on all varieties: Oz. 20c; ¼ lb. 65c; 1 lb. \$1.90; 5 lbs. \$9.00, postpaid.

Mam. Long Red

616—GIANT FEEDING SUGAR. One of the heaviest producers. Its extra sugar content makes it more desirable for a dairy feed. Fine keeper, oval shaped.

619—MAMMOTH LONG RED MANGEL. The largest and most productive of all. Called by some "Gate Post" because of its size. Often reaches 24 to 30 inches in length with individual weight from 25 to 35 lbs. Easily harvested as the root grows half out of the ground.

610—POULTRY BEETS. You who have fed mangels to poultry know their value as a winter feed to take the place of green stuff to keep the hens on production. This is a mixture of all kinds. Makes real feed.

*Most Beautiful*

## HARDY PERENNIALS in all the world

Don't believe you will find more beautiful, or more hardy flowers than these anywhere. Have searched everywhere for them, then set them out here at Shenandoah for trial, so I know just what they are before I send them out to you. Order at least a half-dozen of them. More if you can. They'll really give you an inspiration when they bloom this summer.

**HOW I SHIP:** All my perennials are shipped to you in a separate package from trees and seed, etc. They do better this way.

### Hardy CARNATIONS

## FRAGRANT PINKS

### The Dainty Dazzlers

**BN138**—GRASS PINKS or CLOVE PINKS. The old-fashioned beauty. Continuous pink bloom all summer long. Very fragrant. 39c each; 2 for 65c; 3 for 89c, postpaid.  
**BN137**—ROCK PINK. (Glowing Crimson.) Dianthus Deltoides, also known as Maiden Pink. Broad mats of grassy foliage studded with hundreds of small, brilliant crimson "pinks." Hardy as a rock and about as durable. 39c each; 2 for 65c; 3 for 89c, postpaid.

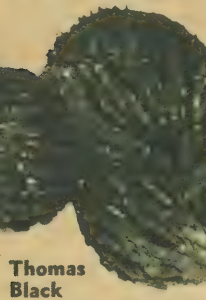

## Henry Field's NUT TREES

When planting, cut back the branches heavily. Dig a very big hole as the roots are generally large. Set just as deep as they stood in the nursery row. Firm the soil well and water thoroughly. Water from time to time during the first summer unless thorough heavy rains.

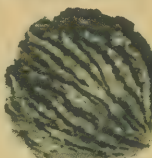

### THOMAS BLACK WALNUT

AN726—I am glad to again have these trees to offer. I have been out for quite a while because I didn't have anybody to graft them for me. They are thin shelled easily cracked walnuts, best known and most satisfactory improved budded black. Hardy anywhere that walnuts will grow, Iowa, Nebraska, Missouri, etc. Bears when very young, often producing nuts the first year after planting. Nuts are thin shelled, easily hulled, kernels fine color and excellent flavor, easy to crack out in halves and quarters. Trees also make fine shade. A Thomas Black Walnut tree, or a grove of Thomas Black Walnuts, will be a fine investment. A mature tree will produce 15 to 40 bushels which sell for \$4.00 or more per bushel. A bushel of nuts cracks out from 10 to 12 lbs. of meat, which sells readily at 75c to \$1.50 per pound. Plant the trees 40 to 50 feet apart. 2 to 4 foot plants are best size for transplanting. \$2.49 each, 3 for \$7.19, 5 for \$11.75, postpaid.

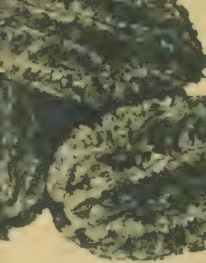

### OHIO GRAFTED BLACK WALNUT

AN742—This walnut is not as well known as the Thomas, but is an extremely fine grower and if anything a larger nut. I do not have many of these but will sell out what I have at \$3.25 each, postpaid.

### BENGE BLACK WALNUT

AN743—This is a grafted walnut also and, although not very well known, it is a very rapid grower. The fastest of all growing Black Walnut hybrids. In the vicinity of Oklahoma and Texas it is making a better record than any of the other hybrids. Not so good for very far north. I have a few of these also and will sell them 2 to 4 ft. at \$3.25 each, postpaid.

### BUTTERNUT

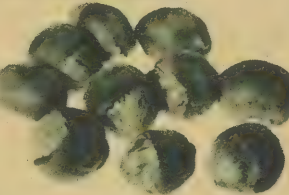

AN704—Cousins of the Black Walnut, and one of the most popular and best eating nuts. It bears large nuts with a rich buttery flavor. The Butternut makes a very fine tree as well. Its wood is greatly esteemed for furniture and interior trim. 1 1/2 to 2 ft. plants 39c each; 3 for 98c, postpaid.

### SHAGBARK HICKORY

AN744—These are the grand old Shagbark nuts so beautifully flavored, so much a favorite with everybody. When I go out after nuts in the woods in the fall I always hunt for Shagbark. So why not plant some on your own place and you won't have to go out and hunt for them, they will be right there. 12 to 18 in., 39c each; 3 for 98c, postpaid.

### HAZELNUTS

AN712—One of the finest, easiest to crack kind of nuts we can grow here and it grows all the way along up north, too. It fruits heavily each year, is hardy in any climate. Besides its annual crop of nuts, it makes a fine ornamental shrub turning red and yellow in the fall. There is a place for these around every home, and the children's children as well as you folks will enjoy eating the nuts. 18 to 24 inches. 39c each; 3 for 98c, postpaid.

### HARDY PECAN

AN710—This is a native type and very hardy. Besides its heavy yield of fine quality delicious nuts, it makes a beautiful ornamental tree. A very vigorous grower.

Make your shade trees double purpose trees. 2 to 3 ft.

98c each; 3 for \$2.85, postpaid.

# Henry's HARDY HEDGES

PLANT A NEAT, LIVING FENCE—CHEAP AND BEAUTIFUL

A living fence of hedge plants will add worlds to your yard. Don't have to paint or repair this kind of a fence and it's cheap to begin with, too! Where else could you buy 100 feet of fence for as low as \$1.79? (50 Russian Mulberry 2 ft. apart.) Hedges are ideal for outlining your property, for privacy and for screening in the yard or screening out unsightly views. If hedge is to be trimmed, cut back close to ground when planting. Plant same depth as were growing before. Untrimmed types like Spirea and Barberry, remove about one-half of tops. Keep the bottom of your trimmed hedges a little broader than the top.

### SPIREA VAN HOUTTE

(BRIDAL WREATH)

*The Beautiful Untrimmed Tall Hedge*

AN387—A perfect border for the back yard. The ideal plant for an informal untrimmed hedge with beautiful white flowers in spring, loading down the plants with attractive arching branches with lovely foliage all summer. Set 2 1/2 ft. apart. Can be trimmed if desired.

1 to 1 1/2 ft., 12 for \$1.56; 25 for \$3.19; 50 for \$5.89; 100 for \$10.98, postpaid.

1 1/2 to 2 ft., 12 for \$2.46; 25 for \$4.89; 50 for \$9.25; 100 for \$17.50, postpaid.

### BARBERRY HEDGING

*Low Growing*

AN380—GREEN BARBERRY—(Green in summer—red in fall). The perfect medium-growing plant for a super-hardy hedge which looks good either entirely untrimmed or trimmed neatly like a Boxwood hedge. Grows only about 2 1/2 ft. tall and requires no care. Small dainty green leaves turning to brilliant scarlet in fall. Shiny red berries make the plants showy in winter. Set 18 inches apart. Grows about 2 to 3 ft. tall.

9-12 in., 12 for \$1.59; 25 for \$2.98; 50 for \$5.25; 100 for \$9.75, postpaid. 12-18 in., 12 for \$2.19; 25 for \$4.25; 50 for \$7.75; 100 for \$14.98, postpaid. 18-24 in., 12 for \$2.69; 25 for \$5.25; 50 for \$9.98; 100 for \$19.49, postpaid.

### AMoor RIVER PRIVET

*For Trimmed Hedge*

AN385—Hardest, neatest, most attractive for trimmed hedges. Dark, glossy green foliage that stays late into winter. Early white flowers followed by jet black berries. Set 9 to 12 inches apart. Can be kept trimmed any height from 1 to 6 feet. A perfect frame for your yard.

9-12 in., 12 for \$1.29; 25 for \$2.10; 50 for \$3.50; 100 for \$5.98, postpaid. 12-18 in., 12 for \$1.68; 25 for \$2.78; 50 for \$5.25; 100 for \$9.98, postpaid. 18-24 in., 12 for \$2.19; 25 for \$4.10; 50 for \$7.50; 100 for \$13.95, postpaid.

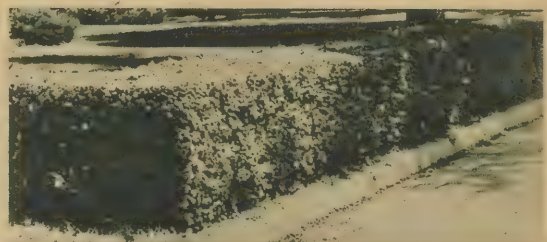

### CHINESE ELM

*The Quick-Growing Hedge*

AN381—Lots of folks don't know it, but Chinese Elms make a most beautiful, quick growing, inexpensive hedge. They leaf out early, have small attractive leaves and grow very dense when trimmed. Can be kept any height you wish from 1 ft. to 10 ft. Here's the ideal size for hedging. Set 12 inches apart.

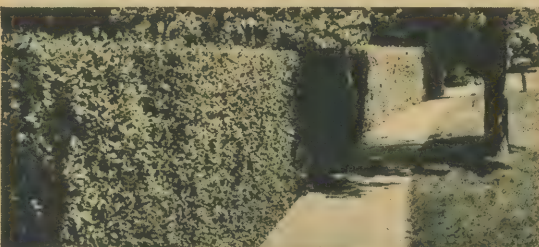

12-18 in., 12 for 55c; 25 for 85c; 50 for \$1.49; 100 for \$2.49, postpaid. 18-24 in., 12 for 70c; 25 for \$1.19; 50 for \$2.10; 100 for \$3.79, postpaid.

### RUSSIAN MULBERRY

*Fine for Clipped Hedge*

AN386—With this variety you can go a long ways with hedging at a very low cost. Darker color than Privet. Makes a pretty dark green, quick growing hedge. Can also be trimmed any height desired. Set 2 ft. apart. 12-18 in., 12 for 55c; 25 for 98c; 50 for \$1.79, 100 for \$3.19, postpaid.

### TATARIAN HONEYSUCKLE

*The Tall Hedge for Screens and Backgrounds. Also can be trimmed like a Tall Privet Hedge.*

Best for very tall quick growing screen or hedge. Attractive flowers in early spring followed by shiny red berries. Foliage soft, light green, and leaves appear before any other shrub in spring. Set 3 ft. apart. Choice —AN382 (pink) or AN383 (white).

1 to 1 1/2 ft., 12 for \$1.89; 25 for \$3.59; 50 for \$6.75; 100 for \$12.98, postpaid.

### CARAGANA

*The Drought Lover*

AN384—(Siberian Pea Tree). One of the hardest of all hedges—drought, hot winds or grasshoppers can't stop this plant. Pea-green color. Locust-like leaves. Compact grower making a tight hedge, can be trimmed to any height from 1 ft. to 10 ft. or higher. You folks in the dry countries ought to pick this one.

12-18 in., 25 for \$1.79; 50 for \$3.39; 100 for \$6.50, postpaid. 18-24 in., 25 for \$2.69; 50 for \$4.89; 100 for \$9.25, postpaid.

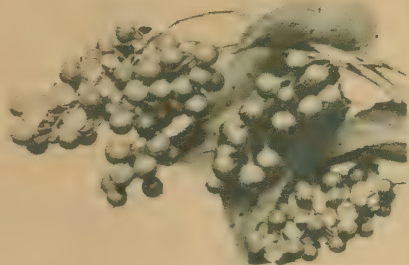

# Dress Up Your Home With HARDY VINES

Our vines are all extra heavy, well rooted, ready to give quick results. With just a small investment in vines, you can add hundreds of dollars in beauty and value to your home. Vines do many jobs. Grow them for shade—for beauty—for holding soil and to hide unsightly views.

## HOW TO PLANT

To plant for a trellis or fence planting, set about 7-feet apart, and when planting around the foundation, set them out from the foundation about 18 inches. Spread the roots out well when planting and firm the soil down around the plants and soak thoroughly if possible.

### BITTERSWEET VINE With the Bright Berries

AN800—This true red berry Bittersweet which is so beautiful in the fall. Foliage is a very attractive glossy green and covered with fiery, orange-red berries. Plant two of these together for pollination if possible. Select vines, 39c each; 2 for 69c, pp.

### PURPLE WISTERIA

My Stock Sure to Bloom

AN813—Sure to bloom because it's grown from blooming plants. Don't buy cheap seedlings that may not bloom. A magnificent vine, becoming more beautiful each year and lasting for generations. The flowers are fragrant and come in big purple clusters shaped like grapes with long, narrow, attractive foliage. Far superior to washed-out lavender color of common Wisteria. Come in clusters in May-June, a perfect bower of beauty.

49c each; 2 for 89c, postpaid.

### SILVER LACE VINE ↑ The Rapid Grower

AN814—Grows like a race horse travels—25 to 30 ft. the first summer. Prettiest white flowers just literally cover the entire vine from the ground to the tips. Quite new, but a leader everywhere.

Select: 55c each; 2 for 98c, pp.

### Special Vine Collection

3 of my finest, most popular vines. 1 Silver Lace Vine, 1 Purple Wisteria and 1 Bittersweet Vine.

AN831X **\$129**  
All for.....  
POSTPAID

### TRUMPET VINE

AN815—Great big striking orange scarlet flowers make this a prized vine. Super hardy and a rank heavy grower. One of the old favorites that will be popular forever because of its gorgeous, honey filled blooms. Improved strain.

Select vines, 39c each; 2 for 69c, postpaid.

### The Three Best Ivies

#### BOSTON IVY

AN810—Clings tightly to brick or stone without support. Small leaves very close together, of dark green, makes this a real vine for your walls. Select vines, 49c each; 2 for 89c, postpaid.

AN834X—Special wall covering Boston Ivy Bargain. Plant 8 to 10 feet apart. 3 for \$1.49; 10 for \$2.79, postpaid.

#### ENGLEMANN'S IVY

AN811—Also clings to rough walls and is extra hardy. Never injured by coldest winter. Grows fast and soon covers an entire wall.

Select vines 39c each; 2 for 69c, pp.

#### AMERICAN IVY

AN809—A fast grower, with dense green foliage that turns to vivid colors in the fall. If you want shade in a hurry plant this vine. Select vines, 39c each; 2 for 69c, postpaid.

#### Perennial

### ← MOONFLOWER VINE

AN812—At last—a moonflower that is hardy and comes year after year. Like Scarlet O'Hara, only with large white flowers and PERMANENT. Covers a trellis in a year and is there forever. Opens at noon into immense pure white flowers. Foliage—rich, dark green. Has one big bulbous root. Does not spread. Just keeps getting bigger.

34c EACH; 3 for 89c, postpaid.

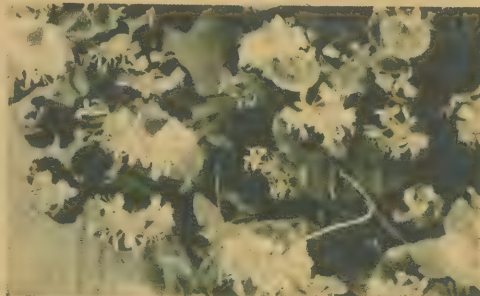

## Hardy HONEYSUCKLE Vines

There is no vine more hardy and satisfactory than the Honeysuckles. Here is a selection that beats anything. Know you'll want a few.

### HONEYSUCKLE

#### Very Hardy and Fragrant

AN808—(Hall's). Beautiful and yet the hardiest of all vines. This plant is covered with masses of fragrant white and yellow flowers from late spring throughout the entire summer. The foliage is extremely shiny and glossy. Excellent, too, to use to stop washes, or for places where grass won't grow. Will grow anywhere and cover anything—outbuildings, tree stumps, north porches and great for stopping steep banks from washing. Select vines, 39c each; 2 for 69c, postpaid.

HALL'S HONEYSUCKLE

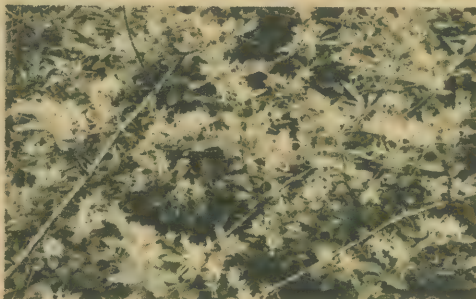

#### HONEYSUCKLE VINE COLLECTION

AN832X—The healthiest, hardiest vines that grow. 1 Hall's, 1 Scarlet Trumpet and 1 of my own Golden Sun. All for \$1.59, postpaid.

### HENRY'S HARDY "GOLDEN SUN"

AN805—Here's a brand new vine that's perfect. Found this vine growing in the Ozarks, brought it to Shenandoah and it's as hardy here as all the other Honeysuckles. Most fragrant of all.

Foliage big, round, glossy green way into winter. Fast growing. A mass of golden trumpet flowers coming from out of the center of the leaves in June and July. Be sure to plant this rare vine. Don't know anybody else listing it. (Only a few available. Propagation rights reserved.) 98c each, postpaid.

NEW "PINK FLAME"

### SCARLET TRUMPET HONEYSUCKLE

AN807—Valued for both its foliage and flowers. The plant is covered practically the entire summer with orange-red trumpet shaped flowers which are very showy. The foliage is a glossy shiny green, and a semi-evergreen. This vine will grow any place, even up big trees, and it is ideal for using over the porch, particularly if in a somewhat shaded location. Select vines, 39c each; 2 for 69c, postpaid.

### Gorgeous "PINK FLAME" HONEYSUCKLE

AN806—We're proud of this introduction of Mrs. Fisher's new favorite. This new Honeysuckle is a mass of color from early summer to killing frost with its long flowers (tube shaped), a flame of rich pink on the outside and bright yellow inside that simply cover the plant. Delightfully fragrant. Foliage almost evergreen. Extremely hardy—will grow anywhere and not bothered by cold or heat. Supply limited. Price: Ex. Select vines, 79c each; 2 for \$1.39, postpaid. Propagation Rights Reserved

## The Lovely CLEMATIS VINES

When planted around a house, large flowered Clematis always do best on the east side.

### FINEST DOUBLE WHITE CLEMATIS

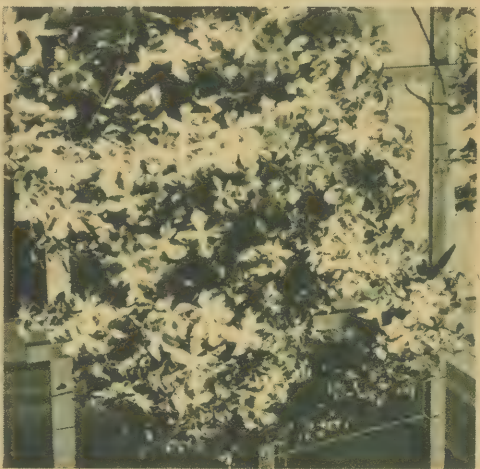

AN804—Great double pure white blossoms like large water lilies. One of the finest of the large flowered Clematis. Plant with the purple or red varieties for a beautiful effect. If your soil is inclined to be at all acid, or sour, work in a little lime before planting any Clematis. If it starts properly this vine will bloom the first year. In most catalogs this plant is priced at \$1.00.

PRICE: 89c each; 2 for \$1.69, postpaid.

#### Red, White and Blue Clematis Collection

AN833X—1 each Mammoth Red, Double White and Jackmani—a \$2.37 value.

ALL FOR \$1.98, postpaid

MAMMOTH RED CLEMATIS

### RED CLEMATIS

AN803—Rare, new, large flowering variety of Clematis—the same type as Jackmani except rich red flowers. Flowers often 4 to 6 inches across. Blooms over a long period and extremely beautiful. By all means, plant one with your purple Clematis. Price: Select vines, 74c each; 2 for \$1.39, postpaid.

### The Purple CLEMATIS JACKMANI

• Now Only 74c

AN802—Immense, velvety purple flowers in late spring cover this vine entirely. The most sure blooming of all the vines, and blooms are extremely large. Grows rapidly, and blooms right away. Select vines, 74c each; 2 for \$1.39, postpaid.

CLEMATIS JACKMANI

### Special Clematis Bargain

AN830X—1 Rich Purple—large flowering, 1 Mammoth Red—large flowering.

A \$1.48 value, \$1.29, postpaid

### CLEMATIS PANICULATA

The Fragrant Fall-Blooming Clematis

AN801—First time I've had any of this popular Clematis to sell since before the war. The seed comes from over in Asia, so I just had to take the plant out of my catalog 'til we got the Japs taken care of. This vine is a mass of dainty white blooms all through the late summer and fall. The blossoms are delightfully fragrant, the foliage is dense and healthy. Plant one by the kitchen door where it will scent up the entire house. 69c each; 2 for \$1.29, postpaid.

## TUBEROUS ROOTED BEGONIAS

## "Something New Under the Sun" Henry Field's Amazing New Patented FUZZLESS PEACH

# "FUZZLESS-BERTA"

Plant Patent No. 479—Owned by Henry Field  
**ABSOLUTELY FUZZLESS !!**

At last what horticulturists have been trying to do for years has been accomplished—a top quality peach ABSOLUTELY WITHOUT FUZZ. It was so revolutionary in the horticultural world, a plant patent was issued and this Plant Patent (No. 479) is now owned solely by Henry Field.

**FRUIT QUALITY ABSOLUTELY PERFECT**—Carrying blood of Elberta, J. H. Hale and other fine peaches, it has the fine qualities of all, and even surpasses them in flavor. Not only is it large in size (often 3½ in. in diameter) but it is of fine texture, very sweet, regular and round, and a good shipper. Small freestone pit, leaves an exceptional percentage of high quality fruit.

**ONE OF HARDEST PEACHES GROWN**—In past winters when many peach varieties were killed by heavy freezes, "FUZZLESS-BERTA" not only lived, but demonstrated its vigor by producing fruit on a ONE YEAR OLD TREE. This means, by planting this miraculous new tree, you will not only have a peach that will live through extremely severe winters (usually hard for peaches) but one that will come into bearing early and give you fruit AT ONCE!

**2 WEEKS EARLIER THAN ELBERTA**—Though "FUZZLESS-BERTA" has the size of Elberta and even finer eating quality (besides its fuzzless skin) it COMES INTO BEARING TWO WEEKS EARLIER THAN ELBERTA, extending harvest season.

### ONLY LIMITED SUPPLY OF TREES AVAILABLE

If stock runs out before the season is completed, we will book your order for first shipment the following spring.

## The Famous Red Radiance Family

## THE WORLD'S MOST BEAUTIFUL ROSES HYBRID-TEA EVERBLOOMERS GIANT 2 YEAR PLANTS—ALL WILL BLOOM 1ST YEAR

### RED RADIANCE

The Hardest Red—Free Bloomer

AN401—The "fool proof" red rose. Noted for hardiness, and free blooming qualities. Flowers large red full double. Will grow and produce hundreds of blooms in poor soil, with little care. Never seems to rest, but blooms constantly from spring to frost. Radiance roses bloom best of all varieties the first year they're planted, so if you want plenty of bouquets this year plant Radiance.

### PINK RADIANCE

The Drought Resistant Pink

AN400—Best to bloom, best to resist heat, drought and disease of all the pink roses. Flowers big, full, brilliant rose-pink. Loaded down with blooms all summer long. A new Radiance color. Soft salmon pink, somewhat lighter than Pink Radiance. Has all the Radiance quality, hardy, free blooming, disease resistant.

### WHITE RADIANCE

The Hardest White

AN402—Clear purest white—long pointed buds and big full flowers. Very free blooming and hardy.

### HENRY'S ROSE BARGAIN

My biggest rose bargain of this year. 1—Ami Quinard, 1—Editor McFarland, 1—K. A. Victoria, 1—Red Radiance. AN492X—All 4 for \$2.79, postpaid.

**\$2.79**

### MY FAMOUS RADIANCE ROSE COLLECTION

OF ALL the everblooming Roses, there is no doubt the radiance group is best of all—so free blooming, so large, so fragrant, so beautiful. You get in the collection one of each color. AN493X—1 Red Radiance, 1 Pink Radiance, 1 White Radiance, all 3, \$2.19, postpaid.

### HOW TO PLANT ROSES

Set in good garden soil, 18 inches apart. Set fairly deep (about 2 inches below dirt line on plant) prune back to 4 to 5 inches—cover the top with earth until they get a chance to start swelling buds, then carefully remove dirt and they're ready to go. (Hybrid Teas are monthly blooming roses.)

GOLDEN SALMON

AN442—CATHERINE ZIEMET. An indispensable rose for the garden or perennial border. Always covered with its dainty little double white roses and fine cut foliage. AN450—"THE SWEETHEART ROSE"—(Cecil Brunner). Small, exquisitely formed bud and flowers of light pink with a yellow base. Blooms all summer. Fine for massing and the rose garden. The most graceful, delicate rose in the whole list.

AN444—GOLDEN SALMON. A vivid salmon colored, heavy blooming variety. Blooms all summer steadily and continues 'til ground is almost frozen. AN445—IDEAL. The deep black-red baby climber. Blooms so profusely it hides the leaves. Fine for filling stations, beds and cemeteries.

### NEW FLORIBUNDA BABY ROSES

(Dwarf Baby Roses with Hybrid Tea Blooms)

These are the Dwarf Baby Roses with perfect formed buds and flowers like the Hybrid Teas. Their double blooms simply load the bush and they bloom all summer. Fast are becoming our most popular roses. Dwarf in habit, clean and healthy. Ideal for mass plantings and borders.

AN447—GRUSS AN AACHEN. Flowers more like tea roses with dainty pointed buds on individual stems. The creamy-pink flowers cover the bush from spring 'til heavy frosts. Plants well foliaged. Choicest of all.

AN449—PINK LAFAYETTE. Just like red in habit of growth with perfect pointed pink buds and flowers.

AN440—MISS EDITH CAVELL. Red, semi-double scarlet-red blooms shaded darker. This rose makes a very strong bushy plant loaded with flowers all summer.

### SHRUB ROSES

Half-shrub, half rose. Rose blooms on shrubs with shiny green foliage. Ideal for landscaping.

GROOTENDORST—Everblooming shrub rose, covered with clusters of double carmine-like blooms from June to November. Foliage, rich green. Grows 3 to 4 ft. tall. AN481—PINK GROOTENDORST. Beautiful, everblooming pure pink.

AN480—RED GROOTENDORST. Brilliant growing red all summer.

AN482—HUGONIE (Golden Rose of China). Beautiful finely cut foliage and myriads of bright yellow saucer-like flowers. Hardy and fine in every way.

### HYBRID PERPETUAL ROSES

Super-arctic hardy. Grow any place. Loaded with big double blooms in June and some varieties bloom all summer. Winter hardy as a polar bear. Plant 2 1/2 ft. apart.

AN483—F. K. DRESCHKE. The perfect white rose, loaded in June and again in September.

AN484—AMERICAN BEAUTY. Rose of romance. Large fragrant deep pink. No other rose will ever be better known or liked.

AN485—GEN. JACK (JACQUEMINOT). Deep glowing red. An old favorite still popular. Each branch just weighted down with flowers.

AN486—PAUL NEYRON. Largest of all rose blossoms; sometimes as large as bread and butter plates. Pink.

### AMI QUINARD

Largest Red Rose Grown  
AN406—My largest flowering red rose. Immense rich velvety, very dark red, long lasting flowers that hold their color till petals fall. A fragrance as rich as the dark red color makes this a rose everyone should have. Very hardy.

### BRIARCLIFF

AN417—Extra hardy. Upper side of petals light pink. Has the most perfect tea rose shaped buds of any rose. Buds perfect and blooms no matter how hot. I believe this will always be one of the most popular roses I sell.

### POINSETTIA

AN423—Probably the most brilliant rose I have. A gleaming Poinsettia red, beautifully shaped buds and flower. Long stems fine for cutting. I'm going to state that you can fill your garden with 2,000x3,000 roses and plant some of my Poinsettia in it and my rose will beat them all.

### CALEDONIA

Always Stays Pure White  
AN418—A large double white, full high centered and a vigorous healthy variety. Stays pure white till the last petals drop. Doesn't blast like so many whites. If you can only have one white in your garden, make it Caledonia.

### E. G. HILL

The Disease-Free Fragrant Red  
AN405—Big full deep crimson flowers that actually grow deeper in color as the petals open. Holds its shape and color days and days in the garden or when cut. Most fragrant of all my red roses. Disease free, free blooming, super hardy. One of the most all-around roses.

### EDEL

Best White for Cutting  
AN420—A very fragrant big double white flower with ivory shading at the base. Buds long and pointed, with extremely long sturdy stems. A choice white for cutting. Loved by all.

### ROSLYN

The Vigorous Yellow  
AN431—Buds sunflower yellow to old rose. Flower a beautiful lemon yellow. A good grower and very hardy. Not as subject to fading as some yellow roses. Ideal for our hot climate.

### ETOILE DE HOLLAND

Ideal Red for Cutting  
AN407—Fiery crimson, long pointed buds, which open to full petaled flowers of striking brilliance, will make this variety the high spot of color in your rose bed. Stems long and stiff, and a delightful fragrance make this an ideal rose for cutting. Everyone loves this rose.

### EDITOR McFARLAND

Always Has Most Blooms  
AN415—A new and better big double glowing-pink rose. The compact bushes are loaded with blooms the whole summer through. Of hundreds of new roses I've tried, this was the most outstanding pink and it is making a famous name among garden club experts who pronounce it the perfect pink.

### EDITH NELLIE PERKINS

Easy Grown—2-Color Rose  
AN413—Flowers big and full—outside orange, inside salmon flushed with pure gold. Buds long and pointed. A strong healthy grower and like all two-toned roses, it will be one of the most admired roses in your garden.

### K. A. VICTORIA

This White Blooms Continually  
AN410—This is the favorite and the best white rose for the middlewest. Buds and flowers glistening, snowy white. Foliage exceptionally shiny and clean. Superhardy and seems to bloom and bloom much longer than other hybrid teas. Exceptionally satisfactory.

### HENRIETTA

My Yellow That Doesn't Fade  
AN414—Sold only by Henry Field. Introduced because I wanted a perfect yellow rose for you. Pure yellow that doesn't fade, buds long and pointed, stems long and stiff, hardy, always in bloom and sturdy growing. Named for my granddaughter, Henrietta, whom I picture so much in Seed Sense.

### GRUSS AN TEPLITZ

More Blooms Than Any Other Rose  
AN404—The hardest and most free blooming of all roses. Good glossy foliage. Blooms entirely cover the plant from one side to the other. Flowers not extra large but there are so many of them every day that this rose will live up your rose bed more than any other. Fine where other roses have trouble growing at schools, cemeteries and filling stations, and other difficult places.

### PRESIDENT HOOVER

Has the Long Pointed Buds  
AN409—Glorious cerise, shaded with yellow, orange and scarlet. Buds long, pointed and perfectly shaped. Dozens of buds will be on the plant at one time so you can pick gorgeous bouquets whenever you want them. Another perfect rose for cutting because of its long stem.

### BETTY UPRICHARD

AN416—Flame pink, with tones coral and gold. A striking vivid rose that you will rave about. I had some of these in our trial grounds last year and think this color was talked about more than any others there.

### GOLDEN CHARM

AN421—Brilliant orange turning to burnished gold as it ages. Hot weather won't hurt it and it seems to be able to keep its shimmering color despite hot sun. Plant lots of these for cut flowers.

### LADY HILLINGTON

The Apricot Yellow  
AN411—A beautiful apricot yellow. Very free blooming. Buds long and pointed. Very hardy and easy to grow. If you want a different and exquisitely beautiful shade in roses, plant Lady Hillington.

### MARGARET McGREY

The Free-Blooming Red  
AN412—A vivid scarlet with a touch of orange. Buds perfect for cutting with extra long stems. Compact growing bush with clean shiny foliage. Sure to bloom freely and heavily even if given only the minimum of care.

### GOLDEN OPHELIA

AN422—Long pointed buds of sunflower yellow. Many people like this best of all the yellow roses for cutting. I don't think any garden in the middle west should be without it, if they want a real "show-off" rose.

### TALISMAN

The Famous Easy-to-Grow Greenhouse Style Rose  
AN408—Think of gold, rich scarlet, yellow and orange, all blended in one flower. Buds are like greenhouse roses and stems so long. No rose garden is complete without this rose. Be sure and include one Talisman in your order this year.

### FIELD'S GIANT

AN403—Absolutely the most gigantic rose I've ever seen and perfect in its beauty despite its huge size. Very vigorous—in fact one of the hardest roses I know for standing cold and heat both. Our own introduction and offered only by Henry Field this year. Propagation rights reserved. Limited stock. PRICE: \$1.09; 2 for \$1.98, pp.

BAN-4—The graceful lily with large pure white flowers, tinged lightly with lilac on the outside and yellow on the inside. 10 or more blooms per stem. Plant 8 to 10 inches deep. 29c each; 3 for 75c; 5 for \$1.19, pp.

**CORAL LILY**

"The Most Brilliant"

BAN-3—(Tenufollum). Narrow leaved, slender growing lily from Siberia. Many deep scarlet waxen, recurved flowers on each plant. Grows in poorest locations. Plant 4 to 6 inches deep. 29c ea.; 3 for 75c; 5 for \$1.19, postpaid.

## HENRY FIELD'S LOVELY LILIES

All my bulbs are treated against disease and rot. Plant only treated bulbs. Remember, too, there are all kinds and sizes in Lilies. Mine are big giant size, all ready to bloom next year. Satisfaction absolutely guaranteed. Plant deeper in light soil, shallow in heavy soil.

**BARGAIN REGAL LILY COLLECTION—BAN-73X—**Everyone loves the Regal lilies and wants to plant a lot of them. Here's a special offer of a dozen bulbs, not the huge bulbs listed above, but good size smaller bulbs which will bloom this summer. 10 Regal Special Bulbs for \$1.98 postpaid.

**MORNING STAR LILY**

"Showy Little Lily from China"

BAN-10—Very scarce. Few will offer this Lily this year. Gorgeous star flowered brilliant. Crimson Lily. Grows about 18 in. tall. Bulbs are small and should be planted about 3 in. deep. Grand in the rock garden. I sort of favor red flowers anyway so I particularly like this plant. 49c each; 2 for 89c; 5 for \$1.98, pp. Bulbs are very small.

**SUNSET LILY**

"Beautiful as Setting Sun"

BAN-8—12 to 20 brilliant orange blooms at a time with curved petals spotted with crimson. Good for shade. Set 5 inches deep. Not like a Tiger Lily. 55c each; 2 for 98c; 5 for \$2.39, postpaid.

# SEEDLING TREES for WINDBREAKS

SPECIAL QUANTITY PRICES ON  
SEEDLING TREES

## How to Plant Windbreak

Plant, if possible, 100 to 150 feet away from the house for best results. Plow a deep furrow where trees are to go and tamp seedlings in

furrow carefully. Haul some water to the trees, if you can.

Trees should be 6 to 8 feet apart in rows 8 to 10 feet apart for best results. Plant in staggered (zig-zag) fashion for best protection.

America's Most Popular Shade Tree

# CHINESE ELM

Genuine

Siberian Strain!!!

Every bit of my seed for these Chinese Elms originally came from Siberia, where only the HARDEST of trees can survive. (Stand temperatures of 30° below.) Don't be fooled with common Chinese ELM. Plant the GENUINE HARDY SIBERIAN CHINESE ELM you get from FIELD'S.

These Trees Are  
DROUGHT RESISTANT!

Drive where you like—the one tree that will grow and grow is the Chinese Elm. Drought doesn't hurt them. Poor soil doesn't hurt them and extreme temperatures only seem to make them thrive.

This is the  
FAST GROWING STRAIN

This is the strain of Chinese Elm that grows from 8 to 10 FEET PER YEAR. Plant this year and next year you have a windbreak or shade tree ½ grown. What's more—you'll have the shade or windbreak the rest of your life. Chinese Elm are LONG LIVED—some trees still exist over 200 years old.

Giant ROOTED Trees CAREFULLY  
GROWN, DUG AND PACKED

I'm proud of my Chinese Elm and take care of them. The trees you get from me will be carefully grown, carefully dug with a large root system and carefully packed against breakage. You'll be pleased 100%. Last year over 2,000 people voluntarily wrote to thank me for the fine Chinese Elms I sent them.

TWO WINDBREAK BARGAINS

200 CHINESE ELM \$3.19

AN782X—Here is a special deal in little 9 to 12 in. Chinese Elm. They grow fast and I have a lot of them. Just stick a spade in the ground, plant one at each side of the spade out. Tramp them in well and if both grow after they get 2 ft. high either chop one out, which you can well afford to do at my price in this bargain, or transplant one to another location. This is a mighty cheap way to get a good section of a windbreak started. I am going to make a special offer of 200 9 to 12 in. Chinese Elm seedlings for \$3.19, postpaid. This is only a little over 1½¢ per plant.

40 CHINESE ELM \$1.39

AN783X—For those who want a little larger plants, I have a lot of nice 18 to 24 in. Chinese Elm seedlings growing here in Shenandoah and they are all for sale. Chinese Elm is a tree of many uses, and I think you all should have some so I am going to offer you 40 select 18 to 24 in. Chinese Elm, postpaid right to your door for only \$1.39.

CATALPA BUNGEI  
(Umbrella Tree)

AN706—Grows naturally into a compact, round headed ornamental tree. Fine where a small ornamental tree is needed in limited spaces, for parkings, and grand at each side of a garden seat. Plant 10 ft. apart. 4 to 5 ft. size \$1.79 each; 2 for \$3.25.

from blooming wood—sure to bloom. Grown in umbrella shape and by slight trimming can be kept this way or branches may be allowed to trail to the ground. Something new and different. Listed as high as \$5.00 each in some catalogs. 1 size only. 4 to 5 ft., \$2.49 each; 2 for \$4.49.

WHITE BIRCH

AN728—WHITE BIRCH. Not the Weeping variety, but the fine upright white barked variety whose leaves turn a brilliant golden yellow in the fall. Remember young white birches have dark brown bark. May not turn a good white for 2 years. 5 to 6 ft., \$1.75 each; 2 for \$3.29, express not prepaid.

CUTLEAF WEEPING BIRCH

AN736—White bark with graceful weeping branches makes this one of the most beautiful and graceful of all. Leaves finely cut, a beautiful shade of green. Beautiful in spot by itself. 4 to 6 ft. trees, \$2.45 ea., not ppd.

All things considered, the Maple is the most beautiful and most satisfactory of all shade trees.—H. F.

## THE MAPLES--Best of All HARD SUGAR MAPLE

### Most Perfect Shaped Tree

AN709—Compact and dense. Leaves large, turning to brightest colors in the fall. Slow to grow but lives forever. Plant 35 ft. apart. 5 to 6 ft. size, \$1.79 each; 2 for \$3.45. 6 to 8 ft. size, \$2.49 each; 2 for \$4.69.

## PURPLE LEAF MAPLE

### Schwedler's Maple

AN720—Perfect in shape with brilliant foliage both spring and fall. Another live-forever tree. Plant 35 ft. apart. 5 to 6 ft., \$2.25 each; 2 for \$4.19.

## SILVER (Soft) MAPLE

### Fast Grower

AN725—Grows any place and in a big hurry. Foliage light green on top with silver on lower side. Beautiful when wind plays on it. Plant 30 ft. apart. 4 to 5 ft. size, 98c each; 2 for \$1.79. 5 to 6 ft. size, \$1.25; 2 for \$2.29.

## NEW! SILVERLEAFED LOMBARDY POPLAR

### Long-Lived Silver Pyramidal

AN703—(Bolleana type). We are now able to offer you a new type of pyramidal poplar with delightful silvery grey bark, with leaves which are green on the top, and silvery white underneath. When the wind plays on this tree, it is a beautiful sight indeed. Grows just like Lombardies in its live-forever habit. It will live much longer than most pyramidal trees of this type, extremely hardy in all kinds of weather, fast growing. Used for borders across the back of the lot, set about 6 feet apart, or in groups of three in the corners of the lot for accent. The supply of these trees is very limited. Price: 3 to 4 ft. trees 59c each; 3 for \$1.49, shipped postpaid. 4 to 5 ft., 69c each; 3 for \$1.89, express not prepaid. 5 to 6 ft., 79c each; 3 for \$2.10, express not prepaid.

## RED FLOWERING PEACH

AN721—At last we are able to secure for you a Flowering Tree for your lawn that will be more beautiful than any tree you have ever seen. It is actually more showy than the Flowering Cherries which are so raved about in Washington. Immense, rich red double flowers cover the plant the same time peaches bloom. Sometimes the trees will set fruit. They can be planted any place peaches will grow. Grows rapidly and oftentimes blooms the first year. It would be ideal to plant in a shrubby border for height, or makes a most beautiful specimen on the lawn. I saw a big one in full bloom last spring in Nebraska City, Neb. Had been growing there a long time.

3-4 ft., 98c each; 2 for \$1.89, postpaid.

## RUSSIAN MULBERRY

### Nice Shape—Attracts Birds

AN723—The one with rich purple fruits. A fast grower and a pretty shade tree. Plant one with cherries—the birds will leave cherries alone. Plant 25 ft. apart. 4-5 ft. size, 59c each; 2 for 89c.

## MOUNTAIN ASH

### Red Berried

AN715—This is one of the most ornamental trees you can possibly plant. The foliage is a beautiful green. Light, smooth bark, a broad head very compact, with gorgeous creamy white blossoms in the spring, followed by the many, many clusters of scarlet and carmine berries in the late summer and fall. It grows very rapidly.

5 to 6 ft., \$1.59 each; 2 for \$2.98.

## LINDEN

### The Basswood Tree

AN701—Most formal compact growing tree. Beautiful and hardy with round compact top, large heart-shaped leaves that give dense shade. Wonderfully fragrant flowers. It is a rapid grower and a very desirable tree for street or yard planting. Plant a few for variety. 4 to 5 ft., \$1.29 ea.; 2 for \$2.20. 5 to 6 ft., \$1.59 ea.; 2 for \$2.98; 6 to 8 ft., \$1.98 ea.; 2 for \$3.79.

They swell to immense size and then turn yellow when they bloom. Stands wet ground or dry. Easy to grow. Plant 10 ft. apart. 59c each; 2 for \$1.00, postpaid.

## AMERICAN ELM

### The Most Loved of All Trees

AN700—For majestic beauty you can't beat it. Hardy as a pioneer. Long-lived and disease-resistant. America's favorite street tree. Plant 30 to 35 ft. apart. Best of all for shade. Perfect for windbreak or grove.

## THE COTTONLESS

## COTTONWOOD

### Carolina Poplar

AN705—So many folks know the beauty, the fast growth, and good shade of the Cottonwood, yet hesitate to plant this grand old tree because of the nuisance of the cotton. While this Carolina Poplar has all the good qualities of the Cottonwood, it does not have cotton on it. Leaves are big, shiny, and glossy. Make dense shade in a hurry. Plant 20 to 25 feet apart.

## RUSSIAN OLIVE

### The Silver Grey Tree

AN724—A distinctive tree because of the silver-grey fine foliage. Also, has small olives which add to the novelty and unusualness of this tree. Can be used for a tall shrub if desired. Likes sandy, poor land and will stand wind and drought. Plant 15 ft. apart.

4 to 5 ft. size, 98c each; 2 for \$1.79.

## RED BUD

### (The Judas Tree)

### Loaded with Blooms—First in Spring

AN722—A sight in the very early spring with the leafless branches packed tight with rosy red blooms. Leaves big heart-shaped and dark green. Don't grow so big, so plant where you want a pretty shade tree, but don't have lots of room. Plant 15 ft. apart.

2 to 3 ft. size, 59c each; 2 for \$1.00, pp. 3 to 4 ft. size, 79c each; 2 for \$1.39, pp.

## ABOUT SHIPPING TREES

Most Trees are too tall to be sent parcel post so I ship them express. Please note these prices are not prepaid, except where noted, but if you order \$10 worth of nursery stock, I pay the Express.

### FAMOUS DEUTZIAS

AN-518—DEUTZIA, PRIDE OF ROCHESTER. (The Tall Deutzia.) Grows 6 to 8 ft. Pure white, bell shaped flowers all up and down the upright stems in June. Extra hardy with attractive pointed light green leaves. Ex. Select plants, 39c each; 3 for 98c; 5 for \$1.49, ppd.

AN-519—DEUTZIA GRACILIS. (The Dwarf Deutzia.) 2 to 3 ft. The lowest growing type of this hardy shrub family. You can hardly see the pretty green foliage in June, because of the heavy load of lovely white blooms. Plant with Spirea Anthony Waterer for low groups. Ex. Select plants, 49c ea.; 3 for \$1.29; 5 for \$1.98, ppd.

### Double Pink Almond The Early Spring Beauty

AN-546—This lovely shrub grows only 3 to 5 ft. tall but the upright fine branches are literally loaded in earliest spring with double rose pink blooms. The rest of season it forms a lovely green bush ideal for foundation.

Extra Select plants, 59c ea.; 3 for \$1.59; 4 for \$1.98, postpaid.

# FIELD'S FAMOUS SHRUBS

## TO BEAUTIFY YOUR HOME HOW TO PLANT SHRUBS

No need to say much. Every nursery order I send out has complete instructions easy to follow. Mostly, low growers are set 2 ft. apart, medium growers 3 ft. apart, and tall growers 4 ft. apart. Set out 18 inches from foundation.

Spread roots out well, tamp earth back solidly, and prune as indicated to make bushy growth.

### Why Field's Shrubs

#### Are Better

Got tired of telling you shrubs are 12" to 18" high or 18" to 24". You don't care about that. Good roots and branches are what you care about. You don't care a rap for a big, spindly shrub with poor roots. So here's how I grade plants.

I grade out only the largest, strongest shrubs with the largest, heaviest root systems. The smaller ones are not for sale. You get the best when you order from Henry Field.

#### All Shrubs Inspected

All my shrubs are carefully inspected, once when dug and again before they are shipped on your order. Absolute quality is insured. All bad shrubs are destroyed. All are carefully wrapped and packed in special moss to arrive in the best possible condition.

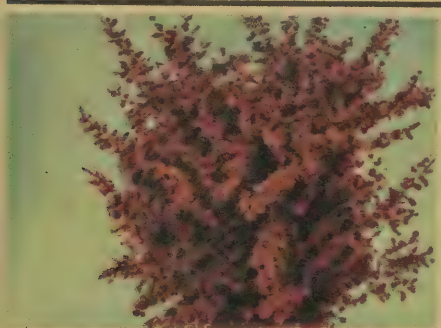

#### All My Shrubs Are Hardy

These are the world's finest, hardy shrubs. All are selected because they give color and beauty with the least effort in any kind of condition. Easy to grow. No special care needed.

**AN-591X—BUTTERFLY BUSH COLLECTION**—One each of the above 5 varieties all for \$2.49, postpaid.

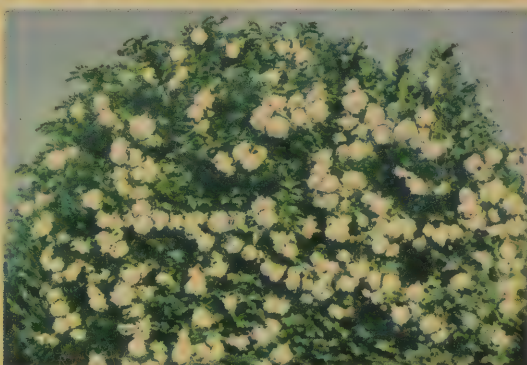

### PURPLE LEAF BUSH

#### Ideal for Color Contrast—69c Ea.

AN-547—PURPLE LEAF JAPANESE FLOWERING PLUM. (Prunus Newport.) Grows 6 to 8 feet. Rich, purple foliage all summer besides showy white blossoms in the early spring. Upright growing. Makes a fine foliage contrast.

Extra Select plants, 69c each; 3 for \$1.89; 4 for \$2.39, postpaid.

### 2 SNOWBALL BUSHES

#### 1 New Fragrant Pink—1 White

AN-555—NEW FRAGRANT PINK SNOWBALL (Viburnum Carlesii). Grows 5 to 6 ft. high. A new shrub that's truly a beauty. The old-fashioned Snowball we all loved so well now in a lovely soft shade of pink. Extra Select plants, \$1.19 each; 2 for \$2.29, postpaid.

#### GIANT WHITE SNOWBALL

AN-556—(Pictured above.) Grows 8 to 9 ft. Balls of bloom like giant Snowballs. An old favorite but very popular. Extra Select plants: 69c each; 3 for \$1.89; 4 for \$2.39, postpaid.

### SNOWBERRY

#### The Double Purpose Shrub

AN-557—SNOWBERRY. Grows 2 to 4 ft. A double purpose shrub having dainty rose colored blooms in the early spring which are followed in the late summer and fall with clusters of big white waxy berries. The berries are extremely showy, producing an effect like no other shrub. An excellent shrub for a shady location.

Extra Select plants, 39c each; 3 for 98c; 5 for \$1.49, postpaid.

### 3 Bush Honeysuckle 98c Red, Pink, White

HONEYSUCKLE BUSH FORM. Grows 6 to 8 ft. My choice of the taller growing shrubs. First to leaf out in the spring. Early bell-shaped blossoms, then plants are covered with glossy red berries. Red—AN-524; Pink—AN-523; White—AN-525.

Extra Select plants, 39c each; 3 for 98c; 5 for \$1.49, postpaid.

## SPRING AND FALL BLOOMING HYDRANGEAS

### The Giant Hydrangea P.G.—The Fall Bloomer

AN-527—(Paniculata Grandiflora)—Grows 3 to 5 ft. The shrub we all admire blooming in August and September. Blooms are huge cones of often 10 in. long coming out pure white then turning pink and then bronze. Fine for winter bouquets. Ideal for north side of house. Extra Select plants: 69c each; 3 for \$1.89; 4 for \$2.39, postpaid.

### HYDRANGEA A.G.

#### The Spring Blooming Hydrangea

AN-526—(Hills of Snow)—Grows 3 to 5 ft. Flowers are somewhat like snowballs only much larger. Blooms in June and July with loads of flowers. Leaves big, round and dark green. An ideal plant for north or east foundation planting. Extra Select plants: 79c each; 3 for \$2.19, postpaid.

## EARLY GOLDEN BELL

### Blooms Before Leaves Appear

AN-521—(FORSYTHIA). Bright golden bell-like flowers line the arching branches even before leaves appear. Spring is here when Golden Bells bloom. Foliage rich dark green all summer, turning to plum color and bronze in the fall. Very hardy. Grows 4 to 6 ft.

Extra Select plants, 39c each; 3 for 98c; 5 for \$1.49, postpaid.

## CREPE-MYRTLE

AN-516—Crepe-Myrtle, undoubtedly the most beautiful shrub in the world. Grows tall and is simply covered with giant clusters of bloom all summer. Perfectly hardy to Central Missouri. Every one south of here should plant Crepe-Myrtle. Farther north the tops die down, but if well protected will live over and bloom on new wood. Often does not show any signs of life for several months after planting.

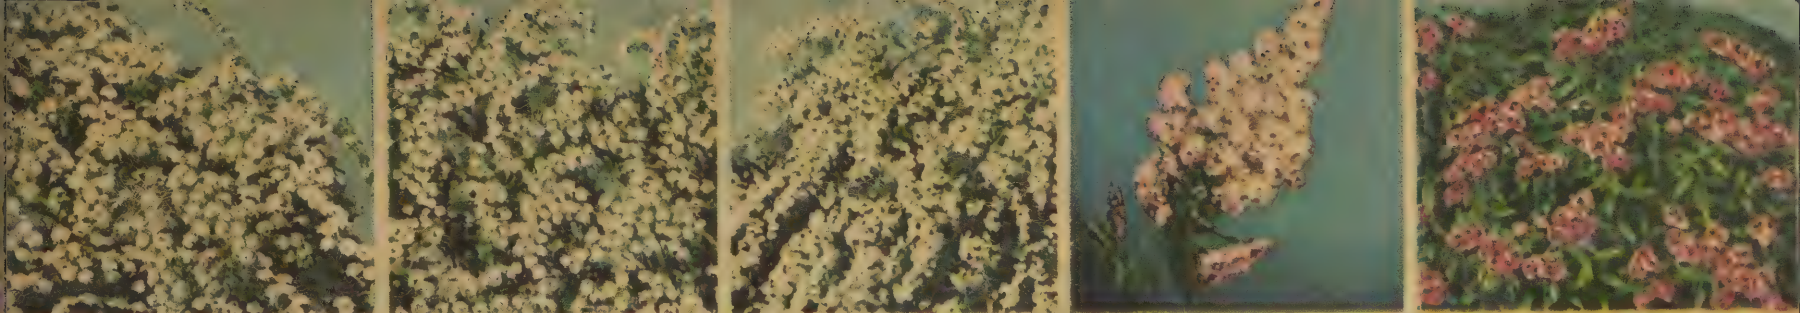

Extra Select Plants, 49c each; 3 for \$1.29; 5 for \$1.98, postpaid.

# HOW TO MAKE AND PLANT A POOL

There are many types of pools used. Barrels sawed in half and sunk into the ground are used as tub gardens. Metal stock tanks of various sizes make ideal pools. The most common and less expensive of all materials used is the common building cement. Mix 4 parts of the sand to 1 part of cement. Can be shaped into any design you might wish to make. Dig hole in the ground shape you wish and slope the sides in at the bottom. This enables you to plaster the cement on the sides without making a form to hold it. Let the first thickness harden a few hours then apply another and another until you have it the desired thickness. Then pour some cement into the bottom and smooth it making sure to have one point low for the drain.

A pipe or tile at least 2 inches in diameter should be used for a drain. The best depth for the pool is 25 inches when finished. This depth allows about 12 inches for bucket and 12 inches above for the water plants which is very essential.

After the pool is completed, cover it over with wet burlap sacks and let the cement harden for 3 days, then fill it with water and put in 10 lbs. of rock salt to each 100 gallons of water and let set for 10 days, then drain and refill with water, using 5 lbs. of rock salt to each 100 gallons of water, let stand for 5 more days and drain.

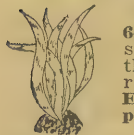

## OXYGENATING PLANTS KEEP THE WATER CLEAR AND PURE FOR INDOOR AND OUTDOOR POOLS

**HOW MANY IN POOL.** For small pool, use about 5 bunches—in medium size pool use around 8 bunches—in larger size pools around 12 bunches. Plant in small pots of sand. Scatter well over bottom of pool.

## ORNAMENTAL POOL PLANTS Outdoor Pools only

### TRAILING ARROWHEAD

6G40—Throws out long runners, vining along the pool surface with green arrow shaped leaves. (Rich soil, shallow water.) Each 40c; 3 for \$1.00, postpaid.

### WATER CLOVER

6G41—Vines freely, leaves are divided in 4 sections making the true 4 leaf clover. Leaves raise slightly above the water. Leaves are very numerous (rich soil, shallow water). Each 25c; 3 for 60c, postpaid.

### FLOATING HEART

6G42—Clusters of dainty orange colored blooms. Vines freely and blooms continual (rich soil, shallow water). Each 25c; 3 for 60c, postpaid.

### UMBRELLA PALM

6G43—Raises many beautiful palm like stems into the air and expands tiny tufted spirals into an umbrella shaped top. Very oriental in appearance. (Rich soil, shallow water.) Each 25c; 3 for 60c, postpaid.

### IRIS

6G44—Sword shaped leaves, lovely blooms. (Rich soil, shallow water.) Each 40c, postpaid.

### WATER POPPY

6G45—Very long trailing vines, blooms resemble the old fashioned Buttercup. Blooms freely all summer. (Rich soil, shallow water.) Each 25c; 3 for 60c, postpaid.

### WATER HYACINTH

6G46—Shiny green leaves, stems expanding into bulbs and on into leaves. Orchid blooms, rapid growing by runners. Ideal for fish to lay their eggs on. Will float but blooms more freely if planted (rich soil, shallow water). Each 25c; 3 for 60c; 7 for \$1.00, postpaid.

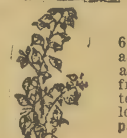

### WATER CANA

6G47—Has richly colored blooms, grows about 18 inches tall, leaves are thick and bushy. Hardy, easily kept over winter. Each 79c, postpaid.

### PARROT FEATHER

6G48—Fern-like foliage, thick vine runners, giving a very foresty effect to surface of the water. Will grow without planting but should be planted in soil mixed with half sand near the surface of water. Bunch 25c; 3 bunches 60c, postpaid.

### PRIMROSE CREEPER

6G49—Grows very rapidly, vines clear across and around the pool. Blooms are brilliant yellow and often has from 20 to 30 blossoms at once. Easy to keep over winter. (Rich soil, shallow water.) Each 25c; 3 for 60c, postpaid.

### WATER LETTUCE

6G50—Grows into large rosette of fluted velvet green leaves. No bloom but one of the most interesting of all plants because of its growing habits and unusual green color. Good for fish to spawn on and the roots make excellent fish food (floats). Each 25c; 3 for 60c, postpaid.

### WATER SNOW FLAKE

6G51—Vines freely over the entire pool, shoots up dozens of white star shaped blooms. The blooms come out very early morning. Propagates by the buds detaching from parent plant, a very interesting and pretty plant (rich soil, shallow water). Each 39c; 2 for 68c, postpaid.

# How To Plant The Aquarium

(Balanced—Unnecessary to Change the Water)

First make sure the size of your aquarium, then find a collection (below on this page) for your size. Make sure you have the amount the collection calls for, of plants, snails, clams and hi-balls.

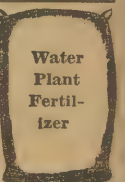

**SAND**... Place two inches of clean, common lumberyard sand, medium coarse, not too fine, in the aquarium and mound it up so the back will be some higher than the front, then fill with water. **PLANTING**... Put the plants in the sand as in above picture, make any arrangement you wish, scatter them

much as possible. Put in all the plants, snails, clams, hi-balls and one small fish. Let these grow for a week and then put in the rest of the fish. **FISH**... A good rule is to use 2 inches of fish body to each gallon of water. **LOCATION**... Place the aquarium so it will have good bright daylight but very little sunshine. **CLEANING**... Occasionally, use a small, extra clean cloth and wipe the glass on the inside, if a surplus of sediment accumulates on the bottom of the aquarium, dip it out with an aquarium dip tube or syphon it out with small rubber hose.

#### CANARY FEEDING SCHEDULE

REGULAR FOODS are seed, water, grit and cuttle bone, these should be fed every day of the year and in addition the following:

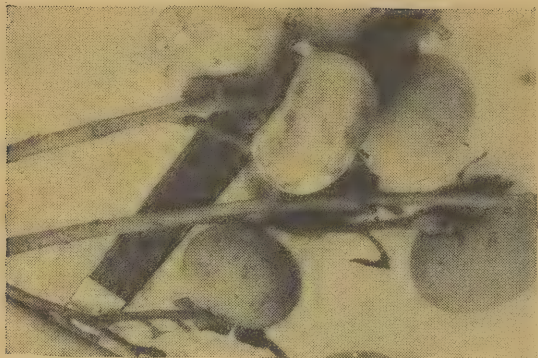

Monday 1/4 level teaspoonful of cod liver oil health food in separate treat cup.  
Tuesday Regular foods.  
Wednesday 1/2 level teaspoonful of conditioner food in treat cup.  
Thursday Regular foods.  
Friday 1/2 teaspoonful song restorer in treat cup.  
Saturday Regular foods.  
Sunday 1/2 level teaspoonful of song restorer—Or—Small amount of fresh celery leaves (leaves frost bitten are poison) Or—fresh, well washed dandelion leaves.

Maw Seed . . . can be fed twice a month on Wednesday instead of conditioner. 1/4 treat cup maw seed.

All these special foods are deliciously flavored and birds will often tease for more. At this temptation don't weaken, remember, birdie has had enough if fed as directed.

NOTICE:—Lettuce, medicated bird biscuits, apple, etc., are not advised with this diet.

## Ozark PERSIMMONS

### Sweet as Honey

AN261—These are the sweet native Persimmons (not the tender Japanese) and are perfectly hardy anywhere that peaches will grow. I am offering you sturdy, 1 yr. trees, grown in my own Ozark garden, from an extra select early ripening strain. They make a beautiful ornamental tree, rather compact, about the size of a cherry tree, and besides will bear abundantly practically every year. Fruit is sweet as honey—makes grand eating. Plant 20 ft. apart and care for them just like any other fruit or ornamental tree. Price: 79c each; 2 for \$1.49; 3 for \$1.98, postpaid.

## HORSERADISH

Don't pay high prices for ground horseradish. Grow your own. Selected varieties, easy-to-grow. I have both crowns (whole roots) and cuttings (piece roots). The crowns will make hills the first year.

AN915—PRICE: 5 for 79c; 10 for \$1.39; 25 for \$2.98, postpaid.

AN916—Cuttings, 12 for 49c; 25 for 89c; 100 for \$2.98, postpaid.

## SAGE for Seasoning

AN920—Grow your own good, old fashioned seasoning. Home grown sage has it over store bought sage about 100%. These are real hardy plants that will do well for you. Plant a few and be independent of store bought seasoning. 35c each; 3 for 89c, postpaid.

## BLUEBERRIES

You can now grow genuine Blueberries in your own yard.

For a long time now I have been experimenting with the big berried Blueberries from the east. Most people say they can't be grown over a large section of the country because they have to have acid (sour) soil and much of the soil throughout the mid-west and other sections is not acid (sweet). I've found it's no trick at all to grow good Blueberries if you just make the soil acid with a little chemical.

## NAMED VARIETIES GIANT BLUEBERRIES

### Truly as big as marbles.

Delicious in flavor, berries ranging up to the size of marbles just covering the plant, big upright shrubby plants growing to the height of 5 ft. or more and as broad. A half dozen will supply the neighborhood. Rich blue berries ready for those famous blueberry pies, cakes, and canning with plenty to spare to eat with cream or right off the bushes. I will only sell these in collections of three as several varieties of Blueberries must be grown together to get a good set of berries. Plant 6 feet apart. I am offering the newest and finest sorts in 3 year old plants.

## HYBRID BLUEBERRY COLLECTION

AN344X with 1 lb. Aluminum sulphate and complete directions \$3.49, postpaid.  
1 Rancocas 12-15"  
1 Jersey 12-15"  
1 Pioneer 12-15"

## NEW HYBRID BUSH CHERRY

I have been watching for a long time with great interest the efforts of the various experiment stations to improve on the Hansen Bush Cherry. By cross hybridization and selection, they have managed to produce some outstanding bush cherries with much larger and tastier fruit than the old Hansen Bush Cherry and a better grower. For the first time this spring I am offering in a limited way some of the new named varieties of Bush Cherry. These are budded on to American plums, and should be hardy anywhere. Should a wild plum stalk come shooting up through the shiny leaf Bush Cherry, be sure and trim it out because that will be from the wild plum root. You can tell the difference easy enough—the wild plums are dark green and rough leaved plant, while the Bush Cherries are shiny leaved and bright green.

I have found these Bush Cherries not only grand for eating and canning, but also they are an extremely beautiful shrub in the spring when covered with white flowers. Their foliage is pretty all summer, and as far as I can find, they are quite free from any serious insects and disease injury.

**BROOKS—AN72**—Very large dark red fruit, almost as large as regular cherries. They bear the second year from planting and bear very heavily. Bush is compact and shapely. Loaded with the usual white flowers in the spring. 98c each, postpaid.

**BLACK BEAUTY—AN73**—This is the newest selection of the bush cherry. It is well named. The fruits are almost black. A very dark glossy black maroon red. Almost as large as tree cherries. The flesh of the fruit is dark red from the skin right to the pit. Fine eating, and fine for canning and pies. You folks who are out of the regular cherry country can grow these new hybrid bush cherries and enjoy the fruit just as much as you would regular cherries. 98c each, postpaid.

**SIoux—AN74**—Extremely large cherries— $\frac{3}{4}$ " or better across. Purplish black, shiny with greenish flesh. These berries are very juicy and sweet. In the vicinity of Minnesota this cherry fruits about the second week in August—earlier south of there. 98c each, postpaid.

## BARGAIN COLLECTION

AN91X—COLLECTION of 1 Brooks, 1 Black Beauty, and 1 Sioux. All 3 brand new hybrid bush cherries for \$2.69, postpaid.

## BIG 2 YR. BERRY PLANTS

These plants are ideal for home gardens and the commercial growers who want quick results, because you gain a year on the bearing. Figure the cost of the berries you will gather against the plants and you can see that you will actually save money by buying the 2-yr. plants.

This year for the first time since I don't know when, I've got a supply of big, 2 yr., ready-to-bear berry plants, that will start right out for you. Don't have many varieties, and only a few of each, but while they last a few of you customers will be lucky.

Since I have so few of them, I'll have to make this deal with you. I'll send out the big plants as long as the supply lasts. Then, if and when I run out, those of you who order late will get twice the number you order in a smaller size.

Prices: (See page 53 for more complete descriptions)

AN323—SODUS RASPBERRY—Grown at my Ozark Farm. 3 for \$1.29; 6 for \$2.25; 12 for \$4.49, postpaid.

AN304—MISSOURI GIANT BLACKBERRY—Biggest of All. 3 for \$1.49; 6 for \$2.89; 12 for \$5.59, postpaid.

AN309—OZARK QUEEN—A true everbearing. 3 for \$1.49; 6 for \$2.89; 12 for \$5.59.

AN331—CUMBERLAND RASPBERRY—Ready to bear plants, full grown heavy material. 3 for 69c; 6 for \$1.35; 12 for \$2.25, postpaid.

AN332—LATHAM RED RASPBERRY—The standard red. 3 for 98c; 6 for \$1.75; 12 for \$3.15, postpaid.

AN333—CHIEF RED RASPBERRY—The northern hardy red. 3 for 95c; 6 for \$1.65; 12 for \$2.98, postpaid.

You can't beat 2 yr. berry plants for quick results. They'll bear the first year. H. F.

## RHUBARB

### The Famous New McDONALD RED RHUBARB

ALL RED PLANTS  
Eat Rhubarb for Health

Eating Rhubarb is about the nicest way I know of for keeping healthy, especially when it's bright red and tender like this special strain I grow.

**Easy to Grow.** Plant plenty of it this year. It's easy to grow and perfect in sauce, pie or canned.

**How to Plant.** Plant 3 feet each way in good garden soil. Plants last forever.

**Sweet—Tender—Seedless**

AN910—A brand new strain of rhubarb, red as an apple from the ground to the leaf. Sweet as sugar. Cooks well. Makes delicious sauce that's dark pink. Stalks are giant size, but all tender. Absolutely seedless. Grown from divisions. Very limited supply this year. 65c each; 3 for \$1.79, postpaid.

### My Own Special RHUBARB

My Special Strain of Rhubarb does not get woody, grows vigorously and is much juicier than ordinary strains of Rhubarb.

AN917—SELECT CLEAN PLANTS, 3 for 54c; 6 for 98c; 12 for \$1.59.

AN918—EXTRA HEAVY PLANTS, for quick results. 3 for 74c; 6 for \$1.39; 12 for \$1.98, postpaid.

## ASPARAGUS PARADISE

But best of all. Paradise is more tender, less stringy, and more rust proof. We could easily ask a premium as most seedhouses do not have this as yet, but since we have big stocks, we will sell at regular prices, WHILE IT LASTS.

**How to Plant**—Plant 18 inches apart in rows 2 feet apart and on well enriched soil.

**Size to Plant**—For quickest returns plant my huge, 2 yr. Extra Heavy plants. They bear early. The 1 yr. plants save money and are healthy plants—inexpensive way to start a nice asparagus bed.

AN900—1 yr. Select Plants: 100 for \$3.35; 50 for \$1.79; 25 for 98c, postpaid.

AN901—2 yr. Ex. Heavy: 100 for \$4.49; 50 for \$2.38; 25 for \$1.29, postpaid.

# HARDY PLUMS

No fruit is more delicious or healthful than plums. No fruit is quicker heavier bearing, or surer bearing than these better varieties of plums listed here. Plant 18 ft. apart, 130 trees to the acre. Ideal to plant in chicken yard for shade where they do extra well.

## HANSEN'S HARDY HYBRID PLUMS

**Bear Heavily—Bear Early—Very Hardy**

These are the famous hybrid plums of Prof. Hansen. He developed them for the severe Dakota weather, so they will stand any degree of coldness.

Bear very heavily, branches often break with fruit. Come into bearing early—often 1st yr. after planting. Fruit is delicious. Try them all if you can.

### WANETA

AN208—The most famous of all Hansen's Hardy Hybrid plums. Fruit big, bright red outside and crisp, juicy, sweet yellow inside. Heavy bearing, sure bearing and superhardy.

### OPATA—Bears 1st Year

AN205—Bears often the year after planting. Reddish purple skin, yellow inside. Limbs are almost entirely hidden by clusters of fruit—so heavy you must watch any soil. Ripens 10th of July.

### SAPA—Beautiful Color When Canned

AN206—Fruit dark purple outside, wine-red inside. Rich flavored. Extra fine too for canning, sauce or jams, or for eating fresh from tree. Like Opata, bears early and heavy. Trees often produce blooms in the nursery row. Pit small and on account of rich wine red color, makes a beautiful sight when preserved, or for sauce. Plant Compass as pollinizer. Bears right after Opata.

### HANSKA—The Big Freestone

AN203—(Apricot Plum). Big, reddish purple plum with sweet apricot perfumed yellow meat. Freestone. Bears right away after planting. Ripens in August.

you don't break the limbs. Grows on

## GOLDEN EMBER

**The New Canning Plum  
Hangs on Tree Until Ripe**

AN202—The new canning plum. Good sized and late—perfect for dessert or canning. Rich golden with glowing red blush. Hangs on tree until full ripened and then keeps 2 to 3 weeks. Ripens around September 1st. Only 4 to 6 ft. grade left.

## UNDERWOOD

**The Giant Freestone**

AN207—(American type). My favorite at Centerville. Bears regular and fruit is immense. Ripens in July. Red freestone, good to look at and delicious to eat.

## PLUM CHERRIES

**A Hybrid Cross Between  
Cherries and Plums**

New and unusual—a cross combining the size of the plum with the delicious flavor of the cherry and plum. Developed by Hansen.

AN201 — COMPASS. Loaded with bright, shiny red cherry-like fruits the size of plums. Perfect for jams, jellies or canning. Low, bushy growing, easy to pick. Set 10 to 12 ft. apart. Plant with other plums as a pollinizer. Same price as plums. See above.

AN204 — OKA. Often bears first year. Dwarf growing—around 5 to 6 ft. Set 8 to 10 ft. apart and you get loads of fruit in a small space. Fruit rich red inside and out. Grows in any climate and always bears.

# HARDY CHERRIES

These are the hardy varieties for the Middle West. All big-rooted, heavy-bodied, well branched trees that will come into bearing early. 130 trees per acre. Set 18 ft. apart each way.

## THE NEW MONT-MORE CHERRY

(An Early Bearing Dwarf Montmorency) Often BEARS THE FIRST YEAR

AN54—Here's the best news in cherries we've heard for years. This was a sport from a Montmorency THAT WAS FOUND TO BEAR A CROP THE FIRST YEAR!

### DWARF—EASY PICKING

It's unusual in that it grows much lower than Montmorency—about 10 to 12 ft.—and still produces a full-sized crop. Trees never get so tall but what fruit can be picked from the ground. Perfect for restricted back-yards.

### BIG CROPS IN 3 YEARS

Ideal commercial cherry. Gets in full bearing within 3 or 4 years. Fruit is often larger than as far north as cherries will grow. Absolutely hardy.

### ENGLISH MORELLO

AN52 — Late cherries for preserves. The big dark red, rich flavored late cherry excellent for preserves. Leave on tree until almost black and they are delicious. Ripen in July. Extremely hardy.

### BLACK TARTARIAN

AN50—Giant black sweet. Giant sweet cherry, rich purplish black berries that have a delicious flavor. The surest to bear of all the sweet cherries.

### GOLDEN SWEET

AN53—My new yellow sweet cherry. Never fails to be loaded down with a big crop of golden yellow cherries. Makes a beautiful shade tree. Birds don't bother the fruit on account of the color. Plant one in your yard for shade, beauty and delicious eats.

**Prices of Black Tartarian and Golden Sweet Cherries**

### EARLY RICHMOND

**The Earliest of All**

AN51—The first cherry, always appreciated because so early—about 10 days ahead of Montmorency. Superhardy and a heavy bearer. Fruit medium size, shiny red, and often called the "May Pie Cherry."

### The Heavy Bearing MONTMORENCY

AN55—The standard by which all cherries are judged. Big, rich-red fruit, always loads down the trees. Juicy but firm for pies or preserves. Good to eat right off the tree, and if you have any left over they will always bring a premium on the market. Montmorency cherries have been the favorite cherry since I can remember and I think they always will be. Make sure that any cherry planting you do includes Montmorency.

# APPLE TREES

Here are heavy caliper, strong, straight trees with heavy roots—ready to bear in a hurry. It's the only kind I grow and the only kind I'll sell. Be careful when setting fruit trees that you set only the best.—H.F.

## GRIMES GOLDEN

AN5—The hardy winter yellow apple. Beautiful even rich golden color, crisp and tender. Fine flavor. Improved with keeping. Almost brown, and large size. Very hardy type. The finest yellow winter apple you can have for keeping. Will keep all winter with a little care and flavor seems to keep on improving the longer it is kept.

## McINTOSH RED

AN9—To many the finest flavored apple I list. Bears for years and years. Beautiful red apples often with darker red blush, fragrant and of highest quality. A fall apple which will keep well into the winter in storage. Drouth and cold weather do not affect it.

## MAIDEN BLUSH

A Good Eater or Cooker—Fall  
AN10—Yellow with crimson blush. A good eating and cooking apple. Ripens just before Wealthy.

## FIRESIDE

AN21—This is the coming apple, the super delicious introduced by the University of Minnesota. As you know, Delicious will not grow well in the north. Fireside has all the good points of the Red Delicious, plus hardiness. It is: (1) Of better quality; (2) Hardy; (3) Tree large, vigorous and strongly branched; (4) Fruit large, bright, attractive red over a greenish yellow brown; (5) Keeps all winter; (6) Annual bearer.

## SNOW APPLE

The Red and White Fleshed Fall Apple

AN13—(Fameuse). Few apples more refreshing or beautiful than Snow. Flesh snowy-white, stained with crimson. One of the finest eating apples.

## THE FAMOUS

## RED WINESAP

The Juicy Winter Apple—Keeps All Winter

AN12—These are the bright red apples with the splendid flavor and lots of juice. They keep all winter in fine shape. Favorite variety for years.

## CRABS FOR BEAUTY AND FRUIT

The Beautiful Fruit Tree **DOLGO** →

AN3—Probably the finest crab ever introduced for canning whole, as sauce, or pickles and for jelly. At the same time it is one of the most beautiful of the flowering crabs. The well-shaped trees are covered with glistening snowy-white blossoms in the spring and gleaming red, fine quality fruit in abundance in the fall. Bears young and regularly. One of Prof. Hansen's recent introductions from South Dak. Exp. Station—so is extremely hardy. One or two of these trees should be on every farm.

PRICES SAME AS REGULAR APPLES

## ← WHITNEY

AN16—An extra big and extra fine one. Fine for preserves, pickling, jelly and apple butter. Good enough to eat right from the tree.

One of the Earliest and Best

## JUICY EASY-TO-GROW

## HARDY PEARS

Everybody should have two or three pear trees. They grow upright, take so little space and are always loaded. Plant both summer and winter pears. Wrap the winter pears in paper and forget them until mid-winter. See how good they taste then.

These are big heavy, well-rooted trees, ready to grow and will bear worlds of fruit. Set 16 feet apart. About 170 trees to acre. Don't need much space.

# GRAPES

## HOW TO RAISE THEM

Grapes are one of the finest fruits we can grow here in this country. They're hardy, prolific, and if you can tell me what tastes better, I wish you would. Grow them on a fence, on an arbor, or in your vineyard. Plant 6 to 8 feet apart in rows 6 feet apart and be sure to try all of them. Each variety is superior for some reason and comes into bearing at different times so you have grapes all season. One of the collections I have may be just what you want. All plants are big, heavy rooted vines—none better.

## BETA

The Hardy Grape—Very Heavy Yields  
AN350—The hardiest grape I know. Grows in Minnesota without protection. Fine for arbors. Grows fast and bears heavy. Fruit not so large. Clusters very sound with a nice flavor—having the tang of a wild grape. 2 for 69c; 4 for \$1.29; 8 for \$2.29; 12 for \$3.15; 25 for \$5.19, postpaid.

## ← MOORE'S EARLY

The Earliest Black

AN355—Very early, rich black variety always loaded and always enjoyed. The first mammoth clusters taste so good picked right from the healthy, vigorous vines. Does well over the middle west. Fruit very large. Price: 2 for 69c; 4 for \$1.29; 8 for \$2.29; 12 for \$3.15; 25 for \$5.19, postpaid.

## ← SHERIDAN

AN357—Have been trying for a long time to get stock enough of this grape for my spring catalog. Wonderful quality. New blue-black. Ordinarily ripens a week or so after Concord. Very sweet. Fine flavor. Price: 2 for 85c; 4 for \$1.49; 8 for \$2.69; 12 for \$3.49; 25 for \$7.19, postpaid.

## NIAGARA →

The Best White Grape

AN356—The most popular white grape. Highest quality. Excellent eating grape. Clusters very compact with many grapes in each one. Plant lots of this one. Price: 2 for 69c; 4 for \$1.29; 8 for \$2.29; 12 for \$3.15; 25 for \$5.19, postpaid.

Best White Grape

## JONATHAN

ANS—It's famous for its good appearance and perfect quality. It's brilliant red, well-shaped, and is good for cooking or EATING. Best of all, it keeps well with little or no care, which means you can have good apples all winter.

To most people home wouldn't be home without a Jonathan apple tree in the yard.

## Yellow TRANSPARENT

## RED DELICIOUS

*First Choice of All Winter Apples*

AN11—The improved, early coloring, big Red Delicious. Colors up full red two weeks ahead of Delicious. A big, wonderful flavored, hardy, perfect, eating apple. Always brings a premium on the market. The "pear" shaped apple with 8 points at the base. If you could have but one apple, you should choose Delicious.

## The Popular WEALTHY

AN15—Good color, and hardiness. A big, red striped, tender, juicy, high quality apple. Always bears heavily. Ripens in September but is good 2 weeks before ripe. Has been one of the favorite apples for many years. Plant lots of Wealthy.

## YELLOW DELICIOUS

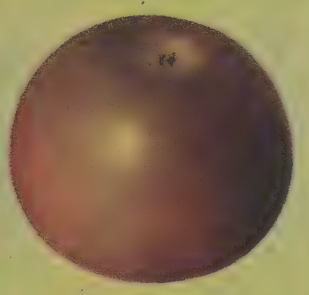

AN17—The big bright yellow. Great big bright colored, best of all yellow apples. Bears when very young, thrifty, and an all around good apple. Beautifully shaped and appearing apple for market. Good keeper. Late fall and winter. One of the best for commercial orchardist.

## RED DUCHESS

*Best for Cooking*

AN4—Best cooking summer apple. America's choice of mid-summer apples. Fine cooking qualities. Makes delicious pies or sauce. Almost solid red in color, round in shape. A must-have variety.

## Stayman's Winesap

AN14—The largest Winesap, and I think the best. Red striped, high quality fruit. Winesaps are generally considered the best flavored and best keeping apples and Stayman's Winesap is one of the best. With a little care, you can keep Winesaps for use all winter, clear up into April.

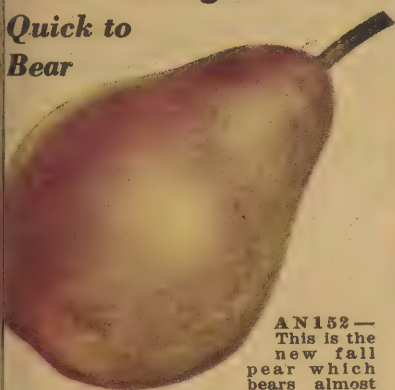

## ANOKA Bears First Year

AN1—Bears first year after planting. Earliest apple in the world. Stands cold like an Eskimo. Fruit red, streaked yellow. Tree never gets very big so makes a fine back yard tree. This variety was originated by Prof. Hansen, South Dakota Experiment Station.

**TWIN COLLECTION: AN43X—1 ea. of Anoka and Stayman Winesap. \$1.29 (2 to 3 ft.), postpaid.**

## NEW! Douglas Pear Quick to Bear

AN152—This is the new fall pear which bears almost at once after planting. Generally loaded year after year. Fruit is large, yellow, and may be allowed to stay on the tree until fully ripe. You don't have to bother wrapping them. This is the most blight-proof of all the pears. Price same as other varieties although generally a premium is asked for this fine new pear.

## SUGAR PEARS

*The Sweetest of All*

AN155—These are SECKEL or SUGAR PEARS. As sweet a flavor as its name "Sugar Pear" suggests. Good right off the tree and for desserts. Small in size but large in quality. A russet coat covers greenish yellow skin.

## KEIFFER

*The Winter Pear—Good Keeper*

AN154—A winter pear of high quality. Extra good keeper, heavy bearer. Lots of good gold and red color. Large fruit. Narrower at top but more uniform than Bartlett. Good pollinator.

## The Giant BARTLETT

*The Earliest Pear of All*

AN150—Fanciest and finest of all pears. Rich golden yellow with rich pink blush. Good keeper, and shipper. Early. Pointed top and wide at base.

## GORHAM

*New Canning Pear*

AN153—Just what we've been looking for. A pear to fill in between Bartlett (ripens 2 weeks later) and winter pears. Tender, crisp, juicy, white-meat. Better for dessert and canning.

## AN190X EARLY and LATE PEAR COLLECTION

1 Bartlett 2 to 3 ft.

and 1 Keiffer 2 to 3 ft.

# BERRY PLANTS

## How to Plant Them

Set Raspberries 3 ft. apart in rows 6 ft. apart. Cut out fruiting branches or canes to ground immediately after fruit is picked. Takes 2,500 plants per acre. Plant Blackberries same as above only set 4 ft. in rows 7 ft. apart—about 1,400 plants per acre. The Missouri Giant, Ozark Queen and the Boysenberry, Dewberry and Youngberry should be set 6 ft. apart in rows 6 ft. 1,100 plants per acre. Leave on ground first winter. Cut off ½ tops and mulch with straw after cold weather. Train on wires. After this, prune out fruiting canes each year after fruit is picked, leaving new growth on ground till Spring.

All above can be planted closer for garden planting. Put a bush in each corner of the garden. Have plenty of these fruits for preserves, canning, pies and fresh fruit.

## Hardy GOOSEBERRIES

### PIXWELL—Finest of All

AN911—Folks, I have been trying for a long time to get plants enough of this finest of all gooseberries to list it in my catalog. The name is a good one—it does pick well. The big luscious berries hang from the branches well away from the thorns. It's new and it's scarce. This berry can be grown farther north than any other gooseberry and also farther south. It will stand and produce a fine crop of berries under a wide range of climatic and soil conditions. Do not confuse this variety with the common sorts offered as it is far superior. Try it for yourself and see. My usual money back guarantee if you don't like it. Price: 69c each; 3 for \$1.89; 12 for \$6.98, postpaid.

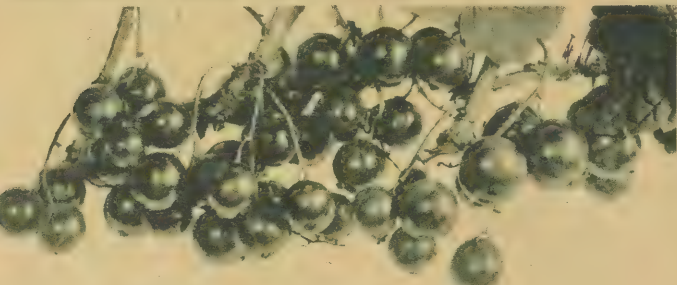

### DOWNING

AN910—This hardy strain of gooseberries always produces a big crop. Has pale green berries that make prize winning pies. Exceptionally good flavored. Set lots of them, about 3 ft. apart. Extra large plants 59c each; 3 for \$1.59; 12 for \$4.98, postpaid.

### ALFRED

The Early Long Bearing Black

AN325—The early ripening, long bearing blackberry. Have decided to list this variety because it produces such an enormous crop of first-quality fruit. Large size, jet black, delicious flavored berries that are nearly coreless and seedless. Will grow in poor soil and take care of themselves year after year. Probably the most early ripening of any blackberry and has a long bearing season. Very hardy and an all around fine blackberry. Prices: 6 for 89c; 12 for \$1.69; 25 for \$2.69; 50 for \$5.39; 100 for \$9.85, postpaid.

## Hardy, Thrifty

## MISSOURI GIANT HYBRID

### Biggest and Best

AN305—A blackberry that is bigger than any berry I've ever seen. Heavy bearing, doesn't sucker, easy to pick. Starts to bear early and bears almost as long as any ever-bearer. 1 year plants:

2 for 59c; 4 for 98c; 12 for \$2.39, postpaid.

## LARGER, SWEETER

### BRISTOL Best Mid-Season

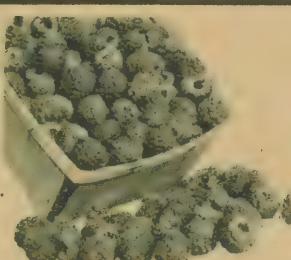

AN326 — A new variety, considered best of the mid-season, both for home and commercial plantings. This berry probably does better than any other black, in the warm states, berries are large, firm, fine flavored and almost seedless. Plant is a vigorous grower and adapted to a wide climatic range.

Prices: 3 for 70c; 6 for \$1.20; 12 for \$2.19; 25 for \$3.98; 50 for \$7.75; 100 for \$13.95, postpaid.

### SODUS Best for Freezing

AN321—New cross between best red and black varieties. Missouri State Fruit Station says "Extremely vigorous, no spraying required to date; last year Sodus averaged 5½ pints per vine. Fruit larger and firmer than Latham." I planted a few Sodus and they actually bore about one pint per plant the first year. Prices: 3 for 79c; 6 for \$1.32; 12 for \$2.39; 25 for \$4.59; 50 for \$8.49; 100 for \$14.98, postpaid.

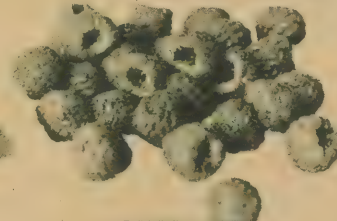

### CHIEF

Big, Firm, Hardy, Cold Resistant

AN315—The real early, superior Red Raspberry. Big, firm, rich, resistant to cold and heat. 6 for \$1.19; 12 for \$1.98; 25 for \$3.75; 50 for \$6.98; 100 for \$12.98, postpaid.

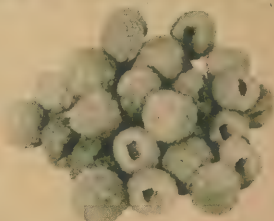

## YOUR FAVORITE

### SUNRISE

Fool-Proof Berry

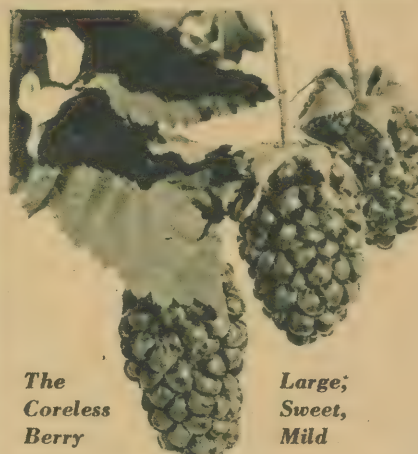

AN322—A perfect new red raspberry. I have been looking for a fool-proof red raspberry and I believe I've found it. The U. S. Dept. of Agriculture introduction is noted for its heavy bearing, fine textured and quality fruit. Hardy and resistant to disease. Prices: 6 for \$1.32; 12 for \$2.36; 25 for \$4.25; 50 for \$7.98; 100 for \$14.25, postpaid.

### ST. REGIS

An Everbearing Red

### New Thornless Youngberry—Gardenia

AN334—This is the same fine Youngberry with the sweet, jet-black berries as the variety listed above but these plants do not have thorns. Folks tell me they get some mighty good crops off these Youngberries. Better try them. Price: 20c each, postpaid.

# BLACKBERRIES

## ELDORADO

The World's Leading Blackberry

AN-307—Most resistant to rust. Very small seeded variety. Ripens early over long period. Fruit juicy, sweet. Very hardy. Prices: 6 for \$9c; 12 for \$1.69; 25 for \$2.69; 50 for \$5.39; 100 for \$9.85, postpaid.

## OZARK QUEEN

AN-308—A true ever-bearing variety! From spring till freezing weather loaded with big luscious, extra large berries. Dry weather won't stop this hardy blackberry. A money-maker commercially. I found this grand berry growing on my Missouri place and it's a winner in every way. Prices: 2 for 59c; 4 for 98c; 12 for \$2.39; 25 for \$4.49, postpaid.

# BLACK RASPBERRIES

## CUMBERLAND BLACK RASPBERRY

It's Easy to Grow Your Own

# STRAWBERRIES

FIELD'S GIANT ROOTED FRESH-DUG PLANTS COST NO MORE!

Don't fool around with cheap, worthless Strawberry plants. My extra-strong plants don't cost you a penny more, but they perform like ten dollars more.

The fancy plants I send you all are sound, healthy, heavy-rooted plants—the scrawny ones thrown out. All are carefully inspected and found sound every way. And remember they cost you no more.—P. S. (Most cases you'll find you save money at Field's.)

## How to Plant Strawberries

Set strawberries with crown just at surface of earth. DO NOT COVER CROWN. Let roots spread out fan shaped. Plant 24 in. each way for garden. Set 2 ft. apart in rows 3 ft. apart in field. Takes 8,000 plants per acre.

## My Strawberry Varieties Won't Mix

All my varieties of strawberries are perfect flowering and won't mix if planted together. And they bear if planted alone. These are the finest plants you can buy.

## THE FOUR BEST EVERBEARERS

### NEW GEM

BN-706—Fruit early spring, summer and fall. A wonderful plant maker, being healthy and vigorous. Berries quite round with few seeds. Will bear heavy first summer. Prices: 50 for \$1.98; 100 for \$3.49; 200 for \$6.69; 500 for \$14.29, postpaid.

### GIANT MASTODON

Everbearer

BN-707—Bears 90 days from planting and keeps on 'til frost. Giant in size, often 2 inches in diameter but still very sweet and juicy. Very heavy yielder. Prices: 50 for \$2.59; 100 for \$4.75; 200 for \$8.56; 500 for \$16.49, postpaid.

### New Minnesota 1166

(Evermore)

BN-708—New, northern everbearer which has become immensely popular. Extremely hardy, good heavy foliage, vigorous grower. Bears big, smooth, delicious dark red berries spring, summer and fall. Prices: 50 for \$2.69; 100 for \$4.79; 200 for \$8.69; 500 for \$16.75, postpaid.

### STREAMLINER

The Jumbo Everbearer BN-709—Brand new Jumbo size everbearer. Sweet as honey, fresh as a June day. Bears July until hard freeze. Extremely sweet so requires a minimum of sugar. Quart of berries per plant. Quantity limited. First come, first served. Prices: 25 for \$2.39; 50 for \$4.29; 100 for \$7.98; 200 for \$15.49; 500 for \$29.89, postpaid.

### Heavy Bearing BELLMAR

My Choice of All

BN-701—Guess everybody knows by now that Bellmar is one of my favorite strawberries. The reason is simple. First of all it's delicious. The berries are large but have no hard cores or hollow spots. Deep dark red in color with no green tips and holds this beautiful color even when canned, and on top of all it's easy to grow. I grew this special strain at my cabin in the Ozarks. Really choice. Prices: 50 for \$1.69; 100 for \$2.98; 200 for \$5.69; 500 for \$11.29, postpaid.

### SENATOR DUNLAP

The Old Favorite

BN-703—Every berry patch should have plenty of this old reliable main crop berry. It can't be beat for flavor, quality, drought resistance or color. Midseason, bright red, smooth, large firm fruits. I think more people plant Senator Dunlap than any other berry. There must be a reason. Try some and see for yourself. Prices: 50 for \$1.25; 100 for \$1.98; 200 for \$3.89; 500 for \$7.49, postpaid.

### NEW HENRY FIELD'S GIANT

BN-710—Have written my story of this new strawberry in Seed Sense where there is more room to tell about it. This plant just can't be beat for hardiness, yield, flavor, color and size. I'll guarantee it. Been trying it out in my Ozark garden for a long time. Prices: 10 for \$1.49; 25 for \$2.69; 50 for \$4.75; 100 for \$8.95, postpaid. (Not more than 100 to a customer)

### GIANT SURECROP STRAWBERRY COLLECTION

There isn't a place that can't have a hundred strawberries. With this many, you can have plenty to eat, put up in the spring and lots of berries all summer. Here's one of my favorite assortments. Takes a space about 20x15 feet. Set the plants 18 inches each way.

BN-721X—50 Bellmar (June Bearing), 50 Giant Mastodon (Everbearing), 100 plants in all, \$3.98, postpaid.

### BLAKEMORE

Drought-Resistant

BN-702—You can pick berries whether there is rain all season or not, for here's a berry that will stand more dry hot weather than any variety. Really dependable. A heavy bearer, early fruit very large, good color and prized for canning and preserves because they hold their shape fine. Good shipper. Many growers say Blakemore makes them more money than any other. Prices: 50 for \$1.19; 100 for \$1.89; 200 for \$3.69; 500 for \$7.29, postpaid.

### About Peach Trees

I've watched peach trees and crops a good many years. Some varieties are pretty sure bearers and some aren't worth a rap. You can be sure I'm not offering you shy poor bearers. Listed on this page are the varieties I plant and believe in.  
Plant 15 feet apart, or 190 trees to the acre. Plant peaches as fillers in your apple orchard. All my trees are big, soon-to-bear, heavy rooted and I've priced them right. Dates given after varieties approximate ripening date. This may vary according to weather conditions.

### ← J. H. HALE

#### Extra-Large Freestone

AN104—Extra large, rich yellow, blushed red. Ripens a few days ahead of Elberta and tastes as good as any peach known.

A money maker if you want to sell the fruit as it brings a premium.

### PEACH SEEDLINGS

AN607—Have a few Peach seedlings this year. Of course, you don't know what you'll get when you plant them, maybe a huge beautiful fruit and perhaps a small sugar sweet one. They tend more to produce small peaches of a honey sweet taste and a grand flavor. They grow fast, cost little and are hardy. Plant them in the hen yard, around the vegetable garden, as a windbreaker or tall hedge.

### HALE HAVEN

AN103—A fine new freestone which is rapidly taking the place of Elberta in commercial orchards. Every peach a great big handful of rich, tempting goodness. Deep orange all over with deep blushes of carmine. Colors long before ripe. Ripens 15 days ahead of Elberta when the market needs good Peaches. Self pollinizing, one of the hardiest. There are fine orchards of this variety even in Nebraska.

### RED HAVEN

AN107—(Freestone). Extra early flaming red Peach with golden flesh. Will color up all over and ready to ship to distant markets while still firm. Trees bear young and heavily. Self pollinizing. Very fine flavor. Good to eat fresh or canned.

### The Famous POLLY PEACH

The Peach that's Sure-to-Bear  
AN106—Super hardy, sure-to-bear variety. Big freestone—white overlaid with rich red blush. Keen flavor and juicy. Introduced by Iowa State College. Produced a big crop of peaches every year. Fine for canning as it is very firm. Surest to bear. Stood 20 degrees below zero and bore a big crop. Now same price as other varieties. Ripens August 15th.

### CHAMPION

#### Hardy White Freestone

AN100—Very hardy in the central states. Has size and quality. A honey-sweet, rich, juicy white peach you'll rave about. Ripens around August 10th. White peaches are always hardiest.

### ROCHESTER

#### Early and Fine

AN108—(Freestone). Well known for its rich flavor and fine firm flesh. One of the best canning peaches. Ripens very early and is among the hardiest. Good pollinizer for other varieties.

### MIKADO

#### The New Early Peach

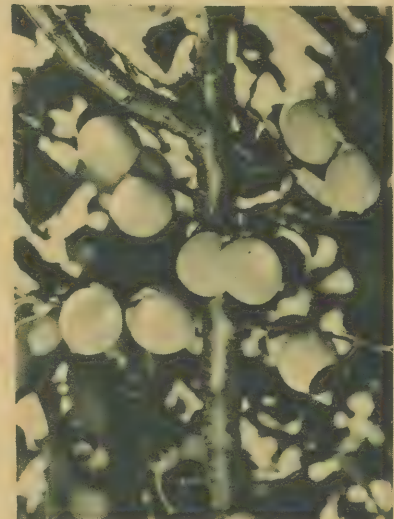

AN105—Yellow, red, blushed freestone. One of the few outstanding new early peaches. Ripens first week in July. High quality in flavor and very attractive in rich coloring. Sure to bear in coldest weather. Early peaches always bring a premium on the market. Order early.

### GOLDEN JUBILEE

#### Red & Yellow Freestone

AN102—Beautiful new red and yellow with good size. Hardier than most and growing more popular each year. Flesh is yellow, tender, juicy and sweet. Ripens July 20th.

## HARDY APRICOTS

### Everybody Can Grow Them

Apricots are very scarce this year. May have to substitute sizes late in the season. If so, you can be sure I'll treat you right.

### SUPER HARDY APRICOT "SUPERB"

AN250—Now you can have delicious sweet apricots in your planting—this variety, SUPERB, is HARDY in the middle west. Besides it's a delicious flavor you get in no other fruit. Eat right off the tree. Plant on a north or west slope 15 to 20 feet apart. Ripens between cherries and peaches. Remember Apricots will stand more hot weather than any fruit.

# 1947 IS THE YEAR TO . . . **PROFIT FROM CHICKENS**

Take Advantage of Henry Field's "BETTER-BRED" Chicks

## Grow the Best—Get the Most

In Baby Chicks

## Only Quality Counts

And You Get Only the Best  
at Henry Fields

Quality is as important in baby chicks as it is in seed. And it's cheaper to grow the best, just like it is with seed. That's why more and more growers are coming to Henry Fields for their chicks, because they know that quality has been my policy for 60 years.

Any way you look at it, it pays out to buy from a man that's had experience. You can't learn everything about the baby chick business overnight, just like you can't grow chickens without experience, as you know.

My flocks aren't "just ordinary." They're top-notch breeding stock for the baby chicks I send out—the kind that really grow for you and make you money.

I send my men out personally to cull every flock—as often as is necessary. Only after scrupulous inspection will I accept eggs for hatching.

With breeding stock that I know has perfect body type, high-producing laying ability, good health and vigor, it's no wonder that I say that **BETTER BREEDING MEANS BIGGER PROFIT.**

Like with anything else at Henry Fields, you can be sure of quality and 100% satisfaction. That's my promise, and it's lived up to.

#### Henry Field Vitality

Henry Field is known throughout the whole country for the vitality of his chicks. Producing chicks for over 30 years has provided experience with which few other hatcheries can compare. When you get chicks from Henry, you **KNOW IN ADVANCE** they will be healthy and worth all or more than you pay for them.

## Why I Think You Should Grow More Chickens This Year

by

**HENRY FIELD**

I've been in the baby chick business a long time, and have been a "chicken farmer" since I was a boy. I've seen eggs range from a nickel to almost a dollar a dozen, and meat the same way. But in all my years of experience with chickens, I've never seen one to equal the prospects for profit of this year, 1947.

### 3 Reasons

That's a pretty broad statement, I know, but I think I've got sound reasons to back it, and here they are: **NUMBER ONE**—There is a shortage of all kinds of meat, all over the country and all over the world. **NUMBER TWO**—Prices are high, and going higher. **NUMBER THREE**—There is plenty of feed.

Now, when people don't have all they want, they just want it more than ever. When what they want is something they really need, like meat and eggs, they'll go to **any** lengths to get them. That's why prices are high now, and why they're going higher. And that's what puts the chicken raiser in such a good position. He not only has what everyone wants, but this year he has the feed to raise more of this "want" than ever before.

### Give People What They Want

Give people what they want! That's good sense. And when it comes to chickens, giving people what they want is going to mean profit to chicken growers this year.

That's where Henry Field "BETTER-BRED" baby chicks shine. They're bred to give you just what you want, when you want it. And you can depend on them, like you can anything else at Henry Fields.

### Get Your Order in Early

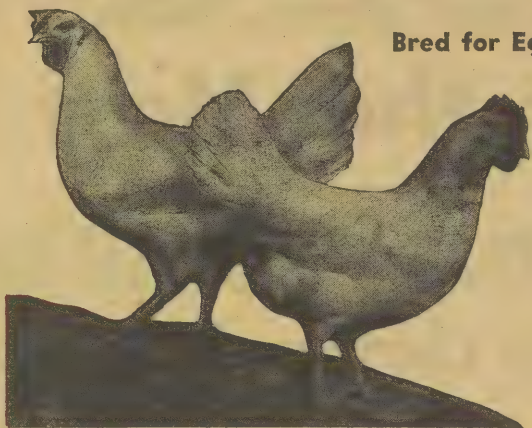

Get your order in early!! I really mean it. Baby chicks are going to be in such demand this year, that even my big hatchery can't supply the wants of Henry Field customers. Am going to do my best. Will even open the 1947 season earlier, with my first hatch coming off January 27, but lots of people are going to be disappointed. So order early. First orders will get first choice and the best dates and service.

## Field's Famous "Large-Type" WHITE LEGHORNS

Bred for Eggs

### Leghorns Are Profitable

For many years the White Leghorns have been recognized as the heaviest producers of white eggs. They require less feed and less room per bird than almost any other breed. Field's Leghorns are noted for being the large type (not beefy) full of vigor and are great rustlers. They come from the finest breeding flocks in this part of the country and have been rigidly culled to insure you the kind of Leghorns that will make you the most money.

### BUY Leghorns with Care

Some folks think ALL Leghorns are heavy egg-layers. That's not true. I think 100 eggs per year is nearer the average for ordinary Leghorns.

That's why it's important you get Henry Field Bred-To-Lay Leghorns. Even if they cost you 5c more per chick (which they don't) they pay that back many times over in EXTRA EGGS.

If you are short of room in your brooder house, remember you can have more pullets this fall by buying pullet chicks from me, and remember we guarantee 90% true to sex.

### Cockerels Ready in 8 to 10 Weeks

And don't forget, Leghorn Cockerels usually cost you less but make fine broilers, reaching 1 to 1½ pounds by 8 to 10 weeks. Price poultry is, they'll make you good money, too.

## Two HYBRID EGG-PRODUCERS

Take advantage of Hybrid vigor. These Hybrids:

AUSTRA-WHITE HYBRID  
The Popular Cross

### Combines Good Points

By mating some of my outstanding White Leghorn males with some of my White Rock females I am producing the Leg Rock Hybrids. Combining all the good points of these two great breeds gives you a bird that has all the size of the White Rocks and the egg laying ability of the White Leghorns. They are faster maturing and when mature the hens resemble the White Leghorns, and the males the White Rocks.

### Where We Ship To

Transportation is so difficult these days that we do not recommend shipping farther than 600 miles away from Shenandoah. This is roughly everything within the 4th postal zone. Don't like to disappoint a lot of you good customers who live a long ways away, but this seems most satisfactory for now. You wouldn't want us to send you chicks that may not reach you in 100% Henry Field condition.

### FIELD'S NEW HAMPSHIRE

#### "Leghorn of the Heavy Breeds"

Henry Field's New Hampshire can almost be called the Leghorn of the heavy breed for they are very heavy egg producers and combined with their heavy weight, they are hard to beat. They are noted for fast maturing, rapid feathering and have the vigor and hardiness of the White Leghorn and they have replaced the Leghorn on many farms, due to the size and rapid growth. Remember, large brown eggs bring top market prices.

### Henry Field's

#### BLACK AUSTRALORPS

We crossed the rooster of this breed with Field's famous large type White Leghorn hens to produce our Austra-White Hybrids.

The breed is famous for its massive size, early body maturity and great egg laying ability. They're good rustlers and the black plumage means good insurance against loss from foxes and hawks.

If you try them once you are convinced for good.

### WHITE PLYMOUTH ROCKS

Henry Field's Giant Type White Plymouth Rocks have a beautiful snow-white plumage and very fast maturing and rapid feathering, and will dress out at almost any age, yellow-colored, free from pin feathers, which makes them exceptionally fine for broiler purposes. The White Rocks are one of the most popular all-purpose breeds due to their meat qualities, and their egg laying ability.

### WHITE HAWKEYE Outstanding Hybrid

Here is an early, heavy producer of brown eggs which brings top market prices. It's a quick-maturing hybrid that is also perfect for broiler, fryer, roaster or capon. Easy to raise, because not subject to many diseases. I prefer its rose comb because it is resistant to cold, making less fertility and production worries. On top of this it has all the good points of any hybrid chicken. This was my Chicken of the Year for 1945.

### WHITE WYANDOTTES Early to Market

Henry Field's deep breasted White Wyandottes are the first to go to market. They make exceptionally good broilers and will reach some 2 to 3 lbs. quicker than almost any other variety. They are exceptionally good rustlers and many of our farm friends say that they almost make their living on any farm finding their waste feed around the farm. They are the all-purpose bird and you will find that they are very husky, hardy, and easy to raise and mature very rapidly.

### Plymouth Rocks—The Dual-Purpose Breeds

#### What They Say!

"Our baby chicks arrived yesterday, May 27th. They arrived in fine shape. The chickens pleased us very much. This is our second year for Field's chicks. Last year our pullets began to lay at 4 mos. and 3 weeks old."—Mrs. H. Lee Stephan, Nortonville, Kansas.

"I received my chickens and was sure pleased with them. They are the nicest chickens I have ever had and I certainly do thank you for your fine cooperation in sending my chickens."—Mrs. Geo. F. Tubbs, Route 6, Poplar Bluff, Missouri.

"Just wanted you to know that the chicks you sent are the liveliest bunch I ever saw. They are growing like weeds and there isn't a sick one in the bunch. They will be 7 weeks old Thursday. My chicks were only one day on the road."—Mrs. Art Ziegler, Rt. 2, Gering, Nebraska.

### GIANT BUFF ORPINGTONS Good Winter Layers

Henry Field's Giant Buff Orpingtons are exceptionally good winter layers due to their massive bodies and heavy plumage. These winter eggs come when the market is usually the highest. Our Buff Orpingtons are one of our heaviest varieties of chickens and have a beautiful golden color. They make exceptionally good heavy capons or heavy roasters. If you are interested in winter eggs or heavy meat birds be sure to order Field's Giant Buff Orpingtons today.

### SINGLE COMB RHODE ISLAND REDS

#### Vigorous Egg Producers

Henry Field's deep dark red Rhode Island Reds are favorites on many farms. They are very strong and rugged, beautiful color and are next to Leghorns in egg production. By careful mating and culling I have developed my Reds so they are fast maturing, and quick feathering and will be ready for the early markets. Lay large brown eggs.

### Barred Plymouth Rocks

Henry Field's Barred Plymouth Rocks have proven their money making ability on many farms. They are large in size, fast maturing, rapid feathering and make exceptional fine broilers or heavy roasters and are also good producers of large brown eggs. They are one of the oldest of the All Purpose breeds and have proved very profitable on many farms.

# The Great Step Forward in Hybrid... Combining the Best Research of SEVERAL Companies Into This ONE GREAT HYBRID!

Recognizing the need for BETTER hybrid corn for the cornbelt, MANY midwest hybrid producers decided to **UNITE** their **BEST** inbreds and research to make the **BEST HYBRID POSSIBLE**. The result is **UNITED**—the hybrid that combines the **BEST** of MANY producers—not just of **ONE** producer.

In other words, in **UNITED** you get a **COMPLETE** hybrid. If one of these hybrid producers had the best drought resistant inbred, that went into United. If another had the best insect repellent inbred, that went into **UNITED**. In that way **UNITED** got the **BEST** of **ALL** the inbreds.

Further, all these hybrid producers uniting to make the best hybrid possible makes possible the production of United hybrid over a widespread area that few single companies could match. That means **ADAPTED** hybrids for you—grown for your latitude, in your latitude.

**UNITED** is the best hybrid combined research could make it. **UNITED** is the corn for **YOU**.

## Why I'm 100% for UNITED HYBRIDS!

By Henry Field

This United hybrid makes good common sense. I'm for it and I'll tell you why. Most of you know I've been producing hybrids for over 30 years. In that time I've learned a good bit about hybrids and developed some of the most valuable inbreds in the hybrid world. But one man can't have **ALL** the **BEST** ones and I know that. But by combining the best ones you have with several other hybrid producers and using some of theirs that might be best in their line, you can get an **ALMOST PERFECT HYBRID**.

And that's just what United has done. And the corn is good—much better than anyone could have produced alone. I'm 100% for **UNITED** and am proud my inbreds played a part in the program. I know you're going to be 100% for **UNITED** too.

## The Best of All Breeding Goes Into United

**Insect Tolerance**  
This is one of United's best inbreds for adding insect tolerance to UNITED hybrids. Insects don't like to chew on it and the United hybrids its bred into repel insects, too.

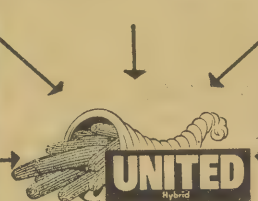

**Drought Resistance**  
This great inbred is one of many that add drought resistance to UNITED HYBRIDS. It is one of the reasons UNITED makes a tremendous yield despite drought or upland conditions.

**UNITED Root Vigor**  
Look at this root system on this inbred. From this UNITED inbred comes much of the ability to produce corn despite drought or high winds.

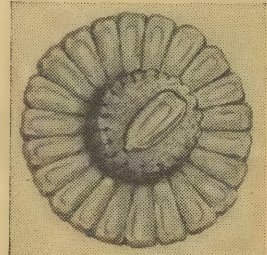

**More Corn With UNITED**  
The first characteristic every UNITED hybrid must have is the ability to make a tremendous yield. UNITED knows it's only corn in the crib that counts.

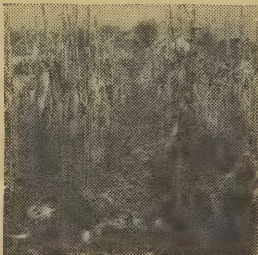

**UNITED HYBRIDS STAND UP**  
All United hybrids have strong stalks, vigorous roots. It stands up despite heavy winds. From this and even ear height, United is easier to pick—by machine or by hand.

**Scrupulous Detasseling**  
Careful detasseling in UNITED'S huge seed production fields grown all over the mid-west means perfect hybrid for you. UNITED'S standards are so high, contamination is virtually impossible.

**UNITED'S Deep Kernel—Small Cob**  
You get **MORE** corn with UNITED for UNITED corn is bred for deep kernel and small cob. It's the shelled corn in the bin that counts and you get it with UNITED.

**UNITED HYBRIDS STAND UP**  
All United hybrids have strong stalks, vigorous roots. It stands up despite heavy winds. From this and even ear height, United is easier to pick—by machine or by hand.

**An Unusual Inbred**  
This is one of UNITED'S special inbreds used in fodder hybrids and to increase leaf size in hybrids of other lines. Note broad leaf characteristics of this inbred.

**U28 THE LARGE EARED EARLY**

(90-95 day) Similar to U 20 but has larger stalk and ear and is a trifle later. Excellent feeding quality and extremely heavy yield. Kernel very deep and large size ear of Minnesota 13 type. One of the best for northern sections but widely used in southern sections for replant corn in the 30 and 40 series sections (see map) and for hogging down in the 50 and 60 series sections.

**U30 THE HEAVY YIELDING MEDIUM EARLY**

Despite its earliness, you can't beat U 30 for a heavy yield. It has made over 100 bu. per acre and some 120 bu. per acre reports have been received. U 30 has a very stiff stalk, deep roots, and a large, medium rough single ear. Has medium soft kernels of high feeding value. Kernels deep, cob small. Ears about 2 1/2 ft. from ground.

**U36 THE ALL-AROUND EARLY**

(100 to 105 day) One of the most 'all-around' hybrids of the earllys. Very heavy yielder, good ear size, very deep kernel with small cob and noted everywhere for its exceptional standability—despite high winds. Ears of beautiful Reid-type, cylindrical show ears. Dark green foliage. Beside the area it matures in, it is also used heavily in the 50 or 60 series sections (see map) for late planting or for early hogging down, and in the 20 series section for fodder.

**U49 THE INSECT TOLERANT HYBRID**

(110 to 115 day) U 49 is another 'all-around' hybrid widely adapted and a sure bet for heavy yields. Has all the good points of high yield, resistance to lodging, holds its ears well, has deep kernel and small cob, high protein content, feeds well. All this combined with 120 bu. per acre yields make it a perfect, sure-fire corn as it performs on average or rich soil, irrigated or non-irrigated land. There's little you can desire in a corn that U 49 does not have.

**U42 THE DROUGHT RESISTANT HYBRID**

(105 to 110 day) U 42 is the hybrid that has made such miraculous performance in the hot, dry drought sections. Despite the heat, it delivers yields as high as 126 bu. per acre. Extra-heavy root system goes deep for moisture. Reid type ear with reddish cast. Extra large size ear. Medium cob and shank. Extra fine for hand picking. Ears absolutely uniform height—4 ft.

**U50 THIS HYBRID CAN 'TAKE IT'**

(115 to 120 day) This hybrid is noted not only for its high yield but its vigorous growth and ability to 'take it' despite the weather. Stands early cold in the spring, ravages of insects, high winds, drought and still comes through with a heavy crop. Ear height about 3 1/2 ft. Adapted to average soils.

**U52 THE DROUGHT RESISTANT HYBRID**

(115 to 120 day) U 52 is outstanding for its ability to resist drought, and still come through with tremendous yields which makes it valuable in its territory. Has huge ear, deep kernels, small cob. Stands well, ears regular height. Easy to pick. Recommended for heaviest yield on average to light soils.

**U55 HEAVY YIELD ON LIGHT SOILS**

(115 to 120 day) If your soil is light, U 55 is the hybrid for you. Delivers tremendous yields on up-land or light soils where other hybrids can't make it. Has large ears, regular at 4 ft. and stands well for easy hand or machine picking. No suckering. Extremely drought resistant.

**U57 THE BIG EAR HYBRID**

(120 to 125 day) U 57 is of the famous Reid type ear (extra large) and replaces U.S. 13 for all purposes. Yields as high as 130 bu. per acre common. Stalks are large and do not show barren ears. Ear height uniform at 4 ft. Easy picker. Stands up well. Best on average to rich soils.

**U59 THE WIDELY ADAPTED HYBRID**

(120 to 125 day) Adapted over wide area doing best on average soil but performing well on almost all soil types with yields of 120 bu. or more common. Has high lodging resistance, medium large stalk and medium foliage. Ear height regular at 4 ft. Easy to pick hand or machine.

**U65 THE 130 BU. PER A. CORN**

(125 to 130 day) U 65 is one of United's heaviest yielders capable of topping 130 bushels per acre easily. Ideal on average to rich soil. Extra-deep kernel.

**U20 EARLIEST HYBRID OF ALL**

(85 to 90 day) This is one of the earliest hybrids available anywhere and one of the heaviest yielders. Has wide adaptability all through the northern area where it matures and produces a heavy yield even in short season. Stands well. Good size ears—very regular at picking height. Dries out fast for early cribbing.

**U47 THE LARGE-EARED HYBRID**

This is the large-eared hybrid with a Reid-type, cylindrical ear of reddish cast. Exceptionally high feeding quality and shelling percentage and is noted because cattle prefer it. Protein is well balanced to make perfect feeding.

**U68 THE NEW LATE HYBRID**

(130 to 135 day) This is United's newest and heaviest yielding of the late hybrids, consistently topping 100 bu. per acre in yields. Very large, medium rough ear. Large thick stock that stands well.

**UNITED'S Sure Yielding BLENDS** Low as 59¢ Bu.

**THROW POLLEN OVER LONG PERIOD**

As more and more records of hybrid corn yields are being made with blends of hybrids, farmers are realizing their great value. For it is true with a scientific hybrid blend year in and year out your yields will be surer, heavier. Ordinarily corn will throw its pollen only 3 or 4 days and if a hot dry spell should catch it then, the yield is reduced. With the UNITED blends which throw pollen over a long period—15 to 20 days—this risk is eliminated and you get a good set of corn despite the drought or dryness.

UNITED blends are available for the 40, 50 or 60 series zones (see map) at only \$7.50 per bu. for the Large and Medium flat grades or \$5.95 for the Special flats or round grades.

**UNITED'S WHITE HYBRIDS**

United is the leader in white hybrids—the result of over 15 years of research in whites. This year plant some white—GET THE PREMIUM WHITE CORN BRINGS.

**U2 THE EARLIEST WHITE**—(90 to 95 day for 20 Zone)  
United is one of the few hybrid companies that have a GOOD early white. U2 is it—one of the earliest white hybrids that bring you premium prices. Yields heavy. Exceptional for standability.

**U3 THE SILVER KING TYPE**—(100 to 105 day for 30 Zone)  
This is the early white hybrid of the Silver King type. Has large ears and an extremely high shelling percentage. One of the few good white hybrids for this maturity zone.

**U4 YIELDS WITH YELLOW**—(110 to 115 day for 40 Zone)  
This white hybrid yields right up with yellow hybrids. Large eared of the Silver King type. Good standability, high shelling percentage.

**U5 SILVERMINE TYPE WHITE HYBRID**—(115 to 120 day for 50 Zone)  
U 5 has outyielded some of the well known yellow hybrids and is one of the outstanding white hybrids developed. It is of the Silvermine type with exceptionally good record of yield, standability and high shelling percentage.

**U6 LARGE EARED LATE WHITE**—(130 to 135 day for 60 Zone)  
This is THE LATE WHITE HYBRID for the southern corn-belt. Made from inbreds from southern strains it has very large ears and stalks, heavy yield. Also desirable for fodder in the far north.

**State and Certified Hybrids If You Want Them**

Although we believe UNITED hybrids are years ahead and the best hybrid buy, we have several of the state numbers for those customers who want them. Here's the list and price.

**IOWA 939**—Widely adapted hybrid from Ohio to Nebraska and yields on almost any soil, especially light soil. Drought resistant. Ears about 3 1/2 ft. About 110 days. Large and Med. Flat \$8.95 bu. Small Edge and Rounds \$7.20 bu.

**IOWA 306**—110 to 115 days, a good replacement for 939. Trifle later and yields more. Large and Med. Flats \$8.95 bu. Small Flats and Rounds \$7.20 bu.

**U. S. 13**—Good Reid Yellow Dent type, single ear, deep kernel. Best suited to rich soil. Large ear. Large and Med. Flats \$8.95 bu. Small Flats and Rounds \$7.20 bu.

# HENRY FIELD'S FIELD SEEDS

Buy DIRECT  
Get the BEST  
and SAVE

The smart buyer will be the early buyer again this year—same as last. Farmers from dozens of states sent right here to Field Seed Headquarters for their needs last year. That is the best way to be sure of seed. Most clovers are again so short the supply won't go round.

Just a friendly tip—get yours now. —Alfalfa John.

**BEST GRADE  
RED CLOVER** ONLY \$3500  
Clean, Pure, New Crop Per Bu.  
Absolutely Dodder Free  
99.25% PURE

Top-notch quality Home Grown Red Clover like this is scarce. We are proud to be able to offer this bright, clean lot that has been triple cleaned, while our supply lasts. It's absolutely the finest quality of Red Clover seed in every way. This seed is well colored, plump berry, and is far cheaper on a live pure basis for you to seed than ordinary lots.

**LOT STANDARD  
RED CLOVER**  
\$3400 BU.

Our standby lot year after year. Bright clean seed from hardy, local grown fields, cleaned to high quality. Vigorous plants from this seed will produce heavy yields of fine stemmed hay easy to take down from the hayloft. High germination, 98½% pure, free from weeds and extra clean.

**YOU ALWAYS SAVE BUYING DIRECT FROM HENRY FIELD**  
You never saw Henry Field when his field seed prices weren't a bargain. And you never saw him short change anybody in quality of seed. The reason is buying direct from him, you cut out a \$1 or \$2 or \$3 or more dealer commission and you get that saving for yourself. Besides that, by buying in such tremendous quantities, I am always able to buy better seed, and buy it at a better price than a small dealer who may sell say only 1/100th as much.

**ONLY CHOICEST  
CAREFULLY  
TESTED SEED IS SOLD BY FIELD**

I challenge anyone to show me better seed, quality for quality, than the beautiful seeds I'm sending out. Fact of the matter is, with the many new modern cleaning machines we have, it's cheaper for us to get all the weed seed out than it used to be to half-clean a lot of seed. Every lot is carefully tested by Ames trained seed analysts, cleaned to remove any weeds or mixtures and labelled carefully for your protection. Buy seed where you get seed like this—seed that you can trust.

**Pasture, Soil-Building at Low Cost!**  
This mixture of white and yellow sweet clover saves you money, but yet is better for pastures because the yellow blossom hardens up earlier and makes earlier pasture and the white blossom lasts longer in the fall, and is ideal for soil improvement. Seed is cheap but for long term requirements. Seeding goes all AAA and pasture is finer stem and long way than straight White Blossom. All hulled and scarified seed. Full 60 lb. bu.

**Best Grade  
SWEET CLOVER**  
\$1175 BU.  
**ABSOLUTELY HIGHEST  
QUALITY NEW CROP**

Here's our best buy for you folks who want the finest, high quality Sweet Clover. Big plump seed 99.50% purity and high germinating. Compare this quality and this price with fancy sweet clover anywhere else. See how much money you can save by buying direct from Henry Field.

**LOT HARDY  
GRIMM ALFALFA**  
Hardest Alfalfa of All \$2800 BU.

Grimm is the hardest alfalfa of all. Its long branching roots go deep, prevent winter-heaving and killing and is good for hard pan or clay subsoil terriorities. Somewhat leafier and higher in feeding value than any other alfalfa. A Real Bargain 98% Pure. You won't be able to find Grimm alfalfa at this price in a few weeks, so buy while we have it.

**Best Northern Grown  
GRIMM ALFALFA**  
ONLY 99¼% Pure \$3500 Per Bu.

This lot is downright honest-to-goodness, high quality, good germination and clean seed. None finer. Plant the acreage you are seeding this spring with Northern grown seed and watch the results. This is fine stemmed, leafy hay. Can't make any promises how long this lot will last, so order early, first come first served. Priced at \$35.00 per bu.

**Field's Special Alfalfa Blend  
Grimm and Other  
Hardy Alfalfas Mixed**  
ONLY \$2700 BU.

**Hardiness and Heavy Production — Choice Seed**  
Here's a real Alfalfa for folks who want choice plump seed of good color but still want it cheap. Contains plump, high-germinating seed but we can sell it for less. Purity 97% or better. This mixture is a blend of the hardest spreading root type alfalfas, tall growing, heavy producing.

**Standard Yellow  
SWEET CLOVER**  
\$1040 BU.

99% Pure, high in germination, plump, new crop and \$10.40 per bushel in 10 bushel lots. Sweet clover is the perfect soil builder. Makes an ideal pasture. The seed crop brings good money year after year. Use only 15 lbs. per acre of this double scarified, strictly cleaned seed. Roll in well on a firm seed bed.

99½% Pure **LOT BEST  
YELLOW BLOSSOM  
SWEET CLOVER** \$1100 BU.

Our very fine fancy quality Sweet Clover. It is finer leaved than White. Does not grow as rank and comes 10 days earlier. There isn't anything that will improve your land quicker. With sweet clover, the shortest crop in years, our advice is to protect yourself at these prices right now. This lot is extra clean and a dandy buy \$11.00 per bu.

**DWARF ESSEX  
RAPE**  
\$1500 Per 100 lbs.

Nothing quite beats rape for hog pasture. The crop is short but we're fortunate in having a good supply of the genuine Dwarf supply of the genuine orders. Essex Seed for early rape is rich in protein—just what young pigs need. It is far cheaper to grow this protein in the form of rape pasture than to buy it in the form of tankage or other feeds. We recommend seeding 6 to 8 lbs. per acre any time from April 1, through the summer months. Ready to pasture in 6 to 8 weeks. 10 lbs. postpaid.....\$ 2.25 25 lbs. postpaid..... 4.75 100 lbs. (F.O.B. Shenandoah)..... 15.00

**BIRDSFOOT  
TREFOIL**  
(Lotus Corniculatus)

This new perennial legume is offered this year for the first time. Have been growing it for seed increase for 3 years. Very fine stemmed. Will grow on more sour type soils than other clovers. Fine for pasture—comes early in spring. No bloating—equal to alfalfa in protein. Limited supply. \$2.25 a lb., postpaid.

**Hubam Clover**

Annual White Sweet Clover  
Blooms and bears  
seed first year  
99¼% PURE

\$1650 Per Bu.

We feel very fortunate that we are able to offer Hubam Clover to you this year. This annual clover blooms and bears its seed the first year. Ideal for plowing under as a green manure crop, too. Swell crop for bee pasture, hay and pasture. Hubam will fit in perfect with your plans to change your fields back into one year rotation program and still have a crop.

All seed bright, clean and new crop—Free of weeds. Haven't had enough Hubam to go around for five years. Here's your chance. Order now. Plant same way and rate as regular Sweet Clover.

**FREE SAMPLES**

Glad to send free samples of any of my field seeds to you at any time. Tell me what you want. Check them for yourself. I invite comparison.

You be the judge. I please you or no deal. Inspect it or test it in any way you see fit and if it doesn't please you in every way you can return it in 10 days and money refunded.

**BEST  
ALSIKE CLOVER**  
98% Pure \$3180 Per Bu.

All Beautiful New Crop Seed

We haven't had enough Alsike to go round for the last five years. This is the first time we have listed it along with our other clovers. Alsike will grow most anywhere and does well even on wet lands. Good soil builder and excellent for hay and pasture. This perennial legume lasts for years and has a finer stem than other clovers. If you want something extra nice and weed free here is about the finest seed you ever set your eyes on. Plant six to eight pounds per acre. It won't last long.

**Alsike Timothy Mix**  
(20 to 25% ALSIKE)  
\$795 BU.

**I'm Long So Selling Cheap**

This is a natural balanced timothy-alsike mixture which I purchased below the market. We have one car of this seed and are offering it at very little more than the regular timothy price. Only \$7.95 per bushel of 45 pounds or good pasture and meadow seeding. The timothy and alsike both will germinate high and of course this lot is free of plump new crop. Only \$7.95 per bushel of 45 lbs.

MY FAMOUS "Lot 50-50"  
PERMANENT HAY AND PASTURE  
50% CLOVERS ONLY

\$9.95 Bu.

Lot 50-50 is always my most popular mixture. It gives splendid results to farmers who want to seed a good, sound, balanced combination of grasses and legumes.

6 Clovers and 6 Grasses  
To insure a good stand everywhere I include 6 CLOVERS (Red Clover, Alsike, Sweet Clover, Korean, White Dutch, and Alfalfa) and 6 GRASSES (Kentucky Blue Grass, Rye Grass, Crested Wheat, Canada Blue, Red Top and Timothy).  
Special price only \$9.95 per bushel of 45 lbs. or \$22.10 per 100 lbs.

Lot 50-50 WITHOUT SWEET CLOVER  
If your land doesn't grow Sweet Clover to advantage we can supply Lot 50-50 without Sweet Clover at only \$10.95 per bushel or \$24.30 per 100 lbs. Sow a bushel on 3 1/2 to 4 acres.

"GOOD BUT CHEAP"

PERMANENT HAY & PASTURE MIXTURE  
SAVES MONEY—HIGH QUALITY

Good But Cheap is a real bargain made up of the highest quality seeds that were bought early. That's why I can make this ridiculously low price and pass the savings on to you.

8 Different Grasses and Clovers

This splendid mixture is composed of 8 different grasses and clovers to give you a combination that grows on all soils and all season long. You can't fail with Good But Cheap Mix. Includes Red Clover, Sweet Clover, Alsike, Kentucky Blue Grass, Redtop, Korean Clover, Rye Grass and Timothy.

Grows Everywhere  
Gives All Season Pasture

This mixture grows on every type of soil, giving pasture all season long. Makes an excellent hay meadow, too.

A REAL BARGAIN

\$7.95 Bu.

Sows 3 1/2 A.

NEW CROP  
SUDAN \$13.50 Per 100 Lbs.

All High Quality—New Crop Seed

This is beautiful seed—98% to 99% pure Sudan, absolutely noxious weed free. Heaviest, plumpest, selected Sudan available. Johnson grass and noxious weed free, of course.

Sow Sudan for Midsummer Feed

Sudan is the answer for summer pasture. Resists droughts, stays green during the hottest months of the year.

Enormous Yielder

Besides carrying more head of livestock per acre than any crop that I know of, Sudan yields 4 to 10 tons of hay per acre. High in feeding value. First hay crop in 60 days and the second crop about 6 weeks later—just before frost. Sow after corn planting time. Drill in close rows or broadcast using about 25 to 30 lbs. per acre. Cover not over 1 inch in depth and pack the seed bed well.

SWEET SUDAN \$17.50 Per 100 Lbs.

SWEET SUDAN is the newest of new introductions. Has far greater disease resistance, non-shattering seed qualities making it far superior to the old Sudan. SWEET SUDAN planted side by side with common Sudan is always the first to be eaten down to the ground. SWEET SUDAN produces more plant growth, remains green longer. Lots more leaves mean a finer, more palatable feed.

SPECIAL: Enough Sweet Sudan to plant an acre—20 lbs. for \$4.25, postpaid.

MIDLAND \$8.00 Per 100 Lbs.

Early Combine Grain Sorghum  
Here is one of the best introductions in years in early combine grain type sorghums. Midland produces heavy yields of good quality grain, disease resistant than old type Kalo.

Heads of Midland are compact, straight and produced well above the leaves for early harvest. In tests was 12 days earlier maturing in Nebraska than Martin's Combine Milo. Highly resistant to chinch bug damage. Will stand in the field long after maturity for late harvest.

Last year we called this No. 617. Now it has its own name.

RED CLOVER MIXTURE \$13.75 Per Bu.

35% Red Clover Balance Alsike & Timothy

This super right mixture makes an ideal seeding. Only an early purchase makes such a price possible on this lot of seed.

Makes Good Pasture Too

With the Timothy to provide the roughage it makes a pasture that is free from bloat. Sow alone or with your regular oat seeding. Just see that the seed is rolled in Seed 10 to 12 lbs. per acre.

NORKAN Like Atlas Only Earlier \$9.50 Per 100 Lbs.

We introduced Norkan and it caught on like wildfire. Sold over two carloads and had many fine reports on results.

It was selected from a cross of Atlas Sorgho and Sumac Cane and could have rightly been named Early Atlas. It is similar in appearance to Atlas but does not grow as tall and is 10 days earlier maturing. Extra sweet and a dandy dual-purpose type. Recommended to those who like Atlas but want it earlier.

The Sensational New  
GURNO

- It's WHITE SEED
- It's EARLIEST
- It's COMBINE TYPE

At last! A grain sorghum that will give you a huge yield of grain IN A HURRY. GURNO—time a WHITE SEED sorghum for the first BINE TYPE AND EARLY. And it's one of the EARLIEST OF ALL, maturing in 60 to 80 days to make a heavy yield even if planted late. Stands drought, resists chinch bug injury, is not susceptible to root rot and stands well after maturing unlike many sorghums. All in all where, particularly those of Nebraska, Northern Iowa, South Dakota and elsewhere where an EARLY white seeded Combine type grain sorghum has been needed.

Plant like corn, 5 lbs. per A. ONLY LIMITED QUANTITIES AVAILABLE THIS YEAR. ORDER EARLY.  
Price:  
Enough for 3 acres (15 lbs.) \$7.35, postpaid.  
Enough for 2 acres (10 lbs.) 5.00, postpaid.  
Enough for 1 acre (5 lbs.) 2.75, postpaid.  
Per 100 lbs. \$10.00 F. O. B. Shenandoah

BROME GRASS Northern Grown \$29.00 per 100 lbs.

Ex. Heavy Best No. 1

We urge you to buy your BROME early this year. Get the best. Be sure you get clean seed. Much Brome sold, unless bought at a reliable seedhouse, contains up to 40% Cheat. This is Cheat free.

Drought Resistant

Roots go down deep for moisture, stand the severest hot weather. Starts early—one of the first grasses to green up. Lasts two weeks later in the fall. Winter hardy. All livestock like it. Ideal combination with alfalfa and sweet clover or lespedeza.

Plant early in spring. Roll seedbed firm and cover lightly. Sow alone 15 lbs. per acre. Or use 4 lbs. alfalfa and 10 to 12 lbs. of Brome together.

BROME GRASS MIX FOR DRY LANDS (Permanent Hay and Pasture) \$27.75 Per 100 Lbs. Sows 7 A.

Here is the mixture for dry land that you have been waiting for. Gets along with very little rainfall and keeps coming on all season long and for years to come.

Contains over 50% Brome Grass with other hardy native dry land grasses such as, Crested Wheat Grass and Slender Wheat Grass. Great crop where rainfall is heavier too. Makes you real money because all livestock like it.

HOW TO SOW

Sow 12 to 15 lbs. per acre early. Roll in well on a firm seed bed. Add 5 lbs. of alfalfa to the acre if you wish. It will increase the protein content and you can then pasture alfalfa with no fear of bloat.

GIANT ATLAS SORGO

The most sensational forage crop I've ever seen. Enormous producer. Outyields corn for fodder 3 to 1 and makes 15 to 20 tons of fodder or silage per A.

State Certified Seed ONLY  
\$12.50 Per 100 Lbs.

LIVES ANYWHERE

Atlas seems to love drought. Even if corn is severely dried up, Atlas stays green and makes a huge growth. Grasshoppers and Chinch Bugs don't like it.

Sow 8 to 10 lbs. per acre with large corn plate running full speed. The more you sow, the finer the stems. Cover 1" deep. It costs less than 60c per A. to sow best CERTIFIED SEED.

EARLY LESPEDEZA

(Hulled and Scarified)  
\$10.80 60 Lbs.  
\$18.00 Per 100 lbs.

EARLIER AND HEAVIER YIELDER

This is the new Early Lespedeza—averages 6" taller, much earlier, and heavier yielding than common strains, making it ideal for folks in Ia., Ill., Ind., and Ohio, who need an early type and who have not had success with ordinary Lespedeza.

GROWS ANYWHERE

Especially valued where other legumes will not grow. Will grow on the sourest soil and will build it up by adding nitrogen. High purity, new crop Early Lespedeza is limited in supply—order now!  
Hulled and scarified seed goes almost twice as far, germinates quicker. Plant as early as you can get on the land. Seed at rate of 8 to 10 pounds per acre.

TIMOTHY-RED CLOVER MIX 20-25% CLOVER \$8.50 Per Bu.

This is a nice clean lot of seed that will save you from 25-40% over seed purchased separately and mixed together. Recleaned, of course, the same as any other lot of seed. Excellent for hay and makes pasture too. Excellent ready to sow and a heavy producer. It will build up your land and check soil washing too. A bushel (45 lbs.) will plant 4 Acres nicely and at this rate square foot will give 25 plants per the Timothy in addition. This lot has always been one of our most popular mixtures.

## Be sure to INOCULATE All Clovers, Alfalfa, Beans and Peas Makes Them Yield More—Start Faster

Don't spend good money for clover and alfalfa seed, without inoculating it. It not only DOES BETTER, but MUST BE INOCULATED TO TAKE NITROGEN FROM THE AIR AND PUT IT IN YOUR SOIL.

Makes better clover stands and heavier yields of crops to follow. You should inoculate even if land was inoculated before.

When ordering, always state name of seed.

# LAWN SEED

## Henry Field's SPECIAL FORMULAS For PERMANENT GREEN LAWNS

### HOW TO HAVE A GREEN LAWN QUICKLY

Get out real early in the spring, rake your lawn good, sow your seed and roll it in with a heavy roller, or rake it in LIGHTLY and tramp it in solid.

Sow 1 lb. for every 200 square ft. of new lawn and 1 lb. for every 400 square ft. of old lawn (to thicken).

NOTE: Early Seeding is Important. If You Like Sow Your Seed on the Snow. The freeze and thaw Will Work It in the soil for you.

### Field's New HYBRID ELM

Has All the Good Points of the American Elm and Chinese Elm—None of the Bad

This Tree Only 3 Years Old

Supply very limited. When we run out I will book your orders for fall delivery. H. F.

The Perfect Cross for Shade Trees—No finer cross could be made for a shade tree than to combine the permanence and beauty of the American Elm with the rapid growth of Chinese Elm.

Resembles American Elm—Its leaves are very large, dark green. The bark is smooth and a medium grey color. The branches are identical to the American Elm—straight and strong. It does not break in a high wind.

Grows 8 to 14 Feet Per Year!—It has this habit from the Chinese Elm, but has far outstripped it. Records show they have grown as much as 14 feet in one year.

100% Hardy—Hot weather, cold weather—it's all the same to this new Hybrid. Not even the tips of the branches were hurt in the Armistice Day freeze in 1940 which took so many of our trees here in Shenandoah. Where ordinary varieties killed out, the Hybrid Elm was not hurt the slightest. And hot or dry, growth doesn't stop.

Limited Supply—There are no trees available in the United States when our limited supply is exhausted, so I urge you to reserve the trees you want as early as possible.
